# CLEANING VALUE

# EQUIPMENT SPECIALISTS

It's a TTS product  
If...

it encourages a high standard of **hygiene**

it reduces **times** and therefore costs of operations

it is **ergonomic** and protects operator's health

it is **easy** to use, modular and customizable

it is unique in **design** and details

it reduces waste and **environmental impact**

# ABOUT US | A STORY OF SUCCESS

Our  
numbers :

1987 year of **foundation**

15 years: average **length of service** of our staff

42.000 m<sup>2</sup> of **warehouses**

More than 100 **patents** filed

We export to over 80 **countries** worldwide

4 **foreign branches**: Spain, Brazil, UK and Germany

More than 4.200 **items** in the catalogue

made in Italy

# OUR VALUE IS

## COMPETENCE

- **Over 30 years** of activity on the market
- **Manufacturer specialised** in manual cleaning
- Experts in **healthcare** cleaning
- **Direct experience** gained in the field
- **Analysis of the needs** in the various sectors

# YOUR PROFESSIONALISM

## SERVICE

- Our experts at your disposal to provide **sales force and operators training** on the use of TTS products and the correct procedures for cleaning and sanitising environments
- **Surveys on sites** to detect specific needs
- **Wide range of products** to find custom-made solutions
- **Quick deliveries** : our stock at your disposal
- **After sale support**, components and parts always available

# Green

## IS BETTER

TTS has always been committed to the **eco-sustainability** of its production and the **safeguard of natural resources**, always following many eco-sustainability criteria: using environmental company and product labels recognised at European level; promoting material recycling; designing systems that **minimise environmental impact**; favouring **clean energy** sources; and much more!

Many of such actions are in line with the European Directives (GPP - Green Public Procurement), which outline the approach used by Public Administrations in incorporating environmental requirements in all the stages of the procurement process, promoting **environmental technologies** and the develop of more environmentally acceptable products.

## TTS HAS BEEN WORKING FOR 30 YEARS AT THE SERVICE OF CUSTOMERS

### Your satisfaction is our objective!

We continuously work to give you high quality products, easy to use and long lasting, so that you can save on costs and service times.

Our R&D department is always busy in designing for you systems ensuring more efficient, hygienic and eco-sustainable cleaning processes for all operators!

# TARGET SUSTAINABILITY

A CLEANER  
WORLD...

## COMPANY CERTIFICATION

- Certification **ISO 9001**
- Certification **ISO 14001**
- Certification **SMETA**
- Certification **ECOVADIS**
- **REACH** Compliance

## PRODUCT CERTIFICATIONS

- **PSV**: Plastic Second Life
- **EU Ecolabel**
- **Carbon Footprint Systematic Approach**

## COMMERCIAL BRANCHES

- **Timely service** to customers
- **Reducing the environmental impact** of transport

## USE OF PURE POLYMERS

- Products made from 100% polypropylene:  
**fully recyclable**
- Use of raw materials deriving from recycling:  
**low environmental impact**

## PRODUCTION AND USE OF CLEAN ENERGY

Use of **solar energy** obtained from the photovoltaic system installed in 2011

made in Italy

## QUALITY AND ENVIRONMENT CERTIFICATIONS

### ISO 9001:2015 – Quality Certificate

The tested TTS Quality System has enabled the company to obtain in 2001 the important ISO 9001 certification. This certificate commits the company to continuous quality improvement in terms of internal processes and organisational systems, with the aim of ensuring maximum customer satisfaction. All the control actions implemented across the whole production chain comply with current standards and are acknowledged, implemented and consolidated within the company.

### ISO 14001:2015 – Environmental Certificate

Safeguard of the environment, continuous improvement in terms of environmental impact and the prevention of all types of pollution have always been among TTS fundamental objectives. For this purpose, the company has devised and implemented its own Environmental management system, certified following the requirements of the UNI EN ISO 14001 Environmental Management Systems international standard.

### A sustainable choice

### SOLAR ENERGY:

The **photovoltaic system** allows us to power the whole textile production process, providing a strong contribution to sustainable development.

Since 2011 our **CO2** emissions  
have been reduced by

-115

tonnes  
each year

# PSV CERTIFICATE PLASTIC SECOND LIFE

made in Italy

MAGIC SYSTEM 730B

TTS has always been committed to designing **sustainable professional systems**, solely using quality materials with **low environmental impact**. In particular, the company stands out for a wide range of products with components made from high percentages of recycled polypropylene, certified as Second Life Plastic.

The polypropylene makes TTS products particularly **strong, long lasting and recyclable at the end of their life**, contributing in a tangible way to the safeguard of the environment. The use of recycled plastic also makes it possible to preserve the traditional colours that have always characterised the whole range of TTS products. Since 2012 TTS has been using only **premium recycled plastic**, the only option that allows the traditional colours that characterise the TTS product range.

Symbol identifying  
eco-sustainable products

The "Plastic Second Life" mark is an environmental product certification intended for materials and products obtained from the recycling of plastic waste.

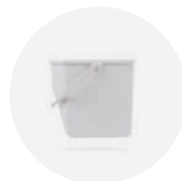

## WASHING TROLLEYS

## BUCKETS

Made using high quantities of recycled plastic

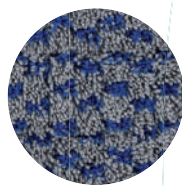

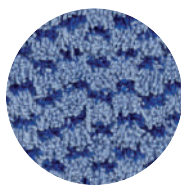

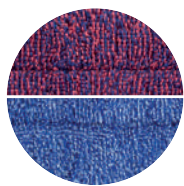

## BINS

Green solutions for separate waste collection

# EU ECOLABEL CERTIFICATION

— ULTRASAFE — MICROBLUE — MICROSAFE — MICROSAFE WIDE — MICROSPLIT 32 — MOP —

The wide range of TTS yarns includes **flat mops and mops certified Ecolabel EU, the environmental excellence** mark of the European Union that identifies the products with the lowest environmental impact. The prestigious label was issued after a careful evaluation by independent experts, carried out based on rigorous scientifically defined criteria.

In an Ecolabel product there is a certification for the **absence, or presence within very strict limits, of countless substances harmful** to both people and the environment, including lead, formaldehyde and biocides.

The Ecolabel also certifies **sustainability from the production phase and resistance over time to washing, rubbing and light.**

The EU Ecolabel is a European eco-label that certifies products with high performance standards and low environmental impact throughout their life cycle.

## EU ECOLABEL-CERTIFIED PRODUCTS ARE A GUARANTEE OF

LOW ENVIRONMENTAL  
IMPACT

PROTECTION OF THE OPERA-  
TOR'S HEALTH

DURABILITY

# CARBON FOOTPRINT

made in Italy

TTS has developed a **system for the quantification of greenhouse gas emissions for each phase of the product life**: in this way, it is possible to identify the most critical phases, implementing concrete actions aimed at reducing CO<sub>2</sub>e.

The work carried out has made it possible to achieve important goals: TTS is one of the first companies in the world to have obtained the **CFP Systematic Approach** implemented and the **Magic Line 120** trolley is the first product to have obtained the **Carbon Footprint Italy** mark, the Italian Programme Operator dedicated to communicating the results of the quantification of greenhouse gas emissions and their reductions.

## ANOTHER STEP TOWARDS A CLEANER FUTURE

In 2019 TTS has started a **long-term compensation programme** to fully absorb the emissions associated with the annual production of Magic trolleys thus making it the **first carbon neutral trolley line**.

A concrete gesture in support of the **Natura7** and **Amazonbai** projects that not only allows the absorption of countless tonnes of CO<sub>2</sub> but also helps to safeguard endangered ecosystems, protect biodiversity and support the work of local communities.

## Packaging green

98.8% of the products sold travel inside cardboard packaging, an **ecological material** as it is made of natural fibres and **easily recyclable at the end of life**. 91% of the cardboard used contains **80% to 100% recycled paper**.

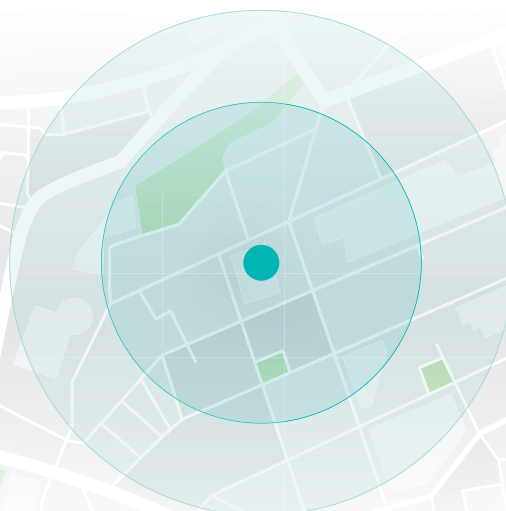

## Optimized transport

The products are **designed to take up as little space as possible**: stackable frames, foldable bag holders and compactable handles are just some of the solutions developed by TTS which, in addition to ensuring maximum efficiency in terms of **space saving**, **allow to optimize packaging and therefore transport**, reducing the environmental impact.

## THE ORIGIN OF MATERIAL

### Suppliers zero km

The plastic used to make the products comes exclusively from **selected suppliers** that are located at a **maximum distance of 45 km** from TTS headquarters: the proximity to manufacturers and printers makes it possible to **guarantee the origin of the materials and reduce CO2 emissions linked to transport**.

## Each of your creations becomes for us a big project!

Create the best trolley according to your needs: it is proven that a **custom-made trolley** reduces working time up to **19%**. From the wheel to the bucket: each small detail of your configuration is very important! After you have built up your ideal trolley, you could send us **your project** with just one click and ask for information.

## Your price lists become smart!

We have created for you an on line reserved platform to manage your sales price lists:

- **SEE** real-time your TTS purchase prices, always updated
- **CREATE** specific price list for the different mark-up: making customized offers has never been so easy!
- **MANAGE** all price list in your on line space with restricted access
- **CREATE** and inform your sales people about the codes of their price list: they will always see the updated prices

## Always ready, wherever you are!

Present your best commercial offers **anywhere** and **whenever**!

**Limitless**: from today Magic Mobile can be used with **Android, iOS and Windows**.

## Try Magic Mobile, TTS trolley configurator!

An easy tool, always at your fingertips and updated in realtime, to build step by step the cleaning trolley fitting your needs at best.

# TTS GETS A NEW LOOK

Not only efficient, ergonomic, and sustainable, TTS products also stand out for their **unique look**. The **modern, stylish design** and **extreme attention to detail** make the entire range unique, giving the cleaning service a professional and high-quality image.

Now **frames, tank handles, washing trolleys and multi-purpose trolleys** feature **new colours** to make them even more stylish: the colours have been carefully selected and matched to allow the cleaning systems to **integrate harmoniously into any environment**, perfectly combining aesthetics and functionality.

For TTS, **colour is a key element** that can influence our perception of our surroundings, directing our feelings and reactions. Several studies have shown the ability of certain colours to promote a sense of well-being: **green** in its various shades **evokes feelings of calm, peace and tranquillity** and, last but not least, promotes **a perception of greater cleanliness**.\*

The restyling of TTS products and accessories will be gradual throughout 2021, providing cleaning services with **professional solutions** that are **both high-performing and discreet**.

\* Ask for the report for more information

## A preview of the new look:

# GENERAL PRODUCT SAFETY

## GENERAL SAFETY OF PLASTIC, METAL AND MIXED PRODUCTS

Our products do not need product certification, as they meet the definition of Italian Legislative Decree 115 of 17.03.95.

Based on such decree, a safe product is a product that during normal or reasonably predictable use, including in terms of duration, does not pose any hazards or only minimum hazards, compatible with the use of the product itself.

The items listed, produced by **TTS CLEANING S.R.L.** are not within the scope of any European Product Directives. In specific, they are not within the scope of the 93/37/EC Machine Directive, the 73/23/EC Low Voltage Directive and the 89/336/EC Electromagnetic Compatibility Directive.

Also, no specific risks connected with the cleaning items or systems of relevance have been identified.

None of the materials used are sources of chemical hazards for the users health.

The company constantly monitors the materials used, keeping their safety data sheets on file.

As far as safety is concerned, it must be pointed out that the product may not be used by non-professional users, or on non-level surfaces with slopes exceeding 1%.

It is also recommended that the items are stored away from the reach of children.

Lastly, the company shall not be held responsible for any damage caused by the substances used by operators.

## SAFETY OF ELECTRIC ITEMS AND MOTOR-DRIVEN TROLLEYS

Our electric items - Aura range - meet the 89/336/EEC Electromagnetic Compatibility Directive and are all CE marked.

Our motorized trolleys meet the essential safety requirements of Attached I of the 2006/42/EC Machine Directive, the requirements of the 2014/35/EU Low Voltage Directive and of the 89/336/EEC Electromagnetic Compatibility Directive.

Also as far as motorized trolleys:

- The **RISK** assessment has been completed in compliance with UNI EN 12100:2010.
- The **MECHANICAL** hazard assessment has been completed in compliance with UNI EN ISO 14120.
- The **ELECTRICAL** hazard assessment has been completed in compliance with IEC 60204.

Before using electric items and motorized trolleys, the operator must read the instruction booklet, which must be strictly followed. For any doubts, the operator can refer to the Manufacturer or the available Support Centres.

The materials used for the manufacturing of electric items and motorized trolleys are all materials that do not pose any chemical hazards for the health of users. The company constantly monitors the materials used, keeping their safety data sheets on file.

However, the batteries of motorized trolleys must be treated in compliance with the instruction booklet provisions and instructions for their conservation and replacement.

Motorized trolleys must only be used for transporting cleaning materials and items, laundry and similar, and always by qualified professional operators, meaning operators trained by the employer on their use and the risks that such use may entail. All the provisions of the instruction booklet must be followed during use. It is also recommended that the items are stored away from the reach of children.

Lastly, the manufacturer shall not be held responsible for any damage caused by the use of the electric items and the motorized trolleys produced by the operator.

## DECLARATION OF CONFORMITY

All the products manufactured by our company comply with current safety laws and are covered by "Product Civil Responsibility" insurance policy.

TTS CLEANING S.R.L.

## Lampo

Quick hooking and unhooking system

### FEATURES

- **TIME SAVING:** hooks dusters and web brushes quickly and unhooks them just as quickly
- **HIGHEST SECURITY:** keeps the tool fixed during use, preventing accidental release
- **UNIVERSAL SOLUTION:** allows the use of one handle for all cleaning operations

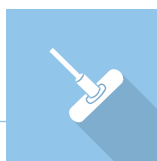

### FACILITATES CLEANING

Access the most difficult-to-reach and high surfaces by hooking dusters and web brushes to handles and poles

### DOUBLES THE CHOICE

Jack Lampo with Italian thread is available in versions for handles  $\varnothing \leq 23$  mm and poles  $\varnothing \leq 21$  mm

## Dusting - Dusters and web brushes

### BiLap Twist

### Twisting duster

#### FEATURES

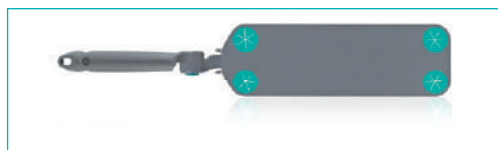

- **REDUCES THE QUANTITY OF CLOTHS USED:** BiLap Twist uses the same cloths that are normally used for manual surface cleaning
- **INCREASES PRODUCTIVITY, REDUCES STRAIN:** BiLap Twist covers a larger surface in comparison to manual wiping
- **MAXIMUM HYGIENE WITHOUT WASTE OF TIME:** BiLap allows to change cloth in each room (bedrooms, restrooms...)
- **REACHES ANY SURFACE:** just one single tool for quick and precise cleaning of hard-to-reach surfaces with regard to highness, depth or inclination.
- **DOUBLE CLEANING:** thanks to the twisting plate you can use both sides of the frame, you double surface cleaning
- **UNIVERSAL CLIPS TO FIX CLOTHS:** BiLap Twist is to be used with multipurpose, disposable or antistatic cloths
- **QUICK ADJUSTMENT SYSTEM:** button system in order to incline the frame up to 270°
- **HOOING AND UNHOOKING LAMPO SYSTEM:** handgrip with Lampo system allows BiLap Twist frame to be quickly attached to the telescopic handle or pole to access higher surfaces

#### SYSTEMS AND USE

#### BiLap Twist, Bendy and Bit

#### BiLap Twist frame

Duster with revolving plate inclining up to 270° with universal clips and Lampo system handgrip with removable cap

code	notes	cm	C
00008895		↙ 54 ↘ 11	

To be used with microfibre cloths (minimal size of one side: 35 cm)

## Bendy

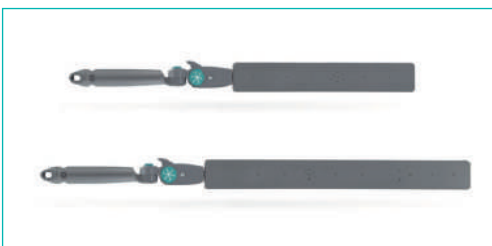

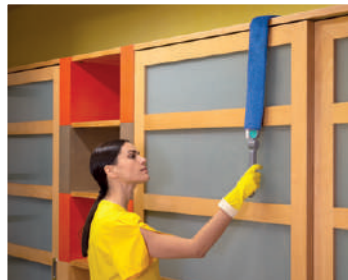

## Flexible duster

### FEATURES

- Flexible and foldable duster, inclining up to 270° thanks to the practical button system
- Supplied with a hook to fasten the mop head and with an universal clip to fasten the disposable cloths
- Used to dust hard-to-reach surfaces or with particular shapes like wardrobes, shelves, beds, tube-shaped lamps
- With polyethylene support: strong, easy to shape and to clean
- Thanks to the handgrip with Lampo system, Bendy can be quickly attached to the telescopic handle or pole to access higher surfaces

### SYSTEMS

**La pulizia senza sprechi: un obiettivo economico, ambientale e di benessere per gli operatori**

La professionalità ed efficienza nelle operazioni di pulizia si traduce nell'eliminazione di sprechi di acqua, detersivo, tempo dell'operatore, energia e affaticamento dell'operatore. Queste ottimizzazioni portano a notevoli vantaggi in prima per gli operatori che svolgeranno le loro mansioni in modo rapido e senza affaticamento, migliorando il loro benessere e di conseguenza anche la loro produttività al lavoro.

[LEGGI TUTTO](#)

**Operare efficacemente e professionalmente in spazi ristretti**

Lo spazio oggi è sempre più una risorsa scarsa e costosa specialmente nelle grandi metropoli, sempre meno strutture sono disposte ad ospitare locali alle operazioni di pulizia e di stoccaggio del materiale di lavoro. Questo trend si manifesta in tutti i settori, albergo, ristorazione, uffici, abitazioni e sanitario.

## Problem-solving systems

### Drip-Fix

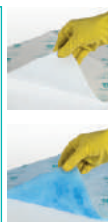

### Disposable super-absorbing floor cloth

#### FEATURES

- **HIGHLY EFFICIENT:** problem solver for accidental spillage, it absorbs the liquid and holds it up, without any dripping and the floor is quickly dry
- **NO DRIPPING:** the super-absorbing polymers inside the cloth transform the liquid into a gel, which is bonded safe, without any dripping
- **SUPER-ABSORBING:** it absorbs in a few seconds approximately 1000 ml of tap water, drinks, oils or organic liquids
- **ALL-IN-ONE:** it absorbs easily water, drinks, oils, organic liquids and chlorine bleach
- **FAST AND MULTIUSE:** absorbs different types of viscous and highly viscous liquids in 30 to 150 seconds
- **HIGHEST SAFETY:** the floor is quickly dry, thus avoiding the risk of accidental slipping
- **NO RISK OF CROSS CONTAMINATION:** the upper printed side is impermeable and avoids any contact with the liquid
- **HYGIENE GUARANTEED:** it avoids any contact thanks to the upper impermeable printed side and is safely disposed of according to the waste collection plan
- **DISPOSABLE:** safe and quick disposal of the used cloth, no risk of cross contamination

#### Disposable cloths

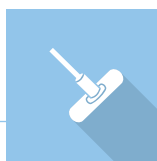

#### Drip-Fix

It absorbs water, drinks, oil, organic liquids and chlorine bleach

## Manual disposable cloth on a roll

The best solution for a quick and precise cleaning of surfaces

*Cloth for manual cleaning of surfaces, can be used dry or soaked with detergent or disinfectant solution*

*Greatest control on cross contamination*

### QUICK SOAKING with 4 L bucket with lid

### FEATURES

- **EFFECTIVE:** the special pierced layer grants an effective dirt collection
- **ABSORBENT:** excellent absorbency and homogeneous release of the solution
- **RESISTANT:** TNT fibres reduce the risk of accidental tearing compared to paper
- **DRY USE:** ideal for industry due to its excellent oil absorption capacity and good solvent resistance

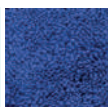

### Manual disposable cloth on a roll

## ECOLABEL EU-CERTIFIED MICROFIBRES

High performance,  
low environmental impact

made in Italy

Touch-

TOUCH LINE

Inadequate care of the surfaces risks damaging them irremediably, so it is necessary to use only suitable equipment that can ensure deep and gentle cleaning at the same time.

Touch line cloths meet the needs of the different surfaces to be treated, ensuring maximum performance in minimum time and effort. The unique range offers high quality solutions for every surface, including the most delicate ones.

The products are organised by use: Specialists and Multipurpose

SPECIALISTS

Cloths designed for specific tasks, they clean effectively without streaks and provide quick drying of the surface.

MULTIPURPOSE

Cloths to be used dry for quick daily cleaning. For more deep and professional dusting they can be used wet or with detergent.

COLOUR CODED

LOW RISK

Blue cloths used for all surfaces such as tables, desks, screens, furniture, telephones, mirrors, cabinets.

LOW RISK

Green cloths used in foodprocessing and food-serving areas, such as bars and restaurants.

MEDIUM RISK

Yellow cloths used in toilets to wash basins, taps, tiles, mirrors.

HIGH RISK

Red cloths used in high-risk applications such as toilets and urinals.

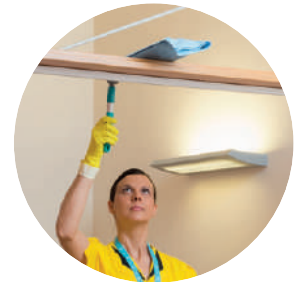

## SUITABLE SYSTEMS

### BiLap Twist frame

Duster with revolving plate inclining up to 270° with universal clips and Lampo system handle with removable cap

### Bit frame

Duster inclining up to 270° with universal clips and Lampo system handle with removable cap

## Dosely

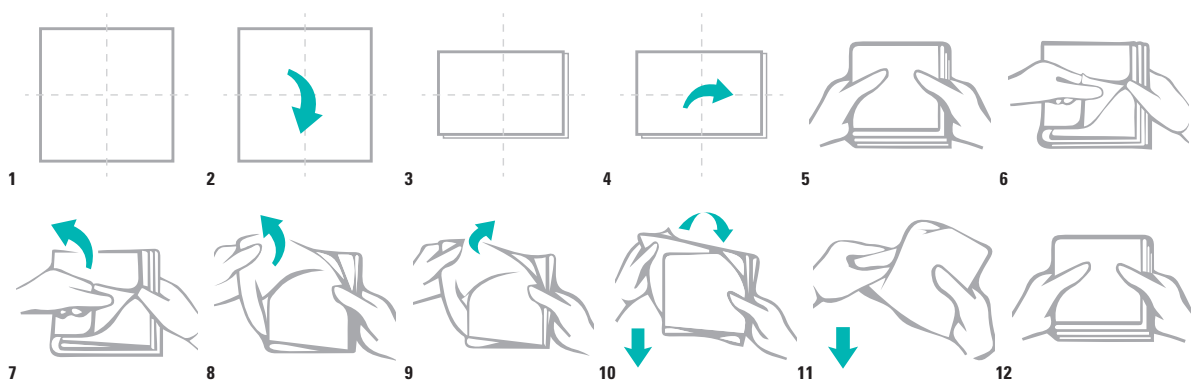

Double dosing device for on-demand mop soaking

**Ideal for soaking manual cloths, allows you to adjust the cleaning solution from 50 to 350 ml**

## Floor dusting systems

### Dusting systems

### Flat mops, cloths and frames for floor dusting

#### FEATURES

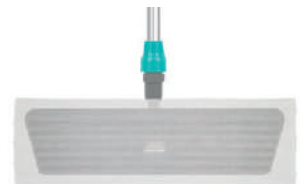

Dusting systems eliminate dust quickly and effectively, avoiding lifting and consequent dispersion in the environment

The solutions realized have been specifically designed for dry or wet use, depending on the needs.

The traditional systems for dry dusting adhere perfectly to the floor, capturing and retaining even the smallest particle of dust. The flat mops are available in cotton or acrylic and are long lasting, representing an excellent investment with low environmental impact.

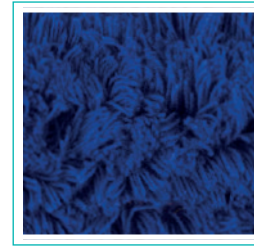

Systems for damp dusting glide effortlessly on surfaces, collecting dust without residues. High performance is combined with maximum hygiene: the range of disposable cloths, available with mineral oils, vegetable oils or glue, ensures control on cross contamination.

## PBT brooms

## Brushes and brooms with PBT bristles

### FEATURES

- **IDEAL FOR FOOD INDUSTRY:** stand out for their high resistance to chlorine and caustic cleaning solutions
- **GRANTED RESISTANCE:** non-hygroscopic and sterilizable in an autoclave up to 120 °C
- **HIGHEST SECURITY:** the blue colour of the bristles allows immediate detection in the event of accidental fragmentation
- **LONG LIFE OF THE PRODUCT:** shock-resistant and for frequent use, they do not deform with use or when subjected to temperature variations
- **HYGIENE AND CLEANING:** in comparison with other colours, the blue bristles make it easier to identify the presence of food residues, spores, mold and detergent
- **MAXIMUM EFFICIENCY:** PBT bristles are characterized by low friction, that grants high performances in terms of cleaning

## Dustpans for waste collection

### B-Fly / Clip

### Dustpans with foldable grip

#### FEATURES

- B-Fly is the dust-pan and squeegee system that allows you to clean any type of dirt, solid or liquid, dry or damp, without bending, thus avoiding any direct contact with the spillage
- Ideal for bars, restaurants, canteens and hospitals
- Ergonomic, handy, easy to use and to clean
- Efficient in picking up waste because it adheres perfectly to the floor
- You just have to detach the bag to get rid of waste, thus avoiding contact with hands and keeping away unpleasant odours, which normal dustpans cannot do
- B-Fly and Clip dustpans are provided with a handle holder and a practical foldable grip, easier to put away after use, thus reducing volume

#### Dustpans

## Fabrics

### COTTON

- **Material deriving from low impact and recyclable production processes**
- It effectively removes and retains dust and residual dirt
- Available with different finishes to satisfy any need
- ◆ **wide central band** makes mop fixing to the clamp easier
- ◆ **narrow central band** ensures a highly cost-saving product
- ◆ the **tailband** keeps fibres united granting a better dirt collection
- ◆ **looped end yarn** prevents the natural process of yarn unraveling making the mop more durable and launderable

### VISCOSE

- It is characterized by a large floor coverage
- It does not get damaged, does not mold and does not rot
- Prevents the formation of bad smells
- It can be used with chlorine

### MICROFIBRE

- It effectively removes and collects dirt and bacteria
- The high mechanical action of removing dirt and bacteria reduces the consumption of water and chemicals
- It resists to frequent washing, granting a long life of the product

## Frames

### CLAMP

High quality plastic system

- **100% recyclable**
- Easy to fix
- Long lasting
- Available in different colours

### BIX

Ring nut system

- **100% recyclable**
- Suitable for all types of handles
- Long-lasting
- Can be wringed by rotating on both sides

### SOCKET

Thread system

- Practical and handy
- Easy to use
- Always ready-to-use
- Robust and resistant

**Increases mop efficiency**

- more cleaning material
- easily machine washable

## COTTON MOPS CERTIFIED

THE ENVIRONMENTAL EXCELLENCE  
MARK OF THE EUROPEAN UNION THAT  
IDENTIFIES THE PRODUCTS WITH THE  
LOWEST ENVIRONMENTAL IMPACT

### GUARANTEE OF:

- absence or presence within very strict limits of substances harmful to people and the environment
- sustainability from the production stage onwards
- resistance to washing, rubbing and light over time

### COTTON

#### EFFECTIVE & ECO-FRIENDLY

- It effectively removes and retains dust and residual dirt
- It ensures high absorbing power and a large floor coverage
- Material deriving from low impact and recyclable production processes and recyclable at end of life

# TTS GETS A NEW LOOK

The perfect combination of aesthetics and functionality

## MICROFIBRE AND TNT

HIGH-PERFORMANCE

*made in Italy*

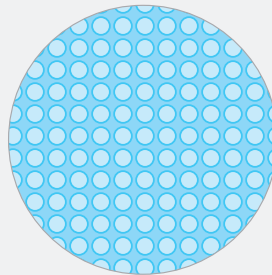

### Nonwoven fabric

MULTI LAYER

LARGE FLOOR COVERAGE

ZERO CONTAMINATION RISK

TNT

Disposable  
maximum cost-  
effectiveness

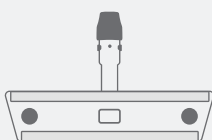

## WASHING

EXON - MICRO-STRAP TAPE SYSTEM

### Micro-strap tape system for maximum grip

Combining the Exon frame with the disposable cloths makes it possible to use a particularly **lightweight system** that makes it **easier to wash** floors and **speeds up the replacement of the cloth**, with less effort for the operator.

The cloths provide a **good dirt collection** and **remain firmly attached to the frame during use** thanks to the special micro-strap tape bars.

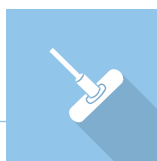

#### INFO AND ADVANTAGES

**ERGONOMIC:** micro-strap tape system is lightweight, easy to use and easy mop fitting

**EFFICIENT:** excellent hold of the special micro strap tape system on the fibres of disposable cloths

## DISPOSABLE CLOTHS

### THE EFFICIENCY OF DISPOSABLE CLOTHS

#### TTS Microfibre

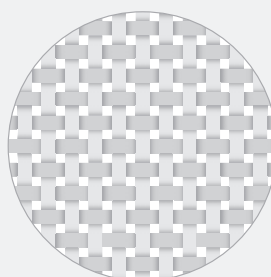

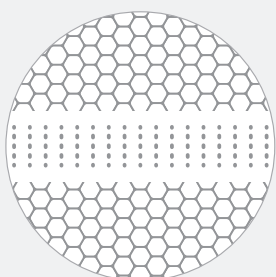

ECO-FRIENDLY

MAXIMUM ABSORPTION

HIGHEST HYGIENE

#### TNT Microfibre

Disposable  
excellent collection

#### Microfibre Fabric

Semi-disposable  
washable up to 10  
times

## POCKETS SYSTEM

### Touch-free system

The Wet Disinfection frame with Block System is lightweight and easy to use, **adheres perfectly to the floor** and easily reaches every corner, **ensuring deep cleaning** and **maximum hygiene**.

Washing and disinfection with the special disposable cloths guarantee the **control of cross contamination** as they allow you to clean each area with a different and clean cloth.

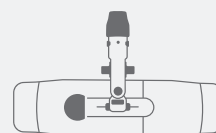

#### INFO AND ADVANTAGES

**VERSATILE:** ideal system for professional cleaning of horizontal and vertical surfaces in environments with high contamination risk

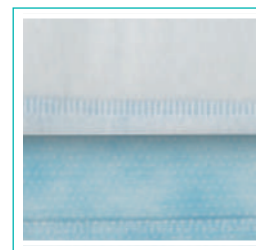

**TOUCH-FREE:** the release system allows the cloth to be disposed of without touching the dirty fibres, guaranteeing a high level of hygiene

SUSTAINABLE, EVEN IN  
THE WASHING MACHINE.

We have had our bestselling mops tested according to ISO 23231 by a specialised external laboratory for the release of **MICROPLASTICS** during textile washing.

MICRORICCIO and MICROBLUE

passed the test  
and are confirmed as

ENVIRONMENTALLY FRIENDLY PRODUCTS

Fewer microplastic emissions mean **greater environmental and health protection**:  
using wash-resistant textiles helps to take care of our planet and its inhabitants.

made in Italy

## Microfibre

**MICROFIBRE** is a fibre, whose thickness is less than 1 DTX (Decitex), able to remove and collect micro particles of dirt and bacteria.

### WHY YOU WOULD CHOOSE TTS MICROFIBRE

WITHOUT INTERNAL SPONGE

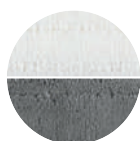

COLOUR CODED

5 FRAMES

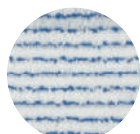

#### SOFT PRO

100% polyester

- Ideal for spray cleaning and dry dusting
- Long loop: for medium/low dirt or daily cleaning

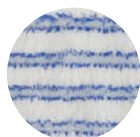

#### SOFT STRIAT

80% polyester  
20% polyamide

- Ideal for washing, ensures excellent absorbency and very low friction
- Short loop: cost-effective and efficient in cleaning

#### SOFT BAND

87% polyester  
13% polyamide

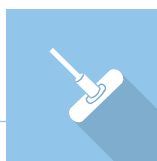

- Ideal for washing, cleans deeply and retains dirt
- Long fibres with high collection power

#### TANDEM

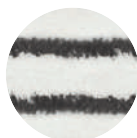

100% polyester

- Ideal for dry/damp dusting and for washing
- Short loop for medium/low dirt and long loop for medium/high dirt

## Microfibre

### SOFT PLUS

84% polyester  
16% polyamide

- Easy removal of stains and stubborn dirt thanks to polypropylene abrasive stripes
- Short loop: for medium/low dirt or daily cleaning

### MICROSPLIT 32

80% polyester  
20% polyamide

- Ultra-high-performance microfibre that captures and retains dirt and allows greater floor cleaning autonomy
- Long loop: for medium/high dirt or for less frequent cleaning

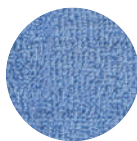

### MICRORICCIO

100% polyester

- Test on release of microplastics during textile washing passed
- Very good dirt collection together with highly absorbing power
- Long loop: for medium/high dirt or for less frequent cleaning

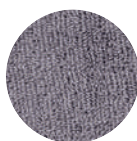

### MICROBLUE

85% polyester  
15% polyamide

- Test on release of microplastics during textile washing passed
- Laboratory tests show removal of up to 96.6% of bacteria
- Ideal for dry dusting, very good floor cleaning autonomy in case of damp use thanks to internal microfibre layer
- Short loop: for medium/low dirt or daily cleaning

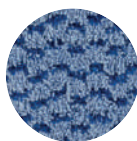

### MICROBLUE BCS

85% polyester  
15% polyamide

- Ideal to avoid cross contamination thanks to antibacterial additive treatment
- Short loop: for medium/low dirt or daily cleaning

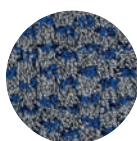

### MICROSAFE

50% polyester  
20% polyamide  
30% polypropylene

- Easy removal of stains and stubborn dirt thanks to polypropylene inserts, very low friction
- Short loop: for medium/low dirt or daily cleaning

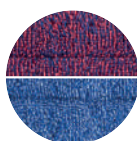

### MICROSAFE WIDE

50% polyester  
20% polyamide  
30% polypropylene

- Highly absorbent and effective in removing ingrained dirt
- Short loop: for medium/low dirt or daily cleaning

### ULTRASAFE

50% polypropylene  
40% polyester  
10% polyamide

- Very good dirt collection together with low friction
- Short loop: for medium/high dirt or daily cleaning

### FEATURES

- **SPECIAL TUFTING:** the tufting system bonds fibres to the support, granting a long life cycle to the mop
- **INCREASED RESISTANCE:** the double stitching at the points of greatest effort ensures a longer life to frequent use and washing
- **MAXIMUM ABSORPTION:** the thick weave of the yarn gives a long washing autonomy, saving water and detergent
- **HIGH PERFORMANCE:** the cleaning solution is evenly distributed on the floor, making cleaning easier

***SAFE:***

NO ACCIDENTAL RELEASES!

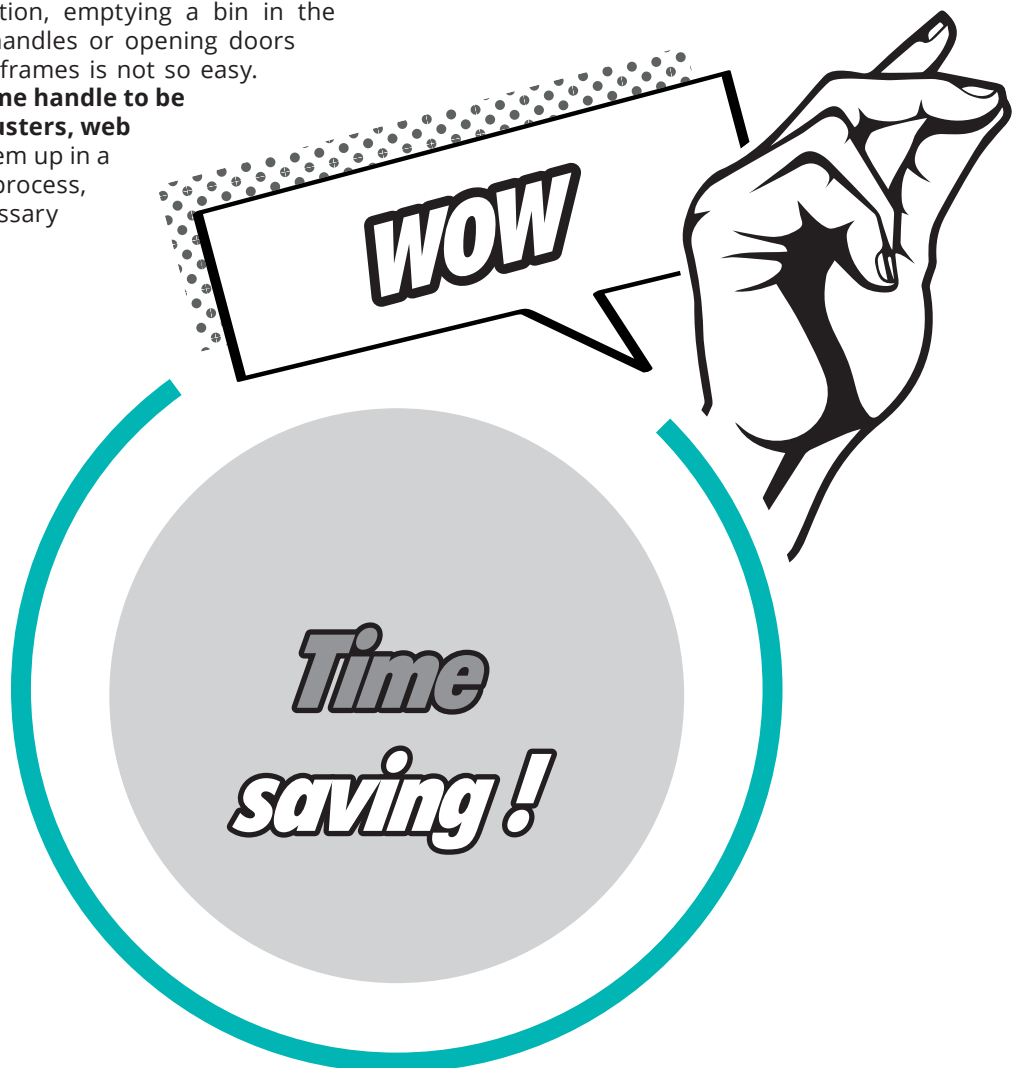

***TO BE USED with:***

NICKITA  
MAGIC

## NO COMPLICATIONS!

Connecting handles and poles to the tools is a waste of time and effort, requiring complicated procedures that affect the efficiency of the cleaning service. In addition, emptying a bin in the bag holder without hitting the handles or opening doors and drawers without hitting the frames is not so easy. The Lampo system allows **the same handle to be used with the whole range of dusters, web brushes and frames**, hooking them up in a flash: this optimises the cleaning process, removing from the trolley unnecessary obstacles that make different activities difficult. The innovative system is **practical, simple and intuitive**: the operator needs no training to learn how to use it.

NO MORE TROLLEYS

## Strap tape system

## Washing and disinfection system

### FEATURES

Strap tape system is ideal both for dusting, dry or damp use, and for washing.

- Frames allow to change mops easily
- Strips with strap tape system are interchangeable
- It can be used with pre-soaked spare mops avoiding the risks of rinsing which cause backache and wristache to the operators

### USE

Placing frame on the mop

Detaching dirty mop from the frame

Easy replacement of the strips

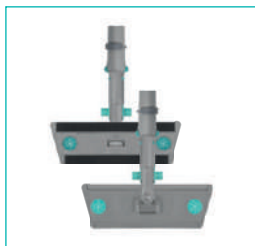

### Strap tape system

## Uni System

One frame for 3 systems

### FEATURES

#### LIGHTWEIGHT

The system is lightweight, which reduces operator's strain

#### CONVENIENT

Flat mops are easy to attach thanks to the facilitated hook mechanism

#### ERGONOMIC

The ergonomic design of the frame ensures an easy set-up of the tool

#### SAFE

Flat mop remains firmly attached during use, thanks to the anti-slip device

#### FUNCTIONAL

Block System joint allows the cleaning of vertical surfaces

#### HYGIENIC

The dirty mop can be quickly detached, without any physical contact with dirt

## Traditional method

Uncomfortable and difficult to use

## Wet System

## Washing and disinfection system

### FEATURES

This system is the best solution for a professional and efficient cleaning of floors, walls and ceilings

When using Wet System, mops remain hanged to the frame when being rinsed and pressed, no more bending is necessary and any contact with dirt and chemical solutions is avoided.

With Wet System, you work faster and in a more ergonomic and efficient way in comparison with traditional systems

### USE

Vertical position

Rotate the handle

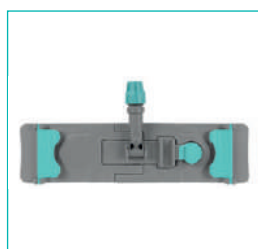

Press down the frame to close it

Push the yellow button to open the frame

## Blik

## Washing and disinfection system

### FEATURES

With Blik frame you can wash and disinfect surfaces using flat mops with pockets.

It is lightweight and easy to use and adhere perfectly to the floor, reaching easily corners and edges.

It also features a unique hook system of the mop that eliminates unnecessary bending of the operator and protects his health.

Blik is ideal for a professional and efficient cleaning of floors, walls and ceilings.

### USE

Patented system

Mop is easy to fix

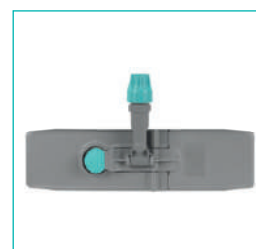

Automatic hook system, suitable for all mops

Dirty mop is detached without any contact

## Bio System

### ERGONOMICS AND MAINTENANCE

#### NO BENDING

Equipped with an ergonomic grip that makes it easier to use the tool, always maintaining a proper position

#### REDUCTION OF WEIGHT LIFTING

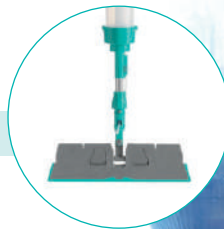

No more heavy buckets to be lifted and no more mops to be rinsed or wringed out

#### EASY TO CLEAN

Easy cleaning of the tool, no need to disassemble it

#### REDUCTION OF CHEMICAL

The bottle is easy to fill and chemical can be perfectly dosed, with considerable time and cost saving

### TO BE USED WITH THE FOLLOWING SYSTEMS

#### STRAP TAPE SYSTEM

#### BLIK

#### TRILOGY

### BOTTLES

#### COLOUR CODED BOTTLES

The bottles are available in different colours, to allow the operator to diversify chemicals according to the different environments to clean, but always using a single tool, which means considerable time saving.

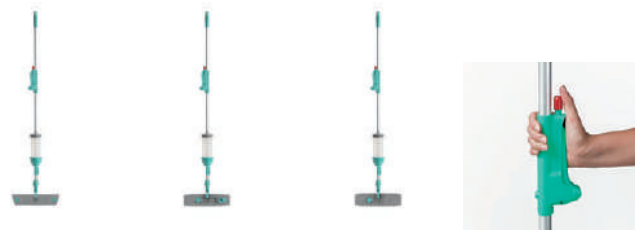

#### REMOVABLE AND INTERCHANGEABLE

For easy cleaning of the bottles and for convenient pouring of the chemical

## Handles with tank

## Infinity Pro

SYSTEM

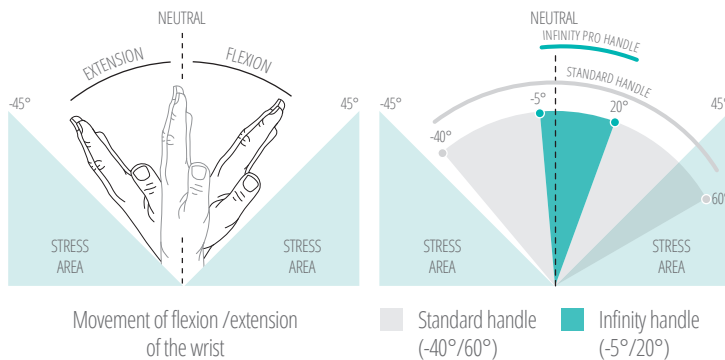

made in Italy

Infinity is the unique **ergonomic system** available in **BASIC** and **PRO** versions, designed to facilitate the "∞" movement and the professional floor cleaning operations

### EFFECTS ON POSTURE

### EFFECTS ON WRIST

### INFINITY WORKS IN A NEUTRAL POSITION

Infinity system allows the wrist to operate within a comfortable range of motion, reducing effort, rather than the traditional handles where the wrist is subjected to strong flexion-extension, that could cause after prolonged use the onset of occupational diseases. \*

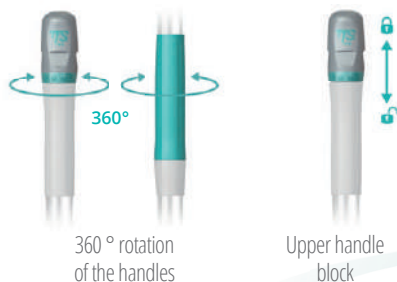

Reduced wrist and shoulder movements allow the whole body to work in a neutral position.

**Standard handle:** the wrist is subjected to strong flexion / extensions\*

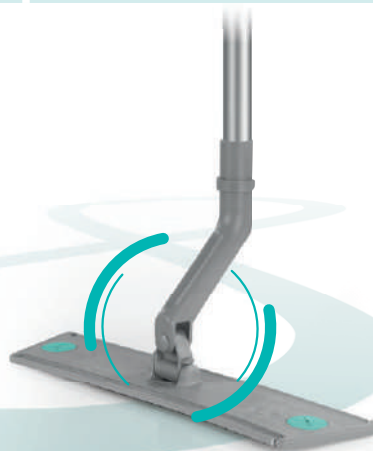

**Infinity handle:** the wrist operates within a comfortable range of motion, reducing effort\*

\* "Evaluation of compliance with the ergonomic requirements of the Infinity handle" by Humana Consulting

### HANDLE

### JOINT

### INFINITELY ERGONOMIC

- Reduce wrist movements by 75% in comparison with traditional handles
- The 360° rotation of the upper and central handle combined with the joint ensures maximum ergonomics, reducing training time
- The handle locks with a click, allowing you to rest the tool safely
- The rubber inserts ensure an effective, stable and comfortable grip

- The joint facilitates the "∞" movement without tiring shoulders, arms and wrists
- Designed to reduce operator's strain, increasing productivity
- It allows easy cleaning even difficult to access areas

Infinity **Basic**  
SYSTEM

The continuous assumption of **incongruous postures** and the execution of **repetitive movements** that **require effort** can lead to the onset of **musculoskeletal disorders**; the direct consequences are a **worsening of the health** of the operator who is forced to absent himself from work and a consequent **increase in costs** supported by companies. Choosing suitable equipment, designed according to the principles of ergonomics, helps **preventing effectively occupational diseases** related to the musculoskeletal system.

WHERE

UNIVERSAL  
HANDLE HOLDER  
FOR ANY TOOL

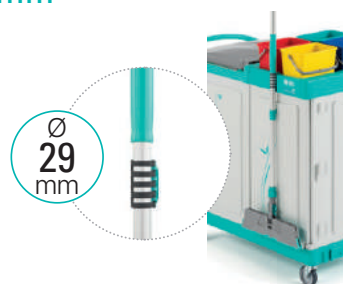

### FEATURES

- **It facilitates working equipment:** operator can use one single handle holder to hang up any kind of handle or tool, thus avoiding compatibility problems
- **It improves security:** if the operator hangs up tidily cleaning tools to the trolley or to any other near at hand place in the working site, there are less risks of accidental falling, tripping or other unpleasant accidents
- **It makes cleaning operations easier:** it remains firmly attached to the tool, without any interference with its use during cleaning procedures and without any risk of accidental loss

## Dosing device for on-demand mop soaking

### COMPONENTS AND ACCESSORIES

#### HERMETIC TANK (6 L / 1,5 Gal)

- Cap with removable key and lock grants **higher security**
- **Wide opening** allows easier cleaning operations
- **Ergonomic handle** makes easier to pick up the tank

#### CONTROL RING

- **Control ring** to adjust cleaning solution from 50 to 350 ml
- It is possible to **soak also cloths** for manual cleaning of surfaces

► 50 ml

► 350 ml

#### Accessory available on request - KIT TO BLOCK CONTROL RING

- Allowing **total dosage control** in case of use of the system by different operators
- Dosage ring can only be adjusted by **one single special key**, supplied in the kit and kept by Site Manager

### TO BE USED WITH THE FOLLOWING SYSTEMS

#### UNI SYSTEM

#### STRAP TAPE SYSTEM

#### BLIK

#### TRILOGY

## On demand soaking systems

### Dosely System

#### Dosely

## Wringers

### TRIPRESS - Bucket and wringer

**EFFICIENT:** intuitive and easy to use, for a perfect and effortless wringing  
**DOUBLE VERSION:** available with lever system or with manual pressure wringing system, in order to satisfy any need  
**WITH ACCESSORIES:** provided with central handle holder and security buttons to fix handle and wringer to the bucket, handle with anti-oscillation hooks and snap-together bucket system, no dripping

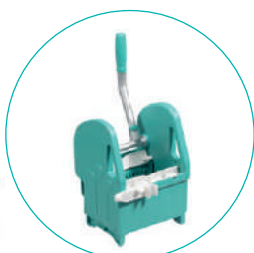

**To be used with washing systems:** Trilogy

### DRY - Roller wringer

**ERGONOMIC:** Wringing with roll allows an effort reduction of 30% in comparison with traditional wringers  
**PRACTICAL:** with bottomless wringer rinsing and wringing take place with one single simple movement inside the wringer, saving time and effort  
**VERSATILE:** possibility to adjust mop's moistness thanks to the three different positions of the roll  
**WITH ACCESSORIES:** provided with shaped varnished handle, adjustable roll, twisting handle holder, anti-splash front side and hook to fix wringer to the bucket

**To be used with washing systems:** Uni System / Wet System

### TEC - Jaw wringer

**EFFICIENT:** provided with a mechanism that brings jaws to the bottom ensuring performance without the need of reductions  
**WITH ACCESSORIES:** provided with aluminum handle, large basket, twisting handle holder, anti-splash front side, double handles to carry it easily and hooks to fix wringer to the bucket

**To be used with washing systems:** Uni System / Wet System / Blik & Wet Disinfection / Mop

### O-KEY - Flat wringer

**PRACTICAL:** with bottomless wringer rinsing and wringing take place with one single simple movement inside the wringer, saving time and effort  
**WITH ACCESSORIES:** provided with shaped varnished handle, twisting handle holder, anti-splash front side and hook to fix wringer to the bucket

**To be used with washing systems:** Uni System / Wet System / Blik & Wet Disinfection / Mop / Bix

### Flat wringer

**RESISTANT:** designed to be used in shock-resistant conditions and frequent use, it guarantees a long life of the product  
**WITH ACCESSORIES:** provided with chromed shaped handle, pierced basket, front anti-spurt panel and hooks to fix wringer to the bucket

**To be used with washing systems:** Uni System / Wet System / Blik & Wet Disinfection / Mop

## Wringers

Dry

Roller wringer

### FEATURES

- Bottomless polypropylene wringer with rubber roll
- With hook to fix wringer to the bucket, anti-splash front side and twisting handle holder
- No bottom means saving time during washing, as both rinsing and wringing take place with one single simple movement inside the wringer, without any unpleasant dripping
- You can place the roll in three positions according to the type of wringing and flat mop
- Allows an effort reduction of 30% in comparison with traditional wringers
- Studied to effectively wring flat mops

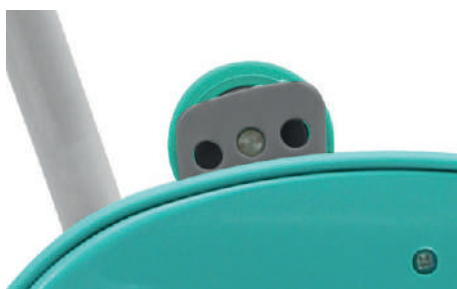

### ROLL POSITIONS

LESS WRINGING

Very wet mop

Ideal for floors up to 150 mq or for floors with high degree of dirt

STANDARD WRINGING

Wet flat mop

Ideal for floors up to 110 mq or for floors with medium degree of dirt

MORE WRINGING

Damp mop

Ideal for floors up to 75 mq or for floors with low degree of dirt / need to be quickly dry

Dry

#### Dry wringer

Bottomless wringer with adjustable rubber roll and shaped varnished handle

The compact cleaners trolley with great features

Ergonomic  
and handy grip

Convenient hook  
for floor sign or duster

Useful basket  
to hold cleaning tools

Made with recycled  
plastic (PSV)

Colour coded  
buckets

Compatible  
with all wringers

## FEATURES

- **DESIGN:** well-finished, subtle and stylish to fit into any environment
- **ERGONOMIC:** the wringer is positioned higher than others in the market to limit bending, reduce strain and improve occupational health
- **FLEXIBLE:** lightweight and compact to facilitate manual handling during cleaning operations and for efficient stacking in storage
- **VERSATILE:** the single frame is compatible with 15 and 25 L buckets and all TTS wringers
- **HANDY:** the stackable frame minimises storage space and optimises transportation, which reduces the environmental impact
- **ECO-FRIENDLY:** components made with PSV recycled plastic and without small metal parts to make them easily recyclable
- **CUSTOMISABLE:** available with a convenient hook for duster and floor sign and a practical basin to hold tools

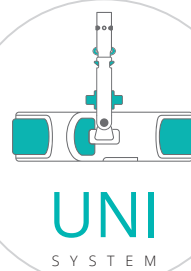

+

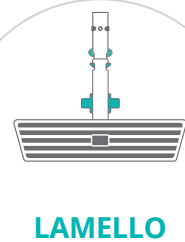

Maximum equipping  
of even the most  
compact trolley

TriPress completes Trilogy System: made to squeeze double-sided Tri and Tri + mops

## Action Pro

## Double bucket

**ACTION**  
*pro*

### FEATURES

- **PROFESSIONAL:** double bucket to separate rinsing water from detergent solution
- **TWO DRAIN-PLUGS:** front and back, to empty liquids out easily
- **HYGIENIC AND PRACTICAL:** with ACTION PRO rinsing water is always clean, thanks to the back drain-plug it can be emptied any time you need, without throwing away cleaning solution at the same time
- **HANDY:** double handles to carry it easily
- **ERGONOMIC:** higher than the traditional buckets it allows the operator to work while standing
- **EFFICIENT:** it cuts working time and saves cleaning solution
- **STACKABLE:** thanks to removable four 80 mm wheels
- **ECO-FRIENDLY:** completely made of polypropylene, non-rusting, solid and entirely recyclable
- **VERSATILE:** suitable with Dry, O-Key and Tec wringers

### TECHNICAL DETAILS

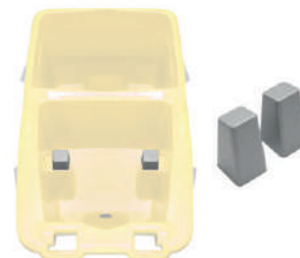

Two separate drain-plugs, back and front

Partial outflow of the bucket

Total outflow of the bucket

Set with rising devices for options with Dry and O-Key wringers

NEW

## UNI Jr.

*Professional cleaning  
for everyone*

HOOKING

TOUCH-FREE

RELEASING

### HIGHEST HYGIENE

Uni Junior ensures a high level of hygiene thanks to the touch-free unhooking system that allows the flat mop to be easily removed without hand contact. Avoiding any direct contact with dirt ensures maximum control of cross-contamination.

### BEST RESULT

Uni Junior allows **effectively collecting dirt and more than 95% of bacteria**, easily cleaning corners, stairs and skirting boards. The system has no limits and can be used to clean horizontal and vertical surfaces alike, ensuring high performance in both cases.

### HIGHEST ERGONOMICS

Uni Junior ensures **considerable time and effort savings**: the frame remains partially open to ensure quick set-up while the flat mop is attached to the frame in an instant. Moreover, the system eliminates bending during use, protecting the back and joints

## A HIGH-TECH SOLUTION AT YOUR SERVICE

Uni Junior includes the technology of the professional Uni System, designed to **facilitate cleaning operations** and **ensure maximum hygiene**.

The advantages offered are many:

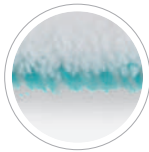

**NO COMPLICATED  
PROCEDURES**

**NO STRAIN ON BACK  
AND JOINTS**

**NO CONTACT  
WITH DIRT**

**Micro-flaps**  
designed to be fixed  
to the frame

**Microfibre**  
with brushed fibre strips for  
intensive action and optimal  
results even on safety flooring

**Buttons to detach**  
the dirty mop and avoid any  
contact with dirt

**Central pedal**  
for quick opening of the  
frame during use

## COMPLETE THE SYSTEM FOR WRINGING LIKE PROFESSIONALS

**Uni Bucket** is a modern design bucket with wringer that combines the advantages of professional wringing with details designed to facilitate semi-professional use: **maximum ergonomics and efficiency**, while maintaining **lightness and resistance**. Designed to be used with Uni Junior, it ensures **high performance wringing**.

14 L

**Handle holder**  
to attach the handle to the bucket

**Snap-in connection**  
to secure the wringer to the bucket

**Wide opening**  
for easy filling and emptying

**Integrated slides**  
to help and facilitate wringing

**Back handle**  
for convenient emptying of the solution

## Buckets and accessories

### Hermetic

### Pre-soaking bucket

#### FEATURES

Thanks to the use of Hermetic bucket it is possible to controll chemical solution dosage, thus avoiding useless waste and fasten sanitizing operations, reducing operating costs

Bucket provided with cross handle, that allows transport with ease

Lid is provided with hook system to the bucket and a specific seal that ensure an hermetic closing

Hermetic can be used with the plastic reducer, ideal to facilitate mops with strap tape system placing inside the bucket during pre-soaking and afterwards the fixing to the frame during cleaning operations.

#### PREPARATION OF PRE-SOAKED MOPS WITH HERMETIC

Placing mops

Dosing chemical solution

Equal distribution of the solution

Hook to the bucket and to the hermetic seal

#### TO BE USED WITH WASHING SYSTEMS

Uni System

Blik & Wet Disinfection

Strap tape system

Trilogy

## SPOT THE DIFF

ONE HANDLE FOR  
ORDINARY AND  
EXTRAORDINARY  
OPERATIONS

MOVE & GO

Thanks to Lampo,  
even **the most compact trolley** can  
now be fully equipped  
to create a complete  
cleaning station: the  
operator no longer has to  
choose which tools to take  
with him, settling for the bare  
minimum.

## REFERENCE

Find out how to save time with Lampo Jack and Plug

**Extraordinary**

***1 handle per trolley***

**becomes ordinary**

***1 handle per tool***

**TRADITIONAL  
SYSTEM**

## MAGIC<sup>LINE</sup>

### INCREASED EFFICIENCY

ITEL (Spanish Technical Cleaning Institute) conducted a field study to determine the time savings that can be achieved by using a specially configured Magic trolley compared to a standard trolley.

The analysis found that **Magic** trolleys maximise productivity by

**saving between 19 and 36% time**

compared to conventional trolleys. Compared to the cost of the most fully configured trolley, the initial investment is absorbed within 60 to 120 days.

The **modularity** of the entire range and the **wide range of accessories** allow the trolley to be configured according to actual needs, thus guaranteeing maximum efficiency: a tailor-made trolley allows **the different operations to be carried out more quickly**, thus reducing their cost.

\* Ask for the report for more information

## EASE OF MANOEUVRING

The **pushing handle** plays a key role in the health of the operators: a handle with poor usability leads to increased compression on the lumbar region, resulting in pain over time. In addition, an inappropriate design can increase the likelihood of accidents when pushing and pulling the trolley.

The horizontal handle **facilitates easy handling of the trolley** in all directions and allows **the force to be modulated to suit specific needs**: hands have a firm grip on a slope or when turning, but at the same time can remain comfortably in place while driving at a steady pace allowing the operator to rest their shoulders and arms. Finally, it allows the hands to remain within the trolley's contour, **preventing collisions and subsequent injuries** during handling.

## MAGIC LINE

### CENTRAL BASKET SOLUTIONS

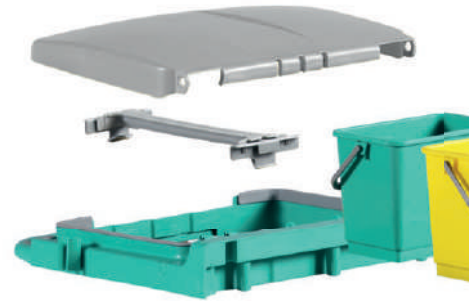

- Completely made in polypropylene
- Strong and rust-proof
- Easy to clean

### SIDE BASKETS SOLUTIONS

- Light and rust-proof
- Completely recyclable
- Shock-resistant, with rounded corners and smooth surface for easy outside cleaning
- Easy to hang directly on the plastic panels by the apposite hooks
- With maximum 3 baskets on each panel, the trolley becomes more capacious and functional

TTS MAGIC

## 100% PURE SPACE

### PLASTIC SHELVES SOLUTIONS

- Smooth surface for easy outside cleaning
- You can use only half shelf when you need more vertical space for your tools

### PLASTIC DRAWERS SOLUTIONS

- Large drawers with or without keys
- Capacity: 10, 22 and 40 L
- No slits on the rear of drawers
- Strong
- Hygienic: easy to apply, remove and clean
- Smooth and rounded surfaces, easy to clean

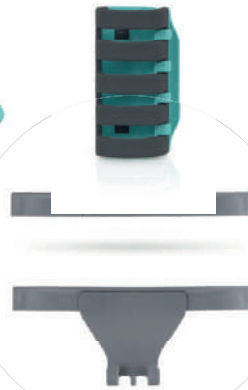

## MAGIC LINE

### HANDLES

SCOUT: the universal handle holder

sc•ut

- It facilitates working equipment
- It improves security
- It makes cleaning operations easier
- Easy to apply

BARS FOR SCOUT  
HANDLE HOLDER

### CUSTOMIZING TROLLEYS

LET YOUR IMAGINATION RUN WILD!

On demand you can customize your trolley with your logo or any other picture you like.

#### FILM PRINTING

This solution involves printing on adhesive film afterwards applied to doors and walls of the trolley; ideal for limited quantities

#### INJECTION PRINTING

This solution involves printing directly on doors and walls of the trolley during production; ideal for large quantities

## SMART DESIGN

### MULTIPURPOSE CLOTHS SOLUTIONS

- Central basket can be useful to store multipurpose cloths, bottles and small tools
- Several combinations of buckets and baskets to hold objects, allow you to find the right space and meet every need

### I-PAD SOLUTIONS

#### A | MAGIC TRAY

- Pull-out polypropylene tray for Magic Line trolleys
- Perfect to hold working items such as tablets, iPads and brochures

#### B | TABLET HOLDER KIT

- Tablet holder with removable key for Magic Line trolleys
- Adjustable fixing to fit any tablet from 7 to 10.1 inches in a few moments

## EASIER TO CARRY

### MAGIC RUBBER WHEELS OPTIONS

Magic offers a wide selection of wheels,  
to be used for the whole line

#### STANDARD Ø 100 WHEEL

Wheel with metal support  
and sleeve

#### MAGIC RUBBER Ø 125 WHEEL

Rubber wheel with  
sleeve

#### MAGIC RUBBER Ø 150 WHEEL

Rubber wheel compatible with  
Ø 200 mm bumper

### ERGONOMIC HANDLE OPTIONS

Thanks to this pushing handle  
you can choose the right position  
according to the operator's height.

Push buttons give a range of inclination up to 180°.

Ergonomic handle to be used  
with 90/150 L bag holder.\*

## EASY TO CLEAN

### ULTRA HYGIENIC PRACTICAL

- Plastic panels neatly separate the recycling section from the storage and cleaning one
- Round and smooth surfaces to meet high hygiene standards
- Easy to clean thanks to first-quality plastic and the closing of all holes
- Completely rust-free

### MAGIC IT'S NOT ONLY MAGIC!

#### ERGONOMIC

Designed following the principles of ergonomics and made with lightweight materials in order to be easy-to-use

#### SAFE

Ideal to carry cleaning tools in environments where the material should be kept safely in the trolley

#### SUSTAINABLE

- Products made from 100% polypropylene: fully recyclable
- Use of raw materials deriving from recycling: low environmental impact

Magic - Components and accessories

Plug Lampo for Magic

Device for releasing frames on the trolley

FEATURES

- MEETS EVERY NEED: designed for use with a wide range of dusting and washing frames for complete cleaning without any compromise
- ENSURES MAXIMUM HYGIENE: the operator can place frames on the trolley, avoiding direct hand contact with contaminated surfaces
- MAKES PROCESSING EASY: allows all frames to be positioned outside the operating areas, ensuring a trolley free of obstacles that slow down operations
- MULTIPLIES THE POSSIBILITIES: reduces the quantity of handles needed, allowing maximum equipping of even the most compact trolley

# Multifunctional Transport Kit

Stainless steel holder for disposable gloves, hand sanitiser and board for cleaning procedures

## Tablet holder kit

### FEATURES

- **UNIVERSAL:** adjustable fixing to fit any tablet from 7 to 10.1 inches in a few moments
- **SAFE:** the tablet is secured to the tablet holder thanks to a key that prevents theft
- **FLEXIBLE:** the movable arm is highly flexible, allowing the tablet to be positioned out of the way of any cleaning operations, convenient to use
- **ELEGANT:** its simple design makes it a welcome addition to cleaning systems
- **LONG-LASTING:** made of aluminium with anti-oxidation treatment for increased lifespan
- **COMPATIBLE:** can be used with all Magic Line trolleys; attach using the specific Rilsan fixing bar

### USED

• Fully open the tablet holder

• Place the tablet inside

• Adjust for a secure fit

• Close and lock with the removable key

**BCS** Bacterial Control System

# GREEN

LINE

## FAST ASSEMBLY

the snap-together system and the total absence of screws make the trolleys easy and quick to assemble

## EASY TO CLEAN

- Round and smooth surfaces to meet high hygiene standards
- First quality plastics and the closing of all holes make the trolley easy to clean

## CENTRAL AND SIDE BASKET SOLUTIONS

- Made of polypropylene, fully recyclable
- Lightweight, strong and rust-proof
- Easy to hang directly on the plastic panels
- They make the trolley even more functional and large

## GREEN WHEELS OPTIONS

Green Line offers a wide selection of wheels, to be used for all trolleys.

### STANDARD Ø 100 WHEEL

Wheel with metal support and sleeve

### Ø 125 RUBBER WHEELS

Rubber wheel with sleeve

### KIT WITH 200 MM AXIAL WHEELS

Kit with axial wheels Green

## Smile

### Smile

### Bag holder with inserts

### FEATURES SMILE BAG HOLDER

- Polypropylene and aluminium bag holder
- Rustproof
- Wide opening of the lid to drop off easily waste
- Round bag holder ring with bag tightener
- Rounded edges and smooth surfaces to clean it easily
- Handle and back axial wheels to move the trolley easily
- Non-marking rubber wheels
- Elegant and pleasant design
- Sustainable as completely recyclable
- It can be used with bags 70/75 x 110 cm - 80/85 x 110 cm

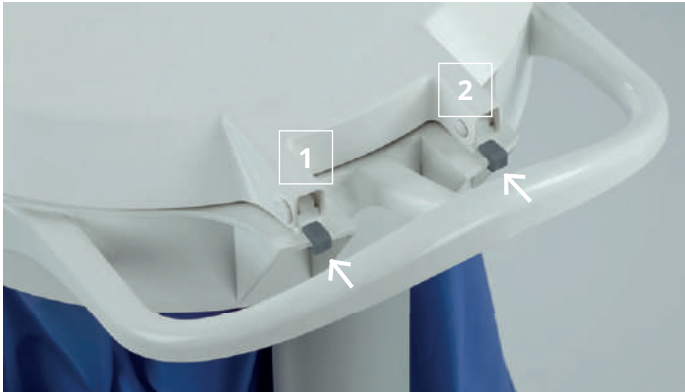

### FEATURES INSERTS

- Plastic inserts to separate bins Smile 120 L, ideal for separate waste collection
- Easy to clean
- Complete with bag-tightener
- Made in polypropylene, 100% recycable, stable and longlasting bins
- Configuration with 2 compartments: 2x60 L
- Configuration with 3 compartments: 60 L + 2x30 L

## AUTO-BLOCK SYSTEM FEATURES

- Hooks for Smile bag holder, practical and easy to use
- Designed to customize cleaning and waste collection operations
- Leaving the hooks attached, the lid closes automatically, avoiding any contact with the hands
- Removing the hooks, the lid gets locked, ensuring maximum ergonomics while emptying bins

AUTOMATIC LID CLOSURE

LID OPENED

## Smile trolley

## Waste collection trolley

## Complete trolley for any operation

### FEATURES

- **COMFORTABLE:** the ergonomic plastic handle and two Ø 260 mm wheels improve manoeuvrability
- **PRACTICAL:** enhanced with 4 locations for handles and a basket, that can be used to transport tools
- **CUSTOMISABLE:** choice of accessories, such as a bag holder and a third wheel, can be added to complement the trolley
- **DURABLE:** galvanised to resist UV rays and weathering to prolong the life cycle of the trolley

## H-Cube service trolley

### H-Cube

### Service trolley

#### FEATURES

- **EFFICIENT:** it allows you to carry out daily cleaning and restocking of guest amenities quickly and without attracting attention
- **ORGANISED:** enhanced with movable dividers to customise the space, depending on the activities to be carried out, creating an effective ordered system that is easy to transport
- **REMOVABLE:** the interior compartments can be removed easily and quickly, facilitating cleaning and hygiene
- **LARGE:** equipped with multiple compartments and containers of different sizes that allow you to have all you need at your fingertips

#### USE

#### H-Cube

##### H-Cube Basic

Service trolley equipped with movable tray and multipurpose pockets, with hook and strap tape band to attach tools and movable dividers

code	notes	cm	C
0H003890		↓ 67 ↓ 43 ↓ 100	■

Suggested for servicing 2 rooms - With 90 mm rubber wheels

##### H-Cube Climber

Service trolley with axial wheels, equipped with movable tray, multipurpose pockets, hook and strap tape band to attach tools and movable dividers

code	notes	cm	C
0HK03890		↓ 67 ↓ 47 ↓ 108	■

Suggested for servicing 2 rooms - With 200 mm rubber axial wheels

## H-Cube Pivot

Service trolley with pivoting wheels, equipped with movable tray, multipurpose pockets, hook and strap tape band to attach tools and movable dividers

code	notes	cm	C
0H003895		↙ 67 ↘ 43 ↗ 97,5	■

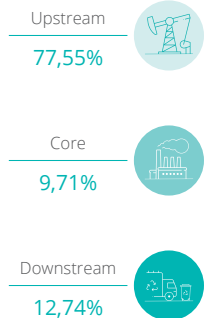

Suggested for servicing 2 rooms - With 80 mm rubber pivoting wheels

## H-Cube Trail

Service trolley with ø 300 mm wheels, equipped with movable tray, multipurpose pockets, hook and strap tape band to attach tools and movable dividers

code	notes	cm	C
0HL03890		↙ 72 ↘ 49 ↗ 104	■

Suggested for servicing 2 rooms - With 300 mm rubber wheels

## CARBON FOOTPRINT

TTS is one of the first companies in the world to have a **certified system for counting greenhouse gas emissions** at each stage of the product life cycle.

# MAGIC<sup>Art</sup>

The art of being beautiful

## MAGIC<sup>Art</sup>

### THE ART OF BEING BEAUTIFUL MADE IN ITALY

MagicArt: the line of TTS trolleys, unique for its elegance, diversity of style, range of functions and attention to details: all the typical features of Italian design in the world.

Made entirely of polypropylene, MagicArt represents the evolution of the traditional idea of hotel trolleys.

They can be completely customized not only in their single components but in their whole image. Thanks to important planning studies and the use of new technologies, the graphical customization of trolleys has no limits.

### MINI BAR SOLUTIONS

M000R02N10120

M300R02N30310

M050R02N10220

MagicArt line offers several mini bars solutions, that are designed to facilitate transport and supply of beverages, crockery, cutlery and towels in hotel settings. The endless configurations available meet the specific needs of the sector, ensuring the maximum in terms of aesthetics and functionality.

TTS MA

## 100% PURE SPACE

### SPACE ORGANIZATION SEVERAL COMBINATIONS

MagicArt allows the 100% use of the space, customizing it according to specific needs: the different solutions offered allow you to have a trolley always tidy, organized and nice to see.

MagicArt trolleys are equipped with big shelves and large drawers, repositionable quickly depending on your needs, and can be equipped with a convenient tray, ideal for transporting checklists and pens.

### GREEN LIGHT TO IMAGINATION! CUSTOMIZING TROLLEYS

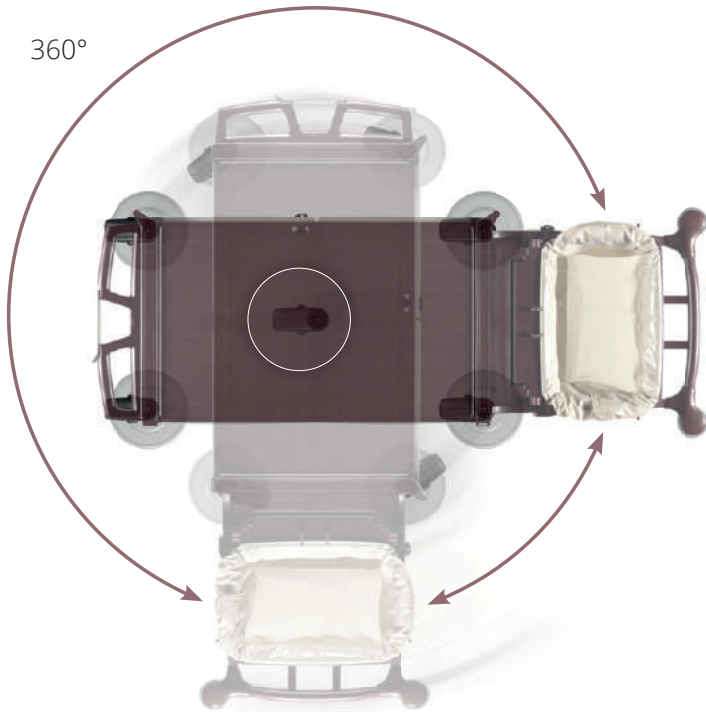

With MagicArt you can personalize your trolley at most. On demand we can customize your trolley with your logo or any other picture you like, and make the trolley an integral part of your environment, always nice to see.

# MAGIC<sub>Art</sub>

360°

## MAGICART WHEELS

EASY TO MOVE AND CARRY AROUND!

On request addition of the fifth wheel to facilitate the conduction of the trolleys even at heavy full load

2 AXIAL WHEELS Ø 140 mm

Facilitates the overcoming of obstacles such as slits

PNEUMATIC WHEELS Ø 200 mm

Recommended for external paving

WHEELS Ø 125 mm

Wheels with high smoothness with 35 mm tread. Recommended in case of high fitted carpet

## ULTRA HYGIENIC

EASY TO CLEAN

- Separation between recycling section (C) and storage (B)
- Joint for connection between Linen Trolley (A) and Central Trolley (B)
- Round and smooth surfaces to meet high hygiene standards
- Easy to clean thanks to first-quality plastic and the closing of all holes
- Completely rust-free

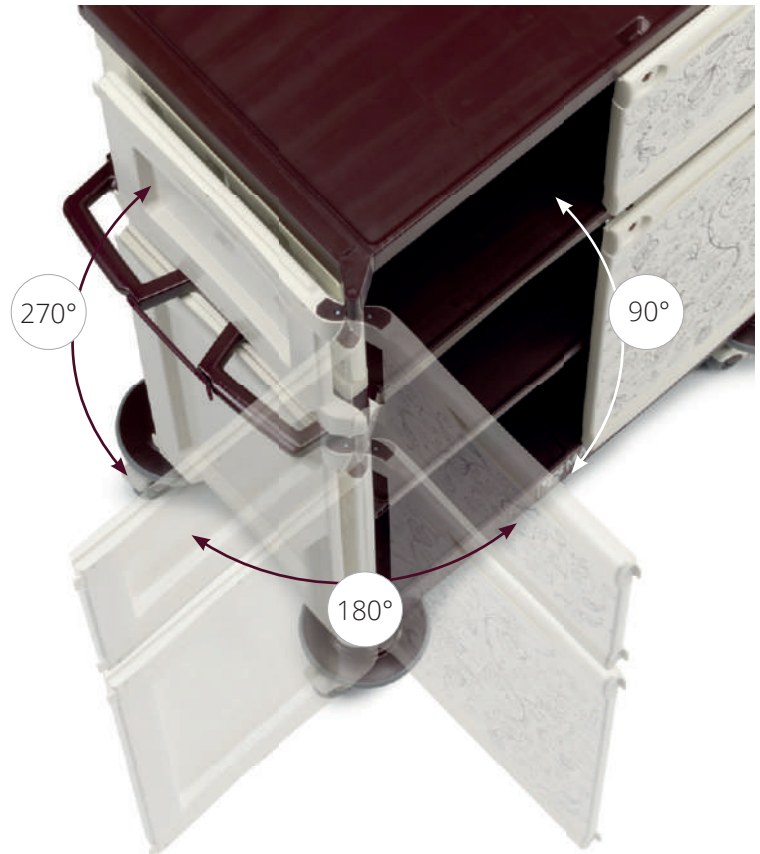

## SMART DESIGN

### DOORS ERGONOMICS AND SAFETY

- "Secret-place" where to hide the key
- Lockable system with key on both sides for high security
- Position ergonomic hand grip

### 120 L BAG HOLDER SPACE SAVING

- Easy to fold
- Space-saving
- Hygienic as completely smooth and with no slits
- Equipped with 2 fixed hooks and 1 removable handle holder
- Block system for horizontal and vertical position
- With bumpers and ergonomic grip

## MAGIC<sub>Art</sub>

### DRAWERS AND SHELVES ERGONOMICS AND SPACE

- Hygienic, completely rust-free and recyclable
- Easy to clean thanks to smooth and rounded surfaces. No openings on the rear of drawers
- Wide drawers with or without keys 10 L and 22 L capacity
- Strong

- Shelf-locking system on both sides for highest safety
- Ergonomic pushing handle

# Magic Hotel

## FEATURES

### 100% PURE SPACE

TTS presents Magic Hotel, a revolutionary range of trolleys, the result of long-term field researches and studies. The operator can use an unequaled instrument with regards to:

- Ergonomics
- Safety
- Modularity
- Storage capacity
- Elegance

LID OPENING THROUGH PEDAL

## ERGONOMICS

Avoids contact between hands and lid.  
Easy removal.  
Lid closes slowly thanks to SHHUT System buffers.

PLACE TO HIDE THE KEY

LOCK

## SAFETY

Equipped with ergonomic hand grip and a place to hide the key to reduce the risk of loss.

CUSTOMIZE YOUR TROLLEY WITH YOUR LOGO

## CUSTOMIZING

You can customize your Magic trolleys not only in terms of the components, but also of the image. Thanks to new technologies, you can print in four-colour directly on the doors and sides of the trolley.

On request it is possible to customize the trolley with your logo or any other image you like.

CENTRAL OPENING, SO IT IS MORE PRACTICAL AND EASY TO USE

## DOORS WITH CENTRAL OPENING

Magic Hotel trolleys with two storage units are available with central door opening to improve accessibility.

## MAGIC HOTEL

### CENTRAL OPENING EASY TO USE

Magic Hotel trolleys with two storage units are available with central door opening to improve accessibility.

### ULTRA HYGIENIC PRATICAL

- Plastic panels neatly separate the recycling section from the storage and cleaning one
- Round and smooth surfaces to meet high hygiene standards
- Easy to clean thanks to first-quality plastic and the closing of all holes
- Completely rust-free

## 100% PURE SPACE

### PLASTIC SHELVES SOLUTIONS

- Smooth surface for easy outside cleaning
- You can use only half shelf when you need more vertical space for your tools

### PLASTIC DRAWERS SOLUTIONS

- Large drawers with or without keys
- Capacity: 10, 22 and 40 L
- No slits on the rear of drawers
- Strong
- Hygienic: easy to apply, remove and clean
- Smooth and rounded surfaces, easy to clean

## MAGIC HOTEL

### HANDLES

SCOUT: the universal handle holder

scout

- It facilitates working equipment
- It improves security
- It makes cleaning operations easier
- Easy to apply

### CUSTOMIZING TROLLEYS

LET YOUR IMAGINATION RUN WILD!

On demand you can customize your trolley with your logo or any other picture you like.

#### FILM PRINTING

This solution involves printing on adhesive film afterwards applied to doors and walls of the trolley; ideal for limited quantities

#### INJECTION PRINTING

This solution involves printing directly on doors and walls of the trolley during production; ideal for large quantities

## SMART DESIGN

## ENERGY

EMPOWER  
YOUR TROLLEY

Easy and responsive handling system  
at your fingertips

Same, easy handling as the traditional  
trolley without the effort of pushing

Use the total loading capacity  
of the trolley

Maximum power  
and safety guaranteed

Effective even on ramps,  
rises and slopes

Faster operations  
with time savings

Simpler operations  
with increased productivity

Reduced effort and protection  
of the operator's health

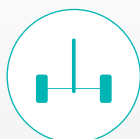

## MAGIC ENERGY IS EASY, FAST AND ACCESSIBLE FOR ALL

DISCOVER THE RANGE OF MOTORIZED TROLLEYS THAT FACILITATE CLEANING

MODULAR TROLLEYS

TRANSPORT TROLLEYS

### DIFFERENTIAL MOTORIZATION SYSTEM

- It carries up to 150 kg without requiring any operator effort
- Works on gradients of up to 8%, even when fully loaded

### SPEED MANAGEMENT

- Forward speed adjustment from 2 to 4.5 km / h depending on the needs
- Reverse speed control to ensure maximum safety

### LITHIUM BATTERY

- Greater power and long life
- High autonomy of use (8 hours)

### RUBBER WHEELS

- Available for indoor or outdoor use
- Designed to face any type of flooring

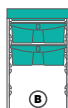

### INTEGRATED USB PORT

- to charge mobile devices such as tablets and mobile phones

## Safety equipment

### Doorstop

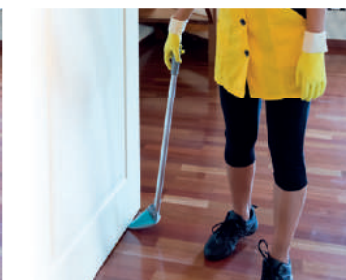

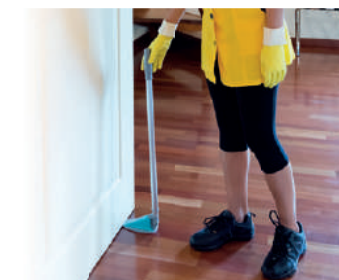

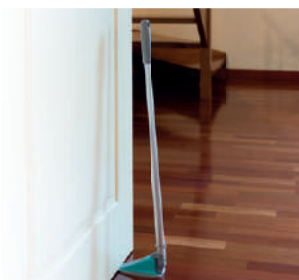

### Universal doorstop with rubber edge

#### FEATURES

- **ERGONOMIC:** thanks to its release system it can be placed and removed with ease and no unnecessary bending is needed
- **NON MARKING:** thanks to its thermoplastic rubber edge it leaves no marks on doors or floor surfaces
- **UNIVERSAL:** designed to fit all door sizes
- **ANTI-SLIP:** it will grip most surfaces thanks to its moulded rubber edge
- **COMPACT:** small in size and easy to carry around, hanged on cleaning trolley

#### USE

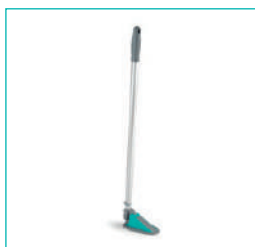

## Doorstop systems

### Universal doorstop

Universal doorstop with non-marking rubber edge

### Universal doorstop with handle

Universal doorstop with non-marking rubber edge and ø 23 mm handle with patented system to place and remove it with ease

## Floor signs

## Pyramidal safety signal

### FEATURES

- Robust, with rounded corners and smooth surface so easy to be cleaned
- At the top it has a hole to insert the rectangular tables with different types of signs
- Thanks to the structure of the cone with the enlarged and round base, the signal remains steady even in case of accidental bumps
- The signal has two holes on the top, for easy transport
- Four-sided shape for efficient stocking

- Red flashing light for the pyramidal signal
- Insert to the top, into the central hole
- The housing is in plastic and it is completely waterproof for outdoor use
- Equipped with a button to switch on and off the light
- It works with 2 batteries 1,5 V lasting about 2 months

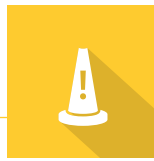

### Pyramidal signals
