ITALCHIMICA, A BUSINESS MODEL

Our story started in 2001, when the Fioretto family founded Italchimica with the first brand, Sanitec, for professional cleaning.

In the beginning the three brothers were both owners and the entire workforce and took turns to manage product mixing, packaging and shipping. They prepared transport paperwork and managed invoicing themselves. Their strong intuition soon led to product innovation and they gained a larger market share, leading to increasing staff numbers and factory space.

Extremely high quality standards, strong manufacturing ability plus a high degree of automation and innovation have always been the secret to Italchimica's success. The company has grown rapidly in recent years, beyond the professional market, also entering the mass retail market with special brands like Dual Power and Dermomed. In recent years, it has furthermore created innovative smart washing systems provoking fresh interest in the future of professional cleaning.

▲ ASSOCIATIONS

Aiming to keep up with evolving financial, technical and environmental issues in its reference sector, Italcimica collaborates and consults with various associations, actively participating in dedicated work groups. This network allows a constant upgrade for the company and for stakeholders.

▲ PRODUCT CERTIFICATION

Is a form of direct assurance, verifying correspondence of a tangible or intangible product (service), as the result of a process, with applicable requirements.

▲ SYSTEM CERTIFICATION

Assures the ability of an organization to be structured and manage its resources and manufacturing processes in order to recognise and satisfy customer requirements, committing to continuous improvement. It is a form of indirect insurance and governs quality (regulated by the ISO 9001 standard), environmental (ISO 14001) and workplace health and safety (ISO 45001) management systems.

QUALITY TRAVELS ON THE SAME TRACKS AS AUTOMATION

A sound policy of investments in various key functions adopted in recent years means Italchimica manages the entire product creation chain internally, from bottle blowing to product mixing through to point of sale.

Coordination of all company functions with the ERP SAP HANA management software system optimizes production management and site operations at all plants.

Italchimica's results are proof of the hard work that has gone into maintaining consistently high quality standards up to the present day without failing to comply with current applicable regulations. Italchimica uses control systems throughout the various manufacturing phases designed to guarantee high quality finished products, in terms of reproducibility, completeness and accuracy.

F.I.F.O.

Italchimica uses the FIFO (First In First Out) management system, where the first material added to stock, or the first to expire, is first out. This management mode avoids stock obsolescence.

HOLESS

An automatic system blows air into the container during the manufacturing process to check for surface defects. Defective containers are automatically rejected.

HEDOSY

An automatic doser of raw ingredients in IBC that creates a closed circuit between raw material storage and the mixer. This system is used for extremely precise high chemical risk raw ingredient dosing, guaranteeing a maximum error margin of 50 g on production runs of 25,000 kg.

CTRL EYES

The system, based on a digital capture system during filling phase, checks that product quality and aesthetic characteristics are maintained: information presence and positioning on label and packaging.

WE ARE CHARTING A COURSE FOR QUALITY OF LIFE, HEALTH AND WELL-BEING AT ALL LEVELS.

The aims of Italcimica are aligned with many targets set within the sustainable development goals presented in the UN 2030 Agenda for the environment.

In the medium-long term, Italcimica's commitment to environmental problems clearly lies within optimized management, gradual sourcing of renewable, reclaimed and recycled raw materials, gradual reduction of emissions and energy consumption, optimized waste management and water saving.

► Environmental sustainability

Protecting the environment is an essential factor for quality of life at all levels and for more inclusive, circular sustainable development. Our policies aim for conscious, "green" development and are designed to contribute significantly to improving the resilience of the global economy and society.

► Social sustainability

The Italcimica strategy focusses on people and highlights the importance of the relationships they can create. One of the company's key sustainability principles indeed focusses on relations with its staff and with the social context they find themselves in. Italcimica's priority is to reinforce well-being and respect for its internal stakeholders with increasing attention also towards the local community.

► Economic Sustainability

For years, Italcimica's path of economic growth has been based on creating value for our customers and consumers, for the community we operate in and for the company, at the same time reducing our environmental impact. This concept is the foundation of our Sustainability strategy with the aim of achieving awareness goals.

PROFESSIONAL CLEANING SOLUTIONS

Sanitec is the reference brand for professional cleaning products. The reliability of products, continuous improvement of formulas and focus on sustainability allow the best solutions to be identified for every kind of customer. Every area of work is constantly studied to always deliver an updated product suitable for user requirements.

NEW CONTAINER

The new Sanitec container has 3 layers of HDPE. The two outer layers (1-3) are made of virgin plastic. The intermediate layer is made of recycled plastic (2). The inner layer (3) protects the product within against contamination by/migration of substances leaching from the recycled plastic (2). The outer layer (1) gives the container a more even colouring.

An ADR/RID-IMDG-approved version is also available, suitable for safe transport of any kind of product based on hazardous substances.

Registration number: UN3H1/Y1,6/100/20 I/CSI87820ITCM01.

Even the smallest size bottles are made of recycled PET.

- **Practical, ergonomic design:** With the new industrial container, liquid spillage is controlled when product is poured, preventing product wastage. The handle also has an ergonomic 45° angled side grip.

NEW CAP

- **Double seal:** This bottle cap has a tear-off inner seal inside and an external tamper-proof ring for guaranteed double safety.

- **Maximum shock resistance:** The technopolymer used to make the cap, combined with the inner seal, makes it hermetic and shock resistant.

- **Smart Dose and Safe Drop system:** The cap has a graduated 30-40-50 ml doser with a 'safe drop' system, which channels drops of product that could spill down the sides back into the container.

- **Flip top:** The more practical flip top system lets you pour product without unscrewing and removing the cap, making the procedure quicker and safer.

QR CODE

On each of our labels there is a Qr Code that redirects to the web page of the product on the Italtchimica website, where it is possible to view and download all the information on each reference: technical data sheet, high resolution images and video tutorial on the use of the product.

SKIN LABORATORIES

PROFESSIONAL COSMETIC SOLUTIONS

Skin Laboratories for the Healthcare sector

With twenty years' experience in the professional cosmetics sector, Sanitec introduces Skin Laboratories, a line of products totally dedicated to caring for even the most sensitive skin, aimed at care homes and facilities, nurseries, clinics and every other public and private healthcare facility. The entire range offers precise formulations, designed around the needs of the users. **Skin Laboratories line products are clinically tested for even the most sensible skins.** Our aim is to provide a service that meets user requirements, continuously studying their real needs and also providing reassurance for family members that their loved ones are receiving consistently appropriate care.

Skin Laboratories for the Ho.Re.Ca. Sector

Often we don't take the necessary precautions to look after our hands properly, even if they bring us into direct contact with thousands of bacteria every day. **Hand washing is important to keep skin clean and is one of the fastest, most efficient ways to protect against bacterial contamination.** The Skin Laboratories line of hand, face and body washes is dermatologically tested, suitable for use in HACCP control plans and designed for gentle, ultra-hydrating cleansing.

HEALTHCARE

Specific active ingredients to suit patient needs

- ZINC OXIDE

SOOTHING. Assists epidermis renewal and prevents appearance of redness. Soothes nappy rash in babies and toddlers and rashes caused by skin problems in adults, or bedsores in the elderly.

- GLYCERINE

HYDRATING, EMOLLIENT, HYGROSCOPIC, REFRESHING. Thanks to its humectant / hygroscopic properties, it can absorb humidity in affected areas, increasing the level of skin hydration. It is an essential ingredient for all products designed to fight dry skin and give immediate relief.

- PANTHENOL

HYDRATING, EMOLLIENT, SOOTHING ACTION. Helps the skin create a barrier against irritation and water loss. Acts as a humectant, capturing water in cells, retaining moisture deep within tissues.

- MACADAMIA OIL

EMOLLIENT, ELASTICIZING PROPERTIES. Manages to get sebum production under control and favours production of collagen for toned, elastic skin.

SPECIFICATIONS

Twenty years **experience** in the field of professional cosmetics

Specific products designed according to individual user **needs**

TOTAL BODY SOFT MOUSSE

With hyaluronic acid, glycerine and vitamin E

Code: 3211

EAN: 8050999570659

Pack: 6 units x 600 ml

600 ml

pH: 5.0 +/- 0.5

pH neutral skin-cleansing mousse with delicate surfactants for body, hair and intimate washing

- Formulated to minimize the risk of allergies.
- Suitable for all skin types
- With hyaluronic acid, glycerine, Vitamin E and panthenol.
- Perfect for daily hygiene and assisted bathing.

How to use

Apply product onto the palm of your hand or with a wash cloth directly where required. Use like a normal hand and body wash, intimate wash or shampoo in appropriate doses

. Wash and rinse with water as appropriate for type of use.

Dosing
R.T.U. Ready to use

TOTAL BODY

With glycerin, vitamin E and panthenol

Code: 6030

EAN: 8050999570062

Pack: 6 units x 1000 ml

1000 ml

pH: 5.0 +/- 0.5

Gentle low-foaming all-over hair, body wash and intimate hygiene.

- Formulated to minimise the risk of allergy.
- Suitable for all skin types
- With glycerin, vitamin E and panthenol
- Perfect for daily hygiene and assisted bathing.

How to use

Apply product onto the palm of your hand or directly where required. Use like a normal hand and body wash or shampoo. Alternatively dilute in water before use

Dosing
R.T.U. Ready to use

TOTAL BODY

With glycerin, vitamin E and panthenol

Code: 3210

EAN: 8050999570284

Pack: 6 units x 500 ml

500 ml

pH: 5.0 +/- 0.5

Gentle low-foaming all-over hair, body wash and intimate hygiene.

- Formulated to minimise the risk of allergy.
- Suitable for all skin types
- With glycerin, vitamin E and panthenol
- Perfect for daily hygiene and assisted bathing.

How to use

Apply product onto the palm of your hand or directly where required. Use like a normal hand and body wash or shampoo. Alternatively dilute in water before use

Dosing
R.T.U. Ready to use

SOFT SHOWER GEL

With Pro-Vitamin B5

Code: 6012

EAN: 8050999570482

Pack: 6 units x 600 ml

600 ml

pH: 4.5 - 5.5

Low foaming oil-smooth effect skin cleansing body wash.

- Low foaming oil-smooth effect
- Suits all types of skins
- Respects the skin's natural hydro lipid film
- Tested even on sensitive skin

How to use

Apply to wet skin. Lather, then rinse carefully.

Dosing
R.T.U. Ready to use

SOFT SHAMPOO

With Panthenol and Keratin

Code: 6013

EAN: 8050999570499

Pack: 6 units x 600 ml

600 ml pH: 4.5 - 5.5

Gentle shampoo for frequent washing

- Also suitable for use on irritated scalp.
- Cleanses all hair types thoroughly
- Ideal for frequent washing
- Dermatologically tested

How to use

Apply product to wet hair and massage delicately. Leave to work for a few minutes, then rinse. Repeat if necessary.

Dosing
R.T.U. Ready to use

INTIMATE WASH

With Glycerine and Lactic Acid

Code: 6014

EAN: 8050999570512

Pack: 12 units x 250 ml

250 ml/0.25 kg pH: 4.0 - 5.0

Delicate Intimate Wash.

- Respects bacterial flora balance and helps prevent unpleasant odours from forming.
- With Glycerine and Lactic Acid.
- Dermatologically tested

How to use

Pour product onto the palm of your hand and use like a normal wash on external intimate areas. Alternatively, dilute in water and wash.

Dosing
R.T.U. Ready to use

CLEANSING OIL

With formula delicate on skin, without preservatives

Code: 6031

EAN: 8050999570116

Pack: 12 units x 300 ml

300 ml pH: 5.5 +/- 0.5

Cleansing Bath Oil

- With emollient and hydrating ingredients
- With formula delicate on skin, preservative-free
- Respects the natural hydrolipidic film
- Non-greasy

How to use

Dilute product in water, cleanse and rinse

Dosing
R.T.U. Ready to use

WASH CREAM

With Panthenol and Glycerine

Code: 6010

EAN: 8054633839805

Pack: 6 units x 600 ml

600 ml pH: 5.3 +/- 0.5

Hydrating all-over body wash cream

- No rinse formula
- Maintains the skin's hydrolipid balance
- Also ideal for assisted cleansing in bedbound patient care or as an alternative to wet wipes
- With Panthenol and Glycerine
- Dermatologically tested

How to use

No need to rinse.

Dosing
R.T.U. Ready to use

BARRIER CREAM

With Zinc Oxide

Code: 6020

EAN: 8054633839959

Pack: 12 units x 150 ml

150 ml pH: 6.3 +/- 0.5

Soothing Body Barrier Cream with 10% Zinc Oxide

- With 10% Zinc Oxide
- With natural origin ingredients and almond oil
- Dermatologically tested

How to use

Apply the required amount of product evenly where needed

Dosing
R.T.U. Ready to use

SOFT EMULSION

With Shea Butter, Macadamia oil, Vitamin E and Ceramides. Allergen-free

Code: 6011

EAN: 8050999570055

Pack: 6 units x 600 ml

600 ml pH: 5.0 +/- 0.5

Body Cream With hydrating and nourishing plant-based ingredients

- Product suitable for all ages.
- With shea butter, macadamia oil, Vitamin E and ceramides.
- Allergen-free
- Dermatologically tested
- Non-greasy

How to use

Apply required amount of product to affected areas and spread evenly with a circular motion until completely absorbed.

Dosing
R.T.U. Ready to use

PRECIOUS OIL

Organic argan oil

Code: 6033

EAN: 8050999570161

Pack: 12 units x 300 ml

300 ml pH: 6.0 +/- 0.5

Emollient, elasticising body oil

- Free from mineral oils and paraffin
- With organic argan oil.
- Ideal for thin, delicate skin.

How to use

Apply to body and massage with circular motion until partially absorbed.

Dosing
R.T.U. Ready to use

REFRESHING WIPE

Code: 176

EAN: 8054633834718

Pack: 1000 units

Room freshener with odour eliminator

Disposable lemon-scented fresh wipes. Individually wrapped fresh wipes for efficient, hygienic use. Lemon-scented fresh wipes come in handy for all kinds of uses. They remove unpleasant odours, leaving skin feeling fresh and clean with a lovely fragrance.

SECURGERM MOUSSE

Antibacterial

Code: 1029

EAN: 8050999570581

Pack: 6 units x 600 ml

600 ml pH: 5,5 +/- 0,5

Soft antibacterial hand sanitizing soap mousse. Unfragranced

- For hands, face and body
- Unfragranced
- Dermatologically tested
- With glycerine and antibacterial agent
- Up to 900 doses of product

How to use

Apply product to damp hands. Rub vigorously to create a soft foam cleaning between the fingers and up to the wrists for about 30 seconds. Rinse with water. Dry thoroughly.

SECURGERM

with antibacterial agents

Code: 1030

EAN: 8032680397530

Pack: 6 units x 1000 ml

1000 ml pH: 5,5 +/- 0,5

Unscented antibacterial liquid hand wash

- With 2 antibacterial agents: chlorhexidine and lactic acid
- Sanitizing action
- Unscented
- Dermatologically tested

How to use

Apply product to damp hands. Rub vigorously to create a soft foam cleaning between the fingers and up to the wrists for about 30 seconds. Rinse with water. Dry thoroughly.

SECURGERM

with antibacterial agents

Code: 1031

EAN: 8032680391033

Pack: 2 units x 5 l

5 L / 5 kg pH: 5,5 +/- 0,5

Unscented antibacterial liquid hand wash

- With 2 antibacterial agents: chlorhexidine and lactic acid
- Sanitizing action
- Unscented
- Dermatologically tested

How to use

Apply product to damp hands. Rub vigorously to create a soft foam cleaning between the fingers and up to the wrists for about 30 seconds. Rinse with water. Dry thoroughly.

SANI GEL

DISINFECTANT

Code: 1039

EAN: 8054633839003

Pack: 6 units x 800 ml

800 ml pH: 7,0 +/- 0,5

Alcohol-based hand disinfectant

- No need to rinse
- With glycerine to protect and hydrate skin
- Fragrance-free

Additional information

Dermatologically tested.

How to use

Apply product to hands. Rub vigorously taking care to spread gel between fingers and over wrists. After 45-60 seconds the alcohol in the product evaporates leaving skin dry.

SANiTEC
PETRANOVA

The Sanitec Universe

Sanitec, a 100% Italian brand has been designing solutions for custom-cleaning in the world of I&I and Horeca. The brand's skill and extensive knowledge of its sector allows it to offer a complete range of products suitable for the macro-sectors of professional cleaning.

- **Restaurant & Catering**
- **Hotel**
- **Facilities**
- **Healthcare**
- **Industrial**
- **Swimming Pool**
- **Construction** *Petranova*

Petranova

Sanitec enters the indoor and outdoor cleaning segment: the Sanitec Petranova line launches, a comprehensive range of professional cleaning products, with particular focus on historical, artistic and monumental surfaces and street furniture care.

High and low porosity stone surface gel cleaner

BEFORE

AFTER

Line of products for maintenance and conservation of high and low porosity stone surfaces, natural (marble, sandstone, travertine etc.) and artificial (terracotta, concrete, artificial stone, etc.).

Our products are specific for regular and special washing.

Detergents for metal surfaces

BEFORE

AFTER

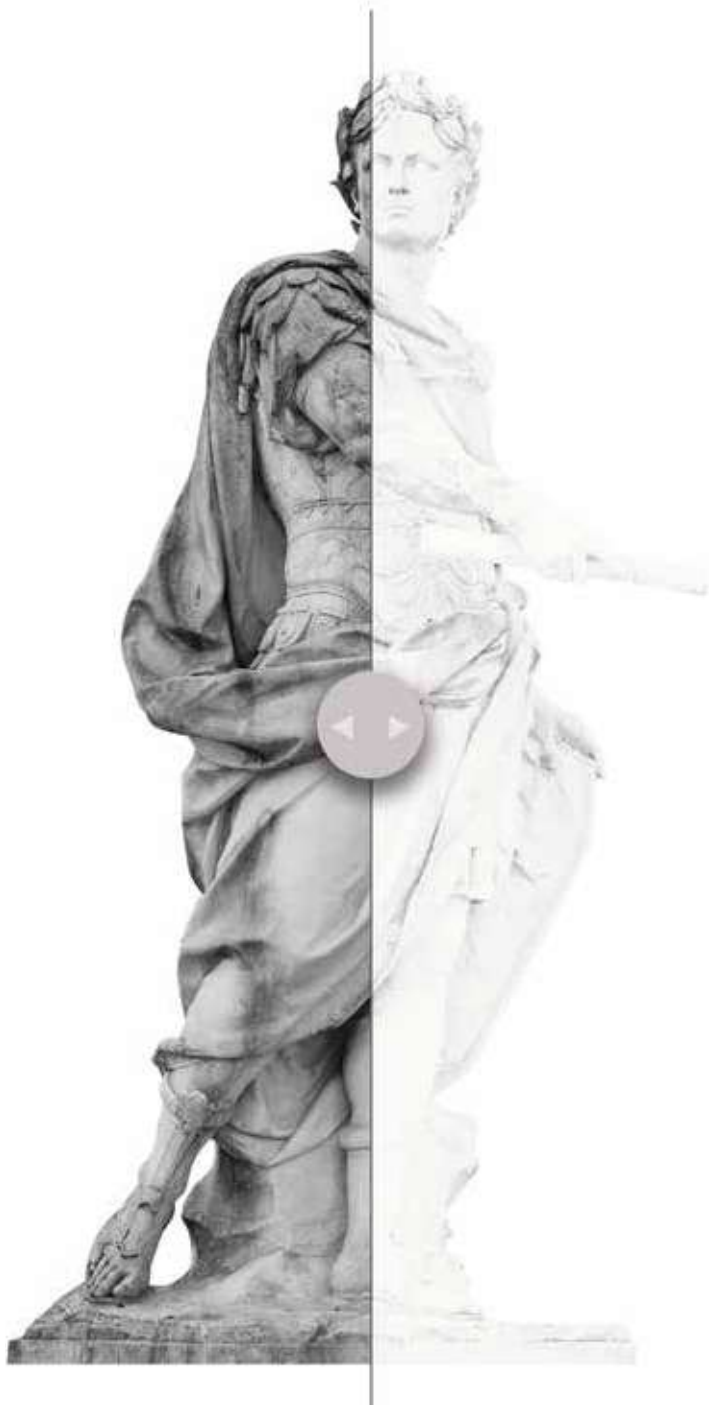

With our 20 years of experience in surface treatment, we guarantee results that erase decades of damage caused by weathering with specific cleaning action on surfaces such as:

steel, aluminium, bronze, copper, brass and light alloys

Protective treatments

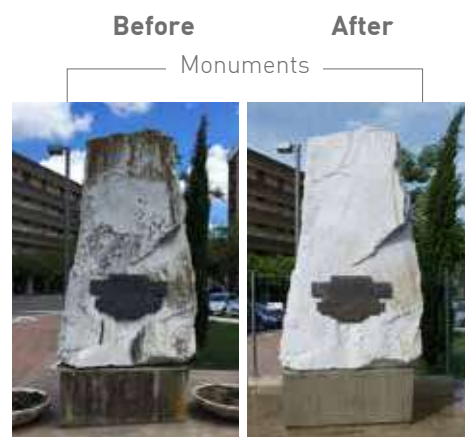

We offer protective treatments for buildings or external surfaces affected by weathering. Our water-repellent solutions are specifically formulated to slow natural surface deterioration processes.

Petra24[®], a revolutionary formula

Petra24[®] is a SANITEC Petranova line product with an industrial patent designed for powerful, targeted conservative cleaning of all high and low porosity stone surfaces. Specific for treatment of public buildings and historic, artistic and monumental surfaces.

The product removes the toughest dirt, even centuries-old, without attacking the surface treated, restoring its original splendour.

SPECIFICATIONS

- Removes patinas, crusted dirt, sulfation, mould, algae and lichen
- No abrasive, oxidising or whitening properties
- Does not alter the nature of the material treated
- Solvent-free
- Environmentally friendly and not classified as hazardous for humans
- Ready to use and easy to apply
- Deep cleans even the most delicate surfaces
- Does not alter chemical / physical properties of surfaces treated
- Does not leave streaks or surface films
- Gel formula to cling to vertical walls

The Sanitec Petranova product line offers a solution for cleaning and maintenance of all types of exposed stone surfaces, high and low porosity, including cleaning of historical, artistic and monumental surfaces.

SURFACE-DETERGENT COMPATIBILITY TABLE:

Always follow the instructions on the reference data sheets and perform compatibility tests on small sections of the surface before proceeding with the full treatment.

PRODUCT**

PETRA 24

Code: 7001
EAN: 8050999570376
Pack: 1 unit x 15 l

15 L / 17.4 kg

**Gel for conservative cleaning
for high and low porosity
natural/artificial exposed
stone surfaces. PCT patent**

- Specifically for treatment of public buildings and historic, artistic and monumental surfaces.
- For all natural and artificial stone surfaces (marble, granite, travertine, tuff, slate, sandstone, porphyry, clinker, gres porcelain, cement and concrete).
- Removes patinas, sulfation stains (black crusted dirt) and surface deposits of every type.
- Non-abrasive, solvent-free product. No abrasive, oxidising or whitening properties.
- Does not leave streaks or surface residues. Does not alter the nature of the material treated.
- Not classified as dangerous for humans or the environment.

How to use

Apply to the surface to be cleaned. With the help of a brush or a spatula, distribute making sure to give a thickness of at least 2 mm. Cover the product with a film. Wait 12 to 24 hours. Remove the film and wash using a pressure washer.

Use

High and low porosity natural/artificial exposed stone surfaces.

Dosing
R.T.U. Ready to use

POWER XP

Code: 7002
EAN: 8050999570383
Pack: 2 units x 5 l

5 L / 6.3 kg

**Powerful alkaline detergent
for deep-cleaning natural
and artificial stone surfaces.**

- Particularly powerful removal of greasy dirt, firms, black crusted dirt and surface deposits of all kinds.
- For all natural and artificial stone surfaces (non-polished marble, granite, travertine, limestone, gres porcelain, clinker, terracotta, brick, cement and concrete).
- Removes most stubborn dirt, sulfation and other stains in a few minutes.
- Fast-acting product.
- Does not emit unpleasant odour during use.

How to use

Apply directly on the surface, with the help of a brush or a spray nozzle. Rub with a brush, brushes and / or mono-brushes with suitable bristles. Leave the product to act for a few minutes. Proceed with rinsing using a low pressure cleaner or manually with the use of a wet brush with water.

Use

For all natural and artificial stone surfaces (travertine, slate, sandstone, porphyry, clinker, gres porcelain, cement and concrete). Non-polished marbles.

Dosing
R.T.U. Ready to use

METAL BRO

Code: 7003
EAN: 8050999570413
Pack: 2 units x 5 l

5 L / 5.2 kg

**Degreasing detergent
for hard metal and
light alloy surfaces.**

- Efficiently cleans all steel, stainless steel, copper, brass, bronze and aluminium surfaces.
- Removes limescale and oxidation.
- Returns tarnished copper and bronze to their original colour.
- Doesn't scratch, respects surfaces.

How to use

Apply product directly onto surface to be cleaned using a soft bristle brush, spray gun or non-abrasive sponge. Rub the surface in both clockwise and anticlockwise directions. Clean the surface with a cloth moistened with water.

Use

Surfaces made of metal and light alloys like bronze, copper, brass, steel, aluminium.

Dosing
R.T.U. Ready to use

GRAFFITI RM

Code: 7004
EAN: 8050999570420
Pack: 2 units x 5 l

5 L / 5.5 kg

**Solvent for removal
of graffiti, ink and
paint of all types.**

- Removes ink and paint from all high and low porosity natural/artificial exposed stone surfaces.
- Non-flammable product, classified as safe for humans and the environment.
- Low VOC content product. Does not emit odours or dangerous fumes.
- Easily biodegradable product.

How to use

Apply product to dry surface using a soft bristle brush, sponge and/or spray gun. Leave product to work for about 15 minutes. Rub the treated surface with the aid of soft bristle brush and/or stiff brush moistened with water. Rinse the surface with a pressure washer or by hand, with brushes and pads dampened with water.

Use

All natural surfaces (marble, travertine, tuff, slate, sandstone, porphyry, wood, etc.), all artificial surfaces (exposed brick, terracotta, clinker, cement, steel, etc).

Dosing
R.T.U. Ready to use

ACID SP

Code: 7007
 EAN: 8050999570505
 Pack: 2 units x 5 L - 5.5 kg

5 L / 5.5 kg

Hydrochloric acid-based cleaner and descaler for stubborn grime.

- Effectively removes inorganic build-up such as: limescale, saltpeter bloom, cement, plaster, rust.
- Suitable for terracotta surfaces, clinker, gres porcelain, glass mosaic, acid-resistant stone (e.g. porphyry), cement, etc.
- Suitable for thorough cleaning of flooring when first laid.

How to use

Apply product onto surface to be cleaned with a soft bristle brush, sponge or spray.
 Leave product to work for a few minutes. Rinse off using a pressure washer or by hand using stiff brushes dampened with water.

Use

All materials acid-resistant.

Dosing
 10-30 ml/l (1-3 caps per 5 litres)
 according to degree of soil.

HYDRO HR

Code: 7005
 EAN: 8050999570437
 Pack: 2 units x 5 L

5 L

Protective impregnating water-repellent for all absorbent mineral surfaces

- Designed to hydrophobize all high and low porosity construction materials
- Water-repellent formula to protect against damage caused by prolonged exposure to weathering
- For exposed natural and artificial stone, terracotta, facing bricks, cements, concrete, clinker, gres porcelain.
- Reduces water absorption. No visual alteration

How to use

Spray product on the surface to be cleaned and distribute evenly using a clean cloth or pressure washer, until dirt is completely removed.

Use

Natural stone (tuff, sandstone, etc.), rock materials (marble, granite, etc.) exposed cement, concrete, etc.

Dosing
 R.T.U. Ready to use

SOLV HR

Code: 7006
 EAN: 8050999570444
 Pack: 2 units x 5 L

5 L

Solvent-based protective additive for all absorbent stone materials.

- Deep penetration protective additive that guards against aggressive substances dissolved in the atmosphere or transported by rain.
- Protects against damage caused by prolonged exposure to weathering
- Reduces water absorption. No visual alteration. Protects against biogenic materials (mould, fungi, algae)
- Materials treated remain perfectly breathable

How to use

Spray product on the surface to be cleaned and distribute evenly using a clean cloth or pressure washer, until dirt is completely removed.

Use

SOLV HR is suitable for protecting materials like natural and artificial stone, exposed cement, concrete, etc. from exposure to rain.

Dosing
 R.T.U. Ready to use

LAUNDRY

SANiTEC
IGIENE SICURA

**NEW**

QUANTUM LINE

The only ultra-concentrated automatic fabric washing liquid line.

A combination of sustainability and performance.

LAUNDRY LINE

The range of specific concentrated laundry detergents for automatic washing. Products designed for a single modular system capable of meeting any type of requirement.

WASHDET LINE

The manual dosing detergent line for hand washing and machine washing. Specific formulae are designed to remove any type of dirt.

SANITEC QUANTUM CUSTOM CLEANING

The Quantum line products for industrial laundries respond perfectly to the need to guarantee excellent washing performance, assure precise operating costs and reduce environmental impact. Sanitec's specialist technical staff can offer custom solutions, based on type of fabric soil, state of machinery, and chemical-physical profile of washing water.

Our aim is to look after our customers and studying their needs is an essential step in guaranteeing them excellent quality service.

SPECIFICATIONS

Impeccable performance from the first use, which helps reduce the cost of washing.

Real-time control of consumption of detergents, energy, water and relative costs.

Reduced product waste by creating custom washing regimes.

Washing performance guaranteed even at low temperatures thanks to a careful balance of surfactant systems and biological components.

Longer fabric life thanks to the targeted action of the Quantum system on dirt during the washing cycle.

Operator activity is optimised.

WITH MACHINERY HIRE PROGRAMME

PROACTIVE SYSTEM: INNOVATION SERVING PERFORMANCE

The PRO ACTIVE SYSTEM technology available in the Quantum system, already active after the first wash:

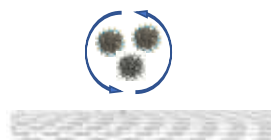

- Protects fabrics by stopping dirt from penetrating into the fibres
- Captures dirt molecules so they can't deposit on the washing again
- Enhances stain removal with more powerful stain-lifting action

Proactive System: a protective film on the fabric to prevent soiling

Proactive System: captures dirt on fibres

Stops dirt from being redeposited

L-BRAIN CONNECT SMART DOSING CONTROL UNIT

Real time system and component function check

Statistics with energy consumption and cleaning costs data

Continuously evolving, constantly updated software

MALFUNCTION REDUCED TO ZERO!

Wi-Fi connection for remote control from PC, tablet and smartphone

Remote washing program access and modification

At least 40% reduction in technical assistance costs

ASSISTANCE ONLY WHEN YOU NEED IT

Email notification to laundry manager when product in the container is about to run out

Software permits direct control and management of customer product stock level and goods reorder

AUTOMATIC LOGISTICS MANAGEMENT

12 WEEKS OF
FRAGRANCE
GUARANTEED

PROCAPS TECHNOLOGY

The use of fragrance microcapsules guarantees intense, long-lasting fragrance on both damp and dry clothes.

THE QUANTUM LINE IS NOW ECOLABEL

SUSTAINABILITY AND PERFORMANCE

An ECOLABEL certified QUANTUM washing system was created
(EU ECOLABEL IT/039/009 Washing detergent for industrial and professional use)

The now-certified products satisfy environmental criteria imposed by certification to guarantee reduced environmental impact throughout the entire life cycle without altering the performance of traditional products. Our policies aim for conscious, "green" development that wants to contribute significantly to improving environmental, social and economic responsibility.

QUANTUM MODULAR SYSTEM

ONE SYSTEM FOR MULTIPLE SOLUTIONS

A range of specific laundry detergents for automatic washing.

Products designed for a single modular system capable of meeting any type of requirement.

MATERIAL TO ASSIST OPERATOR

The L-Brain Connect dosing unit comes with a sticker kit for your laundry: an information aid for daily operator tasks.

- ▶ All the most common garment washing and drying icons divided by their respective phases of use
- ▶ Instructions and warnings for a correct washing cycle
- ▶ Product identification stickers to apply to control unit
- ▶ Practical operator support material

STAFF TRAINING

The main factor affecting management costs of a laundry is staff.

Sanitec provides complete theory and practical training for all laundry staff, examining every kind of problem encountered in the laundry and providing the solution, from using L-Brain Connect machines correctly to prevention of chemical hazards arising from use of detergents. On course completion, these two topics will ensure that staff optimise processes and improve their skills. All operators will receive an attendance certificate after completing training.

L-BRAIN AND THE DEDICATED PORTAL

- ▶ Monitoring of all installed L-Brain Connect systems
- ▶ Access to statistics (washing consumption, cycles, phases)
- ▶ Cost control: detergents, energy and water
- ▶ Control of washing cycle times effected and malfunction alerts
- ▶ Laundry efficiency check

QUANTUM BASIC

Code: 2051HC
EAN: 8032680390098
Pack: 2 units x 5 l

5 L / 6,6 Kg pH: 13,5 +/- 0,5

Super-concentrated alkaline detergent with sequestering agents

- Increases the alkalinity of the washing water making removal of dirt easier
- With anti-depositing agents to stop dirt redepositing in the fibres during the wash
- Prevents greying of fabric
- Optimised for use with Quantum System products

How to use

Use with automatic dosing system. Place the dip tube directly into the container.

Use

For all fabric types

Dosing
1-4 ml/kg of dry washing

QUANTUM SURF

Code: 2052HC
EAN: 8032680390111
Pack: 2 units x 5 l

5 L / 5,2 Kg pH: 8,7 +/- 0,5

Super-concentrated stain-removing complete bio laundry detergent with surfactants

- Effective removal of greasy and enzymatic dirt
- Guarantees excellent whiteness
- The Proactive System technology stops dirt from redepositing in the fibres and makes removal easier
- Optimised for use with Quantum System products

How to use

Use with automatic dosing system. Place the dip tube directly into the container.

Use

For all fabric types

Dosing
1-3 ml/kg of dry washing.

QUANTUM CHLOR

Code: 2053HC
EAN: 8032680390180
Pack: 2 units x 5 l

5 L / 6,3 Kg pH: 13,0 +/- 0,5

Concentrated active chlorine-based fabric bleach

- Powerful stain remover on most fabrics
- Effective at low temperatures
- Guarantees excellent cleaning
- Optimised for use with Quantum System products

How to use

Use with automatic dosing system. Place the dip tube directly into the container.

Use

All types of bleach resistant fabrics

Dosing
3-9 ml/kg of dry washing.

QUANTUM SOFT ECO

Code: 2065HC
EAN: 8054633839782
Pack: 2 unit x 5 l

5 L / 5 Kg pH: 2,5 +/- 0,5

Super-concentrated fragranced neutralizing fabric conditioner with molecular odour eliminator

- Prevents static and softens fabric during drying and ironing
- The Procaps technology ensures long-lasting fragrance
- With odour eliminator molecules to deal with bad odours
- Optimised for use with Quantum System products
- EU Ecolabel-certified low environmental impact product
- With natural origin ingredients

How to use

Use with automatic dosing system. Place the dip tube directly into the container.

Use

For all fabric types

Dosing
1-3 ml/kg of dry washing.

BIOCIDE

LAUNDRY BASIC

Code: 2077
EAN: 8054633830345
Pack: 1 unit x 15 l

15 L / 18,6 Kg pH: 13,0 +/- 0,5

Alkaline washing liquid with sequestering agents

- Increases the alkalinity of the washing water making removal of dirt easier
- With anti-depositing agents to stop dirt redepositing in the fibres during the wash
- Prevents greying of fabric

- Non-foaming

How to use

Use with automatic dosing system. Place the dip tube directly into the container.

Use

For all fabric types

Dosing
4-12 mL/kg of dry washing.

LAUNDRY SURF

Code: 2076
EAN: 8054633830338
Pack: 1 unit x 15 l

15 L / 15,5 Kg pH: 9,0 +/- 0,5

Complete stain-removing bio laundry detergent with surfactants

- Effective removal of greasy and enzymatic dirt
- Guarantees excellent whiteness
- The Proactive System technology stops dirt from redepositing in the fibres and makes removal easier

How to use

Use with automatic dosing system. Place the dip tube directly into the container.

Use

For all fabric types

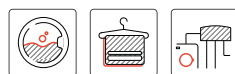

Dosing
3-9 mL/kg of dry washing.

QUANTUM CHLOR

Code: 2078HC
EAN: 8054633835807
Pack: 1 unit x 15 l

15 L / 18,6 Kg pH: 13,0 +/- 0,5

Concentrated active chlorine-based fabric bleach

- Powerful stain remover on most fabrics
- Effective at low temperatures
- Guarantees excellent cleaning
- Optimised for use with Quantum System products

How to use

Use with automatic dosing system. Place the dip tube directly into the container.

Use

All types of bleach resistant fabrics

Dosing
3-9 mL/kg of dry washing.

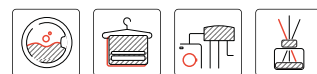

LAUNDRY SOFT

Mediterranean Flowers

Code: 2071
EAN: 8054633830277
Pack: 1 unit x 15 l

15 L / 15 Kg pH: 3,0 +/- 0,5

Concentrated fragranced neutralizing fabric conditioner with molecular odour eliminator

- Prevents static and softens fabric during drying and ironing
- The Procaps technology ensures long-lasting fragrance
- With odour eliminator molecules to deal with bad odours

How to use

Use with automatic dosing system. Place the dip tube directly into the container.

Use

For all fabric types

Dosing
3-6 mL/kg of dry washing.

BIOCIDE

LAUNDRY SOFT

White Musk

Code: 2072
EAN: 8054633830284
Pack: 1 unit x 15 l

15 L / 15 Kg pH: 3,0 +/- 0,5

Concentrated fragranced neutralizing fabric conditioner with molecular odour eliminator

- Prevents static and softens fabric during drying and ironing
- The Procaps technology ensures long-lasting fragrance
- With odour eliminator molecules to deal with bad odours

How to use

Use with automatic dosing system. Place the dip tube directly into the container.

Use

For all fabric types

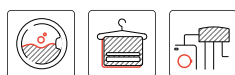

Dosing
3-6 ml/kg of dry washing.

QUANTUM OXYGEN

Code: 2049HC
EAN: 8054633835777
Pack: 1 unit x 15 l

15 L / 17 Kg pH: 2,5 +/- 0,5

Concentrated active oxygen-based fabric bleach

- Powerful stain removal action even on colours
- For use on all types of fabrics
- For use even at temperatures over 60°C
- Optimised for use with Quantum System products

How to use

Use with automatic dosing system. Place the dip tube directly into the container.

Use

All kinds of white and colour fabrics which can be bleached with oxygen-based bleach.

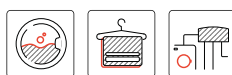

Dosing
2-7 ml/kg of dry washing.

QUANTUM PERACETIC

Code: 2073HC
EAN: 8054633835814
Pack: 1 unit x 15 l

15 L / 16,8 Kg pH: 0,5 +/- 0,5

Concentrated peracetic acid-based fabric bleach

- Powerful stain removal action even on colours
- For use on all types of fabrics
- Best results are achieved between 40-70°C
- Optimised for use with Quantum System products

How to use

Use with automatic dosing system. Place the dip tube directly into the container.

Use

All kinds of white and colour fabrics which can be bleached

Dosing
2-7 ml/kg of dry washing.

LAUNDRY NEUTRALIZER

Code: 2046
EAN: 8054633835937
Pack: 1 unit x 15 l

15 L / 18 Kg pH: 1,0 +/- 0,5

Acid alkalinity neutralizer

- Prevents formation of yellow stains on fabrics after drying and ironing
- Restores natural pH of washed fabrics in the rinse phase
- Prevents formation of limescale inside the washing machine
- Fragrance free

How to use

Use with automatic dosing system. Place the dip tube directly into the container.

Use

For all fabric types

Dosing
2-8 ml/kg of dry washing.

A CONSTANTLY CONNECTED MIND

Innovative dosing system, compact and simple to install, with a Wi-Fi internet connection for remote control from PC, tablet and smartphone.

- ✓ Its activity is recorded and uploaded to Cloud storage where all types of operations can be controlled and managed
- ✓ A dedicated server allows fully autonomous monitoring and modification of program operation at any time
- ✓ The 6 variable speed dosing pumps allow dosing to washing machines from 7 to 100 l

CONSTANT HIGH QUALITY OVER TIME

- ✓ Constant automatic calibration means peristaltic hoses are exploited 100% with no need for intermediate assistance
- ✓ Constant product dosing without loss of washing performance
- ✓ Extreme precision in detergent cost control

WASHDET GREEN POWER

Code: 3112
EAN: 8054633837948
Pack: 2 units x 5 l

5 L / 5,2 Kg pH: 8,5 +/- 0,5

Complete bio washing liquid

- Complete product with surfactants and enzymes
- Effective on even the toughest stains
- Already active in a 30°C wash
- EU Ecolabel-certified low environmental impact product

How to use

Pour product and proceed with normal washing.

Use

For all whites and coloured fabrics

Dosing
Automatic: 3-6 ml/
kg of dry washing.

WASHDET TAY BUCATO

Code: 2090
EAN: 8054633837955
Pack: 2 units x 5 l

5 L / 5 Kg pH: 9,5 +/- 0,5

Disinfectant laundry liquid

- Disinfectant guarantees hygiene for both hand and machine washing.
- Ideal for use also where clothing and linen must be washed and disinfected without damaging fibres.
- Powerful disinfectant, washes, deodorises and whitens all cotton, linen and resistant fabrics.

Dosing
15 ml / L

WASHDET White Musk

Code: 2025
EAN: 8032680391071
Pack: 2 units x 5 l

5 L / 5,1 Kg pH: 8,5 +/- 0,5

Complete bio washing liquid

- Complete product with surfactants and enzymes
- Effective on even the toughest stains
- Can be used with automatic or manual dosing systems
- Safe on whites and colours

How to use

Pour product and proceed with normal washing.

Use

For all fabric types

Dosing
Automatic: 11-16 ml/
kg of dry washing.

WASHDET Argan

Code: 2024
EAN: 8032680393570
Pack: 2 units x 5 l

5 L / 5,1 Kg pH: 8,5 +/- 0,5

Complete bio washing liquid

- Complete product with surfactants and enzymes
- Effective on even the toughest stains
- Can be used with automatic or manual dosing systems
- Safe on whites and colours

How to use

Pour product and proceed with normal washing.

Use

For all fabric types

Dosing
Automatic: 11-16 ml/
kg of dry washing.

WASHDET

Blue Orchid

Code: 2034
EAN: 8054633837962
Pack: 2 units x 5 l

5 L / 5,1 Kg pH: 8,5 +/- 0,5

Complete bio washing liquid

- Complete product with surfactants and enzymes
- Effective on even the toughest stains
- Can be used with automatic or manual dosing systems
- Safe on whites and colours

How to use

Pour product and proceed with normal washing.

Use

For all fabric types

Dosing

Automatic: 11-16 ml/
kg of dry washing.

WASHDET

Blue Orchid

Code: 2038
EAN: 8054633837979
Pack: 1 unit x 15 l

15 L / 15,3 Kg pH: 8,5 +/- 0,5

Complete bio washing liquid

- Complete product with surfactants and enzymes
- Effective on even the toughest stains
- Can be used with automatic or manual dosing systems
- Safe on whites and colours

How to use

Pour product and proceed with normal washing.

Use

For all fabric types

Dosing

Automatic: 11-16 ml/
kg of dry washing.

WASHDET EXTRA

Code: 2023
EAN: 8032680393532
Pack: 2 units x 5 l

5 L / 5,2 Kg pH: 9,0 +/- 0,5

Complete ultra-degreasing bio washing liquid

- Ideal for removal of stubborn greasy dirt from work overalls, uniforms and rags
- Complete product with surfactants and enzymes
- Can be used with automatic or manual dosing systems
- Safe on whites and colours

How to use

use recommended doses. Leave heavily soiled clothes to soak in hot water first.

Use

Fabrics of overalls, work clothing, rags and heavily soiled clothing.

Dosing

Automatic: 11-16 ml/
kg of dry washing.

WOOLDET

Code: 2030
EAN: 8032680391132
Pack: 2 units x 5 l

5 L / 5,1 Kg pH: 8,0 +/- 0,5

Complete washing liquid for wool and delicates

- Complete product with surfactants and sequestering agents
- Delicate on fabrics, ideal for washing wool and silk garments
- Can be used with automatic or manual dosing systems
- Safe on whites and colours

How to use

use recommended doses. Leave heavily soiled clothes to soak in hot water first.

Use

Wool, cashmere, silk, synthetic fibres and modern hi-tech fabrics

Dosing

Automatic: 15-25 ml/
kg of dry washing.

X1 OXY REMOVER

Code: 1814
EAN: 8054633830604
Pack: 6 units x 500 ml

500 ml pH: 4,0 +/- 0,5

Active oxygen stain remover for oxidizable stains

- Highly effective on oxidisable stains like tea, coffee, wine, blood, fruit, grass, ice cream, tomato, mould, etc.
- Reduces percentage of waste and helps increase lifespan of clothes by avoiding continuous rewashing
- Safe on whites and colours

Warning

For delicate or coloured items test product compatibility on a small part that doesn't show. Do not use on metal parts.

How to use

Spray product directly onto stain on both sides of fabric. Leave to work for a couple of minutes before washing normally. Scrub stubborn stains with a laundry brush.

Use

all whites and coloured fabrics.

Dosing
R.T.U. Ready to use

X2 GREASY REMOVER

Code: 1816
EAN: 8054633830611
Pack: 6 units x 500 ml

500 ml pH: 10,0 +/- 0,5

Bio surfactant-based stain remover for oil and grease

- Highly effective on fatty and protein-derived stains like eggs, chocolate, custard, ice cream, milk, mayonnaise, sweat, etc.
- Reduces percentage of waste and helps increase lifespan of clothes by avoiding continuous rewashing
- Safe on fabrics

Warning

For delicate or coloured items test product compatibility on a small part that doesn't show.

How to use

Spray product directly onto stain on both sides of fabric. Leave to work for a couple of minutes before washing normally. Scrub stubborn stains with a laundry brush.

Use

all whites and coloured fabrics.

Dosing
R.T.U. Ready to use

X3 SOLV REMOVER

Code: 1817
EAN: 8054633830628
Pack: 6 units x 500 ml

500 ml pH: 11,0 +/- 0,5

Solvent-based stain remover for oil and ink

- Highly effective on stains like ink, oil, wax, charcoal, tar, cosmetics, shoe polish, resins, varnish, etc.
- Reduces percentage of waste and helps increase lifespan of clothes by avoiding continuous rewashing
- Safe on fabrics

Warning

For delicate or coloured items test product compatibility on a small part that doesn't show. Do not use on waterproof items.

How to use

Spray product directly onto stain on both sides of fabric. Leave to work for a couple of minutes before washing normally. Scrub stubborn stains with a laundry brush.

Use

all whites and coloured fabrics.

Dosing
R.T.U. Ready to use

X4 RUST REMOVER

Code: 1819
EAN: 8054633830635
Pack: 6 units x 500 ml

500 ml pH: 2,2 +/- 0,5

Acid-based stain remover for rust

- Highly effective on stains like rust, mineral oxides, cement residue, copper sulphate, etc.
- Reduces percentage of waste and helps increase lifespan of clothes by avoiding continuous rewashing
- Safe on fabrics

Warning

For delicate or coloured items test product compatibility on a small part that doesn't show.

How to use

Spray product directly onto stain on both sides of fabric. Leave to work for a couple of minutes before washing normally. Scrub stubborn stains with a laundry brush.

Use

all whites and coloured fabrics.

Dosing

ATOMIC ULTRA

Code: 2080
 EAN: 8032680393600
 Pack: 1 unit x 15 kg

15Kg pH: 11,0 +/- 0,5

Complete bio washing powder with bleach

- Complete product with surfactants, enzymes, bleach and EDTA
- Effective on even the toughest stains
- Excellent results even at low temperatures
- Safe on whites and colours

Use

Fabrics including: bedlinen, tablecloths, lab coats, cloths, tea towels, uniforms, care home, hospital, hotel and catering aprons, and general clothing

Dosing
 10-20 g/kg of dry washing.

ATOMIC POWER

Code: 2085
 EAN: 8032680393051
 Pack: 1 unit x 15 kg

15Kg pH: 11,0 +/- 0,5

Complete washing powder with bleach

- Complete product with surfactants and bleaching agents
- Effective on even the toughest stains
- Safe on whites and colours

Use

Fabrics including: bedlinen, tablecloths, lab coats, cloths, tea towels, uniforms, care home, hospital, hotel and catering aprons, and general clothing

Dosing
 10-20 g/kg of dry washing.

SOFTDET GREEN POWER

Code: 3110
EAN: 8054633837986
Pack: 2 units x 5 l

5 L / 5 Kg pH: 3,0 +/- 0,5

Concentrated neutralizing fabric conditioner

- Makes the wash softer
- Reduces static and prevents yellowing of fabrics
- Can be used with automatic or manual dosing systems
- Concentrated formula to minimise environmental impact

How to use

use recommended doses. Leave heavily soiled clothes to soak in hot water first.

Use

All whites and coloured fabrics

Dosing

Automatic: 3-6 ml/
kg of dry washing.

SOFTDET White Musk

Code: 2060
EAN: 8032680391118
Pack: 2 units x 5 l

5 L / 5 Kg pH: 3,0 +/- 0,5

Fragranced neutralizing fabric conditioner

- Makes the wash softer
- Reduces static and prevents yellowing of fabrics
- Can be used with automatic or manual dosing systems
- Leaves fabrics pleasantly fragranced

How to use

Machine wash: pour into the dispenser or before the final rinse. Hand wash: pour product into warm water and proceed with normal washing.

Use

All whites and coloured fabrics

Dosing

Automatic: 5-8 ml/
kg of dry washing.

SOFTDET Argan

Code: 2061
EAN: 8032680393563
Pack: 2 units x 5 l

5 L / 5 Kg pH: 3,0 +/- 0,5

Fragranced neutralizing fabric conditioner

- Makes the wash softer

DISHWASHING

SANITEC
IGIENE SICURA

DISHES, YOUR CALLING CARD

Delivering excellent service to customers requires guarantees for health and safety in the environments where staff work and prepare dishes. From small restaurants to large centralized kitchens, or food counters in the supermarkets through to catering businesses, Sanitec offers integrated solutions that meet your requirements.

It is essential for a restaurant to offer constant quality, controlled in every environment. This is why Sanitec, the 100% Italian brand with more than 200 products, is the best solution for your business. A sole partner to work with in striving for excellence.

Sanitec secure hygiene in every environment

Our formulations are carefully designed to make daily dishwashing easier. This is why Sanitec offers a supremely professional and high performance solution designed to solve and facilitate your requirements, in every environment and in every area.

CONCENTRATED SYSTEM

The Trilogy system lets you dose dishwasher liquid, booster and rinse aid independently, adapting to all soil and water hardness levels.

ECOLABEL PRODUCTS

Sanitec Green Power detergents provide an ecological solution for the professional cleaning industry.

TRADITIONAL PRODUCTS

Specific dishwashing detergents for different water hardness conditions. Suitable for use with machines and automatic dosing systems.

THE CONCENTRATED TRILOGY SYSTEM

The Trilogy system products are independent. The advantage is that they adjust to any water hardness conditions, by simply varying the individual concentration of alkaline detergent, booster or rinse aid. This is not possible with ordinary washing systems, designed for a set water hardness (soft/medium/hard). The TRILOGY System contains no phosphorus, EDTA and NTA and products are on average 4 times more concentrated than traditional 20 litre format products. Reduced container volumes means less plastic waste produced.

SPECIFICATIONS

Real-time control of detergent, water and energy costs
Energy saving thanks to low temperature product effectiveness
Independent dosing of detergent, rinse aid and booster
Reduction in physical stock volume
Operator activity is optimised.
Dishwashing products that are safe to use and care for valuable surfaces

WITH MACHINERY HIRE PROGRAMME

Trilogy facts

- A single solution for every specific washing requirement
 - Detergent dosing based on soil and booster dosing based on water hardness.
-
- Less storage space required
 - A tidier washing area with the container bracket
 - Easier, more ergonomic bottle management. 5L containers replace old 20L
-
- Constant reliable dosing/results
 - Cost control in use
 - Washing statistics monitoring and processing

5-STAR SERVICE GUARANTEED

Reputation is everything in the catering industry.

A guest's negative experience can seriously tarnish the image of a business.

TRILOGY WASH T1

Code: 4012
EAN: 8032680399985
Pack: 2 units x 5 l

5 L / 7,5 Kg pH: 14,0 +/- 0,5

Super-concentrated alkaline dishwashing liquid

- Excellent specific cleaning power for removal of greasy and burnt-on grime and food residues.
- Product to be used in combination with Trilogy Boost T2 (sequestering action) and Trilogy Rinse T3 (acid rinse aid).
- Separate components allow optimised dosing set according to water hardness and degree of soil.
- Does not contain phosphorus or EDTA

How to use

place the dip tube in the containers. Assess the specific washing conditions and select the most appropriate programme as required. Proceed with the washing cycle.

Use

For dishwashers, glasswashers and utensil washers with automatic dosing/dispensing system. To be used in combination with TRILOGY BOOST T2 and RINSE T3.

Dosing
1 ml / L

TRILOGY BOOST T2

Code: 4013
EAN: 8032680399992
Pack: 2 units x 5 l

5 L / 7 Kg pH: 12,5 +/- 0,5

Super-concentrated dishwashing liquid with sequestering agents

- Excellent sequestering power, prevents formation of limescale during the washing phase
- Product to be used in combination with Trilogy Wash T1 (detergent action) and Trilogy Rinse T3 (acid rinse aid).
- Separate components allow optimised dosing set according to water hardness and degree of soil.
- Does not contain phosphorus or EDTA

How to use

place the dip tube in the containers. Assess the specific washing conditions and select the most appropriate programme as required. Proceed with the washing cycle.

Use

For dishwashers, glasswashers and utensil washers with automatic dosing/dispensing system. To be used in combination with TRILOGY T1 and TRILOGY T3

Dosing
0.7-1.35 ml / L

TRILOGY RINSE T3

Code: 4014
EAN: 8032680395871
Pack: 2 units x 5 l

5 L / 5,7 Kg pH: 1,5 +/- 0,5

Super-concentrated acid dishwashing rinse aid

- Excellent drying power, low-foaming system for dishes without streaks and water marks
- Product to be used in combination with Trilogy Wash T1 (detergent action) and Trilogy Boost T2 (sequestering action).
- Separate components allow optimised dosing set according to water hardness and degree of soil.
- Does not contain phosphorus or EDTA

How to use

place the dip tube in the containers. Assess the specific washing conditions and select the most appropriate programme as required. Proceed with the washing cycle.

Use

For dishwashers, glasswashers and utensil washers with automatic dosing/dispensing system. To be used in combination with TRILOGY T1 and TRILOGY T2

Dosing
0.1-0.2 ml / L

TRILOGY DOSING UNIT

Code: 93
EAN: 8054633830918
Pack: 1 unit

3 pump dosing unit

Dosing system with three peristaltic pumps suitable for any type of dishwasher (tunnel-hood-utensil washer-single tank). Dispenses concentrated dishwashing liquid, booster and rinse aid in proportion to water hardness, degree of soil and dishwasher water consumption: dose measured according to customer requirements. Exclusive dedicated software with washing statistics storage and processing (no. of cycles, consumption, etc.).

STOVIL GEL

Code: 1161-S
EAN: 8032680397561
Pack: 6 units x 1000 ml

1000 ml pH: 8,5 +/- 0,5

Automatic dishwashing liquid with rinse aid for all water hardness

- Detergent: easily removes grease and food residue
- Sequestering action: prevents formation of streaks and limescale on dishes and in the machine
- Shines steel: gleaming pots and pans without streaks or water spots
- Active Protection: prevents formation of limescale inside the dishwasher
- Rinse Aid: improves drying of dishes and glasses

How to use

Domestic dishwashers: pour the product into the detergent dispenser. Professional dishwashers: place the dip tube in the container and regulate dose.

Use

Domestic and professional dishwashers.

Dosing
Professional dishwasher:
2-4 ml / l

STOVIL GEL

Code: 1104
EAN: 8054633832011
Pack: 2 units x 5 l

5 L / 5,5 Kg pH: 8,5 +/- 0,5

Automatic dishwashing liquid with rinse aid for all water hardness

- Detergent: easily removes grease and food residue
- Sequestering action: prevents formation of streaks and limescale on dishes and in the machine
- Shines steel: gleaming pots and pans without streaks or water spots
- Active Protection: prevents formation of limescale inside the dishwasher
- Rinse Aid: improves drying of dishes and glasses

How to use

Domestic dishwashers: pour the product into the detergent dispenser. Professional dishwashers: place the dip tube in the container and regulate dose.

Use

Domestic and professional dishwashers.

Dosing
Professional dishwasher:
2-4 ml / l

STOVIL BAR

Code: 1110
EAN: 8032680391583
Pack: 2 units x 5 l

5 L / 6,4 Kg pH: 13,5 +/- 0,5

Alkaline automatic glassware and dishwashing liquid - for all water hardness

- Detergent: efficiently removes coffee/tea stains and lipstick
- Sequestering action: prevents formation of streaks and limescale on dishes and in the machine
- Shines steel: gleaming pots and pans without streaks or water spots
- Active Protection: prevents formation of limescale inside the dishwasher
- Rinse Aid: improves drying of dishes and glasses

How to use

place the dip tube directly into the container. Adjust dosing as necessary. For use with professional machines only. Use of automatic dosing systems is recommended.

Use

glasswashers with automatic dosing system.

Dosing
1-2 ml / l

STOVIL TABS

Code: 1160-S
EAN: 8032680394577
Pack: 5 units x 60 tabs

60 tabs pH: 11.0 +/- 0.5

Automatic dishwashing tabs

Each tab performs six actions:

- Powerful dirt removal
- Limescale and stain removal
- Rinse aid action
- Oxidising action with active oxygen
- Odour removal with lemon fragrance
- Active protection of glasses

How to use

Remove the tab wrapper and place inside the dish/glasswasher or in the detergent dispenser tray.

Use

Professional dishwashers and glasswashers, in any water hardness condition.

Dosing
1 tab every 5-8 cycles.

STOVIL GREEN POWER

Code: 4017
EAN: 8054633834619
Pack: 2 units x 5 l

5 L / 6,3 Kg pH: 13,5 +/- 0,5

**Concentrated alkaline auto-
matic dishwashing liquid.**

For all water hardness

- Detergent: easily removes grease and food residue
- Sequestering action: prevents formation of streaks and limescale on dishes and in the machine
- Shines steel: gleaming pots and pans without streaks or water spots
- Active Protection: prevents formation of limescale in the dishwasher Easily-rinsed foam-free product
- EU Ecolabel-certified low environmental impact product

How to use

Place the dip tube directly into the container. Adjust dosing as necessary.

Use

For use with professional machines only. Use of automatic dosing systems is recommended.

Dosing
1-3.5 ml / l

STOVIL GREEN POWER

Code: 4018
EAN: 8054633834626
Pack: 1 unit x 15 l

15 L / 18,9 Kg pH: 13,5 +/- 0,5

**Concentrated alkaline auto-
matic dishwashing liquid.**

For all water hardness

- Detergent: easily removes grease and food residue
- Sequestering action: prevents formation of streaks and limescale on dishes and in the machine
- Shines steel: gleaming pots and pans without streaks or water spots
- Active Protection: prevents formation of limescale in the dishwasher Easily-rinsed foam-free product

How to use

Place the dip tube directly into the container. Adjust dosing as necessary.

Use

For use with professional machines only. Use of automatic dosing systems is recommended.

Dosing
1-3.5 ml / l

STOVIL OSMOS

Code: 1180
EAN: 8054633838693
Pack: 2 units x 5 l

5 L / 5,9 Kg pH: 13,5 +/- 0,5

**Concentrated alkaline auto-
matic dishwashing liquid.**

Specific for osmotized water

- Detergent: easily removes grease and food residue
- Sequestering action: prevents formation of streaks and limescale on dishes and in the machine
- Shines steel: gleaming pots and pans without streaks or water spots
- Active Protection: prevents formation of limescale in the dishwasher Easily-rinsed foam-free product

How to use

Place the dip tube directly into the container. Adjust dosing as necessary.

Use

For use with professional machines only. Use of automatic dosing systems is recommended.

Dosing
1-3 ml / l

Pack: 1 unit

MANUAL DISPENSER

Code: 7

EAN: 8032680395437

Pack: 1 unit

Wall mount to support container

- Tidier workstation
- Greater operator safety
- Ergonomics

For detergents and dishwashing liquid

- Manual doser for detergents and hand dishwashing liquid. It is a very useful pump for hotels, restaurants, large communities and catering services. Simple to use, no power supply required, sink or wall mount. The pump sucks product from the container and dispenses into the washing sink, avoiding product waste. Dispensed product dose can be set to 5, 15 or 30 ml as required. Optimises dosing without waste.

The MSD logo is displayed in white capital letters on a red rectangular background.

SAFETY WITHIN REACH

Medical Surgical Device products (MSD) are chemical solutions formulated specifically to guarantee elimination of micro-organisms like bacteria, fungi and viruses from the environment. Sanitec MSD range includes a complete range of products designed specifically to ensure total safety in ordinary and special disinfection of all surfaces for environmental use. The formulations are based on active ingredients including: **Quaternary ammonium salts**, **Alcohol** or **Diamine**. Each product guarantees a specific level of disinfection and is designed to always ensure the solution that best suits your needs.

SPECIFICATIONS

Guest safety guaranteed

Reduction of risk of contamination from environmental factors

Respect of Italian legal requirements for sanitization of hospital facilities

Training by specialized technical staff for disinfection procedures

Help reduce proliferation of bacteria, fungi and viruses

Concentrated, ready-to-use products for surfaces and hands

ACTION TESTED: VIRUCIDAL, FUNGICIDAL, BACTERICIDAL

Tests conducted by accredited international laboratories that guarantee product efficiency.

Sanitec MSD products passed the Microbiological Activity tests with success: EN1276 "Bactericidal activity with interfering substances", EN1650 "Yeasticidal activity with interfering substances". MULTI ACTIV products and SANIMED product, in addition to tests above, yielded a positive test result in EN13697 "Bactericidal/fungicidal activity surface test" and EN14476 "Virucidal activity suspension test".

MULTI ACTIV

Unfragranced

Code: 1821-S
EAN: 8032680391446
Pack: 6 units x 750 ml

750 ml pH: 11,0 +/- 0,5

Ready-to-use disinfectant for household cleaning. Registration no. 20058 of the Italian Ministry of Health

- Ready-to-use multipurpose alcohol-based disinfectant.
- Its antibacterial formula guarantees removal of gram positive and gram negative bacteria, fungi, mould, viruses (encapsulated and non-encapsulated) and bad odours from smooth surfaces.
- Handy for disinfecting kitchens, bathrooms and all food contact surfaces.
- Gets rid of 99.9% of bacteria, mould and viruses.

How to use

For normal cleaning spray directly on the surface to be cleaned and dry with a cloth or paper. For disinfection leave the product to work for at least 15 minutes, then dry with a cloth, paper or rinse.

Warnings

Do not contaminate food, drinks or receptacles destined to contain either during use. Do not mix with other disinfectants or anionic cleaners.

SUSTAINABLE CLEANING IN EVERY ENVIRONMENT

Daily sanitizing operations are essential in ensuring the safety of every person on-site. For this reason, besides traditional environmental sanitizing and cleaning products, Sanitec has designed a fully Ecolabel-certified product family and a line of ultra-concentrated solutions with a practical dosing system to offer a range of ready-to-use products that are quick, practical and safe to use because they do not require use of PPE.

DOSY SYSTEM

Dosy is the concentrated product system that offers cleaning and disinfectant solutions with a range based on the minimum environmental criteria imposed by public authorities.

ENVIRONMENTALLY FRIENDLY SOLUTIONS

Powerful degreasers to clean every kind of surface.

TRADITIONAL SOLUTIONS

Powerful degreasers and descalers to clean and remove limescale from every kind of surface.

DOSY CABINET: SAFETY AND PRACTICALITY IN JUST ONE PUSH.

Dosy Cabinet is a practical dosing system, which lets you dispense the right amount of concentrated product, to easily and safely obtain the perfect concentration of product for use. Dosy Cabinet is available in three different versions, each designed to make use easier.

DOSY SMART DOSE

Dosy Smart Dose is a handy dispenser cap to dose the correct amount of product into the container, bucket or sink, without having to use the Dosy Cabinet system.

SPECIFICATIONS

Optimization of packaging costs in favour of formulation quality
Working in total safety: Dosy products do not require use of PPE at use concentration
Constant dosing on automatic dosing version and manual dosing version
Guaranteed hygiene: correct dosing guarantees maximum standard of hygiene
Practical dosing improves operator performance
Concentrated product drastically reduces transport volumes
No water or electrical connection required
Storage space reduced

HC1 WC

Code: 1702
EAN: 8054633835258
Pack: 6 units x 1000 ml

1000 ml pH: 1.5 +/- 0.5

Ultra-concentrated acid descaler for daily WC maintenance

- Removes limescale and organic waste materials
- Helps keep surfaces clean and shiny
- Eliminates bad odours with a fragrance harmonised with the Dosy product line.
- One litre of concentrate gives 50 x 500 ml containers of ready-to-use product.

How to use

Dilute product in water according to recommended doses and pour onto surfaces to be treated.

Leave to work and remove.

Use

WCs, bathrooms.

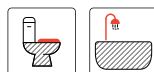

Dosing
40 ml / L

HC2A IGIEENIKAL

Code: 1703
EAN: 8054633835265
Pack: 6 units x 1000 ml

1000 ml pH: 1.5 +/- 0.5

Ultra-concentrated fragranced descaler detergent

- Rapidly dissolves dirt, limescale and soap scum from sinks, shower cubicles, taps, bathroom suites, tiles, etc.
- Leaves a pleasant fragrance harmonised with the Dosy product line.
- One litre of concentrate gives 50 x 500 ml containers of ready-to-use product.
- Low environmental impact product conforms to Minimum Environmental Criteria, reducing plastic waste, use costs and storage space.

How to use

Dilute product in water according to recommended doses in the trigger spray bottle. Spray on surface to be treated. Leave to work. Remove with a damp cloth.

Use

Sinks, shower cubicles, taps, bathroom suites, tiles, steel, stainless steel, chrome finish, ceramic, etc.

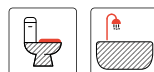

Dosing
40 ml / L

HC2B BATH

Code: 1704
EAN: 8054633835272
Pack: 6 units x 1000 ml

1000 ml pH: 10.5 +/- 0.5

Ultra-concentrated alkaline bathroom cleaner

- Rapidly eliminates organic dirt like creams and oils from sinks, shower cubicles, taps, bathroom suites, tiles, etc.
- For daily use, removes dirt, grease and soap scum without damaging acid-sensitive surfaces like marble and natural stone
- Leaves a pleasant fragrance harmonised with the Dosy product line.
- One litre of concentrate gives 50 x 500 ml containers of ready-to-use product.

How to use

Dilute product in water according to recommended doses in the trigger spray bottle. Spray on surface to be treated. Leave to work. Remove with a damp cloth.

Use

Bathroom: sinks, showers, bathtubs, bathroom suites and tiles.

Dosing
40 ml / L

HC3 CRYSTAL

Code: 1705
EAN: 8054633835289
Pack: 6 units x 1000 ml

1000 ml pH: 10.5 +/- 0.5

Ultra-concentrated glass and multi surface cleaner

- Cleans thoroughly evaporating rapidly and without leaving streaks
- Leaves a pleasant fragrance harmonised with the Dosy product line
- One litre of concentrate gives 50 x 500 ml containers of ready-to-use product.
- Low environmental impact product conforms to Minimum Environmental Criteria, reducing plastic waste, use costs and storage space.

How to use

Dilute product in water according to recommended doses in the trigger spray bottle.

Spray the solution on the surface to be cleaned and wipe off using a clean cloth.

Use

glass, mirrors and chrome finish.

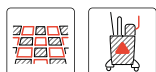

Dosing
40 ml / L

HC4 SURFACE

Code: 1706
EAN: 8054633835296
Pack: 6 units x 1000 ml

1000 ml pH: 10.0 +/- 0.5

Ultra-concentrated fragranced floor cleaner

- Degreases and easily removes dirt from all washable surfaces, including delicate surfaces like marble
- Low-foaming. Can be used with a mop or scrubber-dryer
- No-rinse, leaves no streaks
- Leaves a pleasant fragrance harmonised with the Dosy product line

How to use

Dilute product in water according to recommended dose.

Wash with mop or scrubber-dryer.

Use

stairways, condominiums, floors, walls, offices, hotel rooms and closets.

Dosing
4 ml/L

HC5 DEO

Code: 1707
EAN: 8054633836231
Pack: 6 units x 1000 ml

1000 ml pH: 5.5 +/- 0.5

No-Gas room fragrance with molecular odour eliminator

- Does not stain fabrics and surfaces
- Leaves a lasting, pleasant fragrance, harmonised with Dosy line products.
- One litre of concentrate gives 50 x 500 ml containers of ready-to-use product.
- Low environmental impact product reduces plastic waste, use costs and storage space.

How to use

Dilute product in water according to recommended dose.
Press the trigger 2-3 times to freshen the required area.

Use

hotel rooms, salons, shoe racks, closets, pet beds, carpets and fabrics.

Dosing
40 ml / L

HC8 NEOPOL GREEN POWER

Code: 1708
EAN: 8054633836248
Pack: 6 units x 1000 ml

1000 ml pH: 7.0 +/- 0.5

Ultra-concentrated hand dishwashing liquid

- pH neutral product, kind to skin
- Forms thick, easily-rinsed foam that does not leave streaks
- Fragrance-free
- EU Ecolabel-certified low environmental impact product

How to use

Pour the product dose into water, leave to soak until dirt loosens. Use a sponge/brush on stubborn dirt. Rinse and dry.

Use

hotel rooms, salons, shoe racks, closets, pet beds, carpets and fabrics.

Dosing
1 ml / L

HC9 DEGRI

Code: 1709
EAN: 8054633836255
Pack: 6 units x 1000 ml

1000 ml pH: 10.5 +/- 0.5

Ultra-concentrated hard surface degreaser

- Easily removes greasy and organic dirt
- Suitable for cleaning slicers, meat mincers, general equipment, surfaces, steel tables, etc.
- Can also be used on aluminium surfaces
- Leaves a pleasant fragrance harmonised with the Dosy product line.

How to use

Dilute product in water according to recommended doses in the trigger spray bottle. Spray on surface to be treated. Leave to work. Remove with a damp cloth.

Use

Worktops, cooker hoods, ovens, pans, grills, etc.

Dosing
40 ml / L

HC10 BAKTERIO

Code: 1713
EAN: 8054633836262
Pack: 6 units x 1000 ml

1000 ml pH: 10,5 +/- 0,5

Disinfectant for household use with bactericidal and fungicidal action

- For disinfection of household areas, it removes dirt thoroughly, gets rid of bad odours, does not damage metals or mark surfaces and leaves a pleasant fragrance in the room.

How to use

For deep disinfection of bathrooms, sinks, walls, floors, tiles, waste bins, toilet bowls and other surfaces where germs can breed, dilute in a 20% solution in water and leave to work for 15 minutes.

For ordinary disinfection and cleaning of bathrooms, sinks, walls, floors, tiles, doors, door frames, and other washable surfaces dilute in a 1-3% solution in water and leave to work for 5 minutes.

Use

Use on a damp cloth or sponge dipped in solution to disinfect and clean surfaces and objects in hotels, canteens, work spaces, schools, care homes, etc.

Dosy product line wall dispenser

The extremely simple, functional Dosy Cabinet structure means it is ready to use in just a few steps. Dosy Cabinet needs no power and water supply connections and has a practical safety closing mechanism. It lets you dose and dilute high performance concentrated products to ready-to-use solutions. Dosy Cabinet is the first dosing system for high performance concentrated products in rigid containers not bags: more practical and safer to transport and use. The same containers can also be used as needed with the dosing cap system thus optimising products and storage space. Dosy Cabinet is a flexible system: slot the bottle into the holder, insert the dip tube, prime with product and start to dispense products into the sink, bucket and handy trigger spray bottles. DosyCab's pre-set optimal dosing avoids excess product dispensing, thus guaranteeing reduced environmental impact and improved cost control. Perfect, constant dilution and monitoring of concentrated products means you never have to adjust the dosing ml because the value is already set during installation.

ULTRA DEGREASER GREEN POWER

Code: 3101
EAN: 8032680393693
Pack: 6 units x 750 ml

750 ml pH: 10,5 +/- 0,5

Universal Detergent Degreaser for stubborn grime

- Effectively removes grease, oil and burnt-on residue
- Ideal for catering, industry, workshops, offices, warehouses and hospitals
- EU Ecolabel-certified low environmental impact product
- With natural origin ingredients

How to use

Spray the product on the surface to be cleaned. Leave to work for a maximum of 5 minutes and rinse with a damp cloth.

Warning

DO NOT USE on non-anodized aluminium, natural wood and clear plastic materials (polycarbonates like helmet visors, shower cubicles, etc.). Test product compatibility on an area that doesn't show. This product is not designed for large-scale cleaning.

SANI ACTIVE Unfragranced

Code: 1804-S
EAN: 8054633834602
Pack: 6 units x 750 ml

750 ml pH: 11,0 +/- 0,5

Ready-to-use multipurpose disinfectant degreaser Registration number no. 20440 of the Italian Ministry of Health

- SANI ACTIVE – degreases and removes germs and bacteria from all surfaces in kitchens, bathrooms, offices, public environments, vehicles and waste receptacles. Recommended also for the agrifood and health industry, on food contact surfaces, and surfaces in contact with the elderly, babies and children. Suitable in all cases where cleaning and disinfection must take place in a single operation.

How to use

For normal cleaning spray directly on the surface to be cleaned and dry with a cloth or paper. For disinfection spray on and leave to work for at least 15 minutes, then dry with a cloth, paper or rinse.

Warnings

Keep out of reach of children. Do not contaminate food, drinks or receptacles destined to contain either during use. Do not mix with other disinfectants.

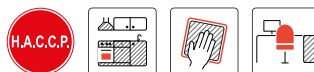

Dosing

Pack: 10 units x 500 g

500 g pH: 12,0 +/- 0,5

Deep fryer cleaning tabs

- Professional fryer cleaning tabs, for steel baskets and fryer surfaces.
- Rapidly removes oil and burnt-on grease, leaving surfaces clean and shiny.
- One single tab dissolved in boiling water produces brilliant results.

How to use

Empty oil out of fryer. Fill with water. Add the tabs and boil for 20 minutes. Rinse thoroughly with water and leave to dry.

Use

Deep fat fryers, steel vats

Dosing
1 tab per 10 l

CAFFÈ WASH

Code: 2160-S
EAN: 8032680393228
Pack: 6 units x 1000 ml

1000 ml pH: 12,5 +/- 0,5

Concentrated alkaline cleaner for classic coffee machines

- Effectively removes grime and burnt-on grease in coffee machine filters and portafilters
- Eliminates bad odours
- Does not alter the taste of coffee

How to use

For filters and portafilters dose the product into the blind filter. Alternatively immerse the parts in boiling water with product dosed as per instructions.

Use

professional coffee machine portafilters, filters, steam wands and groups.

Dosing
20-50 ml / l

S1 OVEN MICROWAVE

Code: 1832
EAN: 8054633837023
Pack: 6 units x 500 ml

500 ml pH: 10 +/- 0.5

Microwave oven internal and external surface cleaner

- Effective used cold
- Eliminates dirt, stuck-on grime and burnt-on food and drink residue
- Neutralizes unpleasant, lingering odours.

How to use

Spray on surfaces to be treated. Leave for a few minutes on dried dirt. Clean with a damp cloth or sponge and rinse.

Use

Microwave ovens

S2 FREEZER

Code: 1833
EAN: 8054633837030
Pack: 6 units x 500 ml

500 ml pH: 10 +/- 0.5

Sanitizing spray for cleaning fridges and rapidly de-icing freezers.

- Does not damage plastic, glass or metallic materials, etc.
- Sanitizing action
- Also tackles de-icing

How to use

Spray product on surfaces to be treated. Leave to work for a few minutes and clean with a cloth or sponge. FREEZER: Switch off the freezer. Spray product liberally on frozen areas. Remove ice once defrosting starts

Use

Metal and painted surfaces, plastics, seals and glass.

S3 WOOD

Code: 1834
EAN: 8054633837047
Pack: 6 units x 500 ml

500 ml pH: 7.0 +/- 0.5

Gentle pH neutral cleaner and conditioner for all wooden surfaces.

- Eliminates dirt and stubborn marks without leaving residue
- Nourishes wood
- Formula enriched with natural waxes
- Safe on treated surfaces

How to use

Spray product on a clean cloth at a distance of about 20 cm. Wipe the surface to be treated with the cloth.

Use

Wooden surfaces.
No need to rinse

S4 LEATHER

Code: 1835
EAN: 8054633837054
Pack: 6 units x 500 ml

500 ml pH: 7.0 +/- 0.5

Gentle pH neutral cleaner and reviver for all leather and faux leather surfaces.

- Eliminates dirt and stubborn marks without leaving residue
- Formula enriched with natural waxes, cleans, nourishes and revives, leaving a soft feel and helping maintain the original look and feel of leather
- Nourishes natural leather
- Safe on treated surfaces

How to use

Spray product on a clean cloth at a distance of about 20 cm. Wipe the surface to be treated with the cloth until completely dry.

Use

Leather surfaces

Code: 1836
EAN: 8054633837061
Pack: 6 units x 500 ml

500 ml pH: 10.5 +/- 0.5

Induction and ceramic hob cleaner

- Easily removes greasy dirt and food residue
- Detaches stuck-on grime
- Leaves surfaces clean and shiny without scratching

How to use

Spray product on a damp cloth or sponge or directly onto hob surface. Leave to work for a maximum of 5 minutes and rinse with a damp cloth.

Use

Induction and glass ceramic hobs

S6 STAINLESS STEEL

Code: 1875-S
EAN: 8032680392115
Pack: 6 units x 750 ml

750 ml pH: 2.7 +/- 0.5

Degreasing detergent for hard metal surfaces

- Easily removes greasy dirt and food residue
- Suitable for all metal surfaces like stainless steel, copper, aluminium and brass
- Cleans effectively without scratching
- Leaves a protective film on the treated surface

How to use

Spray on, leave to work and distribute evenly using a clean cloth. Polish with Sanitec Acciaio Vivo for brilliant results.

Use

All steel, stainless steel, copper, brass and aluminium surfaces, equipment, pans and utensils.

S7 STEELPRO

Code: 1813
EAN: 8054633830598
Pack: 6 units x 500 ml

500 ml pH: 6.5 +/- 0.5

Ready to use liquid polish for all steel surfaces.

- Polishes and protects all steel surfaces
- Forms a protective layer that delays formation of stains and limescale
- Ready-to-use liquid polish
- Delays formation of stains and limescale on treated surfaces

How to use

Spray on and distribute evenly with a clean cloth. For an excellent result, pre-treat the surface with Sanitec S6 - Stainless Steel

Use

Steel kitchen units, fridge doors, cooker hoods, dishwashers, lifts, etc.

SW12 RUDERAL

Code: 1976
EAN: 8032680392757
Pack: 2 units x 5 l

5 L / 5,3 Kg pH: 0,5 +/- 0,5

Universal hydrochloric acid-based hard surface descaler

- Powerful descaler, rapidly dissolves treated scale.
- Perfect for remove of stubborn limescale and rust
- Ideal for deep cleaning of floors and walls in bathrooms, swimming pools and spa areas

How to use

Dilute product in water according to recommended dose. Wet surfaces with broom or large medium bristle brush. Leave to work for a few minutes and rinse. Can be used with a pressure washer.

Use

Pools, baths, showers, boilers and radiators.

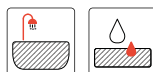

Dosing
20-40 ml / l

UNBLOCKER GEL

Code: 1979-S
EAN: 8032680392368
Pack: 6 units x 1000 ml

1000 ml pH: 13.5 +/- 0.5

Powerful alkaline drain unblocking gel with active chlorine

- The product acts rapidly on the blockage, moving even through stagnant water because of the heavy weight of its special gel formula
- A combined chemical and thermal reaction dissolves all deposits that normally cause a blockage
- Also recommended for preventive maintenance of drains and gutters
- Prevents formation of foul odours

How to use

Pour product down the drain. Wait 5 minutes. Run the hot tap

Use

sinks, shower cubicles, taps, bathroom suites, tiles, steel, stainless steel, chrome finish and ceramic, etc.

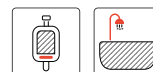

Dosing
500 ml

BIO BACT

Code: 2410
EAN: 8032680392535
Pack: 2 units x 5 l

5 L / 5 Kg pH: 6,5 +/- 0,5

Odour-eliminating bio cleaner for pipes, drains and dry wells

- Neutral product. Does not damage materials on contact
- Regular use of product maintains perfect efficiency and reduces maintenance and cleaning costs of Imhoff tanks, septic tanks, cesspits, grease traps and separators
- Diluted in solution, it can be used for deodorising waste and waste tanks and collectors

How to use

Pour directly down the sink according to recommended doses, when least in use.

Use

Drains, grease traps, pipes and sanitation plumbing in restaurants, hotels, bars, canteens, schools, hospitals and care homes.

Dosing
10-20 ml / l

Fragranced urinal screen

The new deodorising urinal screen releases 10 times more fragrance in one month. Revolutionary design: more flexible, fits all types of urinal; coloured: to allow perfect visibility of the WC; allows urine to drain easily. Its special action releases "beneficial particles" that eliminate urine odour and it runs out gradually as the fragrance evaporates.

Code: 1445
EAN: 8032680395895
Pack: 2 units x 5 l

5 L / 6,5 Kg pH: 13,5 +/- 0,5

Non-foaming alkaline hard surface cleaner for stubborn grime

- Efficiently removes even the most stubborn grime from high traffic floors in public and industrial spaces
- Removes black marks left by tyres and forklift truck wheels
- Can be used with a mop or scrubber-dryer

How to use

Dilute product according to recommended doses. Wash with a mop or scrubber-dryer. No need to rinse

Use

Floors and hard washable surfaces.

Dosing
20-40 ml / l

PULI ACID

Code: 1491
EAN: 8054633838044
Pack: 6 units x 1000 ml

1000 ml pH: 1.2 +/- 0.5

Concentrated descaler with phosphoric acid to remove persistent scale

- Efficiently removes inorganic scale like limescale deposits, cement residue and rust marks from acid-resistant surfaces
- Leaves a pleasant fragrance in the environment
- Safe for limescale removal on surfaces

How to use

Dilute product in water according to recommended dose. Apply to surface, scrub and remove with water.

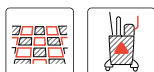

Use

Acid-resistant hard surfaces and floors.

FLOOR ACID

Code: 1460
EAN: 8032680391200
Pack: 2 units x 5 l

5 L / 5,5 Kg pH: 0,5 +/- 0,5

Hydrochloric acid-based cleaner and descaler for stubborn grime

- Effectively removes inorganic grime like: limescale, saltpeter bloom, cement, plaster, rust...
- Ideal for thorough washing of floors after laying, like Florentine terracotta, gres porcelain and clinker
- Safe for limescale removal on surfaces

How to use

dilute in water and apply to surface. Work in with scrubber or buffer. Clear up with wet vacuum or rags and rinse off.

Use

All acid resistant floors and surfaces: gres porcelain, cobblestones, clinker, terracotta, ceramic, poolside tiles.

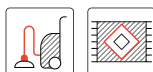

Warnings

use only on acid-resistant surfaces. Test product compatibility on an area that doesn't show.

MOQUETTE

Code: 1450
EAN: 8032680391224
Pack: 2 units x 5 l

5 L / 5,2 Kg pH: 10,5 +/- 0,5

Concentrated alkaline cleaner for carpets, rugs and fabrics

- Removes dirt thoroughly and effectively
- Protects fabric colour and structure
- Leaves the room pleasantly fragranced
- Use with an injection/extraction machine.

How to use

Dilute product in water according to recommended doses.

Use with an injection/extraction machine. Treat particularly stubborn dirt with neat product, as a stain-removing pretreatment, directly on the stain.

If using neat, it is advisable to test on an area that doesn't show first.

Use

textile surface cleaning with injection/extraction machines.

WX1 METALIZED WAX

Code: 1610
EAN: 8032680391279
Pack: 2 units x 5 L

5 L / 5,2 Kg pH: 8,5 +/- 0,5

Self-polishing metallized floor polish with high cross-linked polymers – for high traffic

- High-shine self-polishing emulsion suitable for all floors
- The protective film is highly resistant to traffic and has an anti-slip and dirt repellent effect
- Easy to apply and requires a short drying time
- Leaves a pleasant fragrance in the environment

How to use

Pour the polish directly onto the floor and spread evenly with a cotton cloth or slightly damp sponge.
Allow the surface to dry completely before walking over it. No need to buff. See data sheet for further information.

Use

All types of marble, porous, terracotta, cement and rubber floors. For traditional and high speed treatments.

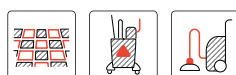

Dosing
R.T.U ready to use

WX3 WAX & CLEAN

Code: 1640
EAN: 8032680391323
Pack: 2 units x 5 L

5 L / 5,1 Kg pH: 7,0 +/- 0,5

Self-polishing floor wash and wax

- One single action removes surface dirt and polishes out marks and scratches on the wax film
- Self-polishing, quick and easy to use, no buffing required
- Leaves a pleasant fragrance in the environment

How to use

Dilute product according to recommended doses.
Can be used with mop or scrubber-dryer

Use

all waxed and unwaxed floors, including wood.

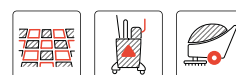

Dosing
10-30 ml / l

WX2 WAX REMOVER

Code: 1660
EAN: 8032680391316
Pack: 2 units x 5 L

5 L / 4,9 Kg pH: 11,0 +/- 0,5

Water-based wax remover

- Easily removes protective film from waxed floors
- Safe on all types of hard, water-resistant floors
- Low-foaming product for easier application

How to use

Dilute product in water. Apply solution with a mop and leave to work for 5-10 minutes. If using a scrubber, adjust the dosing and ensure that the correct floor pad is used. Use neat product on thick layers of wax. Rinse thoroughly with water to remove all wax residue.

Use

all floors treated with water-based wax emulsion.

Dosing
50-150 ml / l

DEO SPRAY

Emozioni

Code: 3050

EAN: 8054633836453

Pack: 12 units x 300 ml

300 ml pH: 5.5 +/- 0.5

Room and fabric freshener with odour eliminator technology

- Suitable for fragrancing rooms and all kinds of fabrics
- With molecular odour eliminator, helps remove foul odours leaving long-lasting fragrance
- Does not stain fabrics and does not leave residue

How to use

Slide safety catch in the dispenser to the left to activate spray.

Press the spray nozzle 2-3 times directing the spray upwards or into the specific area to be freshened.

The more product is sprayed, the longer the fragrance lasts. Lock the spray after use.

Use

hotel rooms, bathrooms, salons, kitchens, car interiors, shoe racks, closets, animal beds, carpets and fabrics.

Dosing

R.T.U. Ready to use

INDUSTRIAL

SANITEC
IGIENE SICURA

INDUSTRIAL HYGIENE AND SAFETY

The product family for industrial manufacturing and maintenance. Sanitec products offer hygiene and safety solutions that guarantee the most stringent standards in industrial environments. The industrial products are designed for sectors like agro-food, engineering, vehicle washing, heating and plumbing systems, plastics processing, construction, textiles and nautical industries.

■ AGRO-FOOD BUSINESSES

- Dairy cattle farming
- Sheep and goat farming
- Beef cattle farming
- Pig farming
- Poultry and rabbit farming
- Stables
- Farms
- Wineries
- Bottling and beverages
- Dairy processing
- Bakeries

■ WASHING OF INDUSTRIAL AREAS WITH HEAVY DIRT LOAD

- Auto bodyshops
- Auto repair workshops

■ COMMERCIAL VEHICLE WASHING

- Haulage trucks
- Refrigerated trucks, food transport trucks, tankers
- Fork lift trucks and earth-moving equipment
- Livestock transport
- Cruise ships, ferries and trains
- Car dealerships and showrooms
- Bus washing

FOAMER

Low pressure

Code: 283
EAN: 8054633838525
Pack: 1 unit

Low pressure CONNECTED TO WATER SUPPLY

Low pressure foamer with rinse function to create spray with up to two different detergents. Creates wet foam using the water supply pressure. Does not create vapour.

FOAMER

High pressure

Code: 284
EAN: 8054633838532
Pack: 1 unit

High Pressure CONNECTED TO COMPRESSED AIR LINE + WATER SUPPLY

High pressure foamer with rinse function to create spray with one detergent. Creates thick foam that clings evenly to vertical walls using compressor pressure.

EMULSI CHLOR

Code: 1859
EAN: 8054633830437
Pack: 1 unit x 15 l

15 L / 17,3 Kg pH: 13,5 +/- 0,5

Active chlorine alkaline foam cleaner

- Foaming alkaline detergent containing a high level of hypochlorite and surfactants
- Particularly effective in removing all organic residue and blood
- Easily removes coloured residue from vegetables and blood
- Foaming formula which also clings perfectly to vertical walls

How to use

Dilute product in water according to recommended dose. Apply using sponge or mop. With foaming station, apply evenly on the surface to be cleaned. Leave to work and rinse with water.

Use

food industry, agriculture, dairy and cheese industry, meat processing.

Dosing
10-20 ml / l

EMULSI FOAM

Code: 1852
EAN: 8054633830376
Pack: 1 unit x 15 l

15 L / 17,3 Kg pH: 13,5 +/- 0,5

Alkaline foam degreaser

- Foaming alkaline detergent with high level of alkalinity and surfactants
- Particularly effective in removing all heavy soil including fatty amides and greasy proteins
- Foam formula that also clings perfectly to vertical walls, equipment, workbenches and floors
- Ideal in meat, fish and vegetable processing and the agrifood industry in general

How to use

Dilute product in water according to recommended dose. Apply using sponge or mop. With foaming station, apply evenly on the surface to be cleaned. Leave to work and rinse with water.

Use

food industry, agriculture, dairy and cheese industry, meat processing.

Dosing
10-30 ml / l

EMULSI KAL

Code: 1856
EAN: 8054633830369
Pack: 1 unit x 15 l

15 L / 18,5 Kg pH: 1,2 +/- 0,5

Phosphoric acid-based foaming cleaner and descaler

- Foaming acid detergent with high inorganic acid content and surfactants
- Particularly suitable for removal of limescale created by water hardness, and other mineral deposits
- Foam formula that also clings perfectly to vertical walls, equipment, workbenches and floors
- Ideal in meat, fish and vegetable processing and the agrifood industry in general

How to use

Dilute product in water according to recommended dose. Apply using sponge or mop. With foaming station, apply evenly on the surface to be cleaned. Leave to work and rinse with water.

Use

food industry, agriculture, dairy and cheese industry, meat processing.

Dosing
3-10 ml / l

EMULSI CIP

Code: 2142
EAN: 8054633830307
Pack: 1 unit x 15 l

15 L / 18 Kg pH: 13,5 +/- 0,5

CIP system non-foaming alkaline cleaner

- Foaming alkaline detergent with high level of alkalinity and surfactants
- Particularly effective in removing all heavy soil including fatty amides and greasy proteins
- Easily rinsed, ideal for use with automatic CIP and immersion systems and dosed with low pressure systems
- Ideal in meat, fish and vegetable processing and the agrifood industry in general

How to use

Dilute product in water according to recommended doses and recirculate through the CIP system. Can be used for manual application with a scrubber-dryer or pressure washer.

Use

food industry, agriculture, dairy and cheese industry, meat processing.

Dosing
10-20 ml / l

EMULSI PERCITRIC

Code: 1864
EAN: 8054633837122
Pack: 1 unit x 15 l

15 L / 16,2 Kg pH: 2,0 +/- 0,5

Foaming acid detergent with high organic acids, surfactant and active oxygen content

- Foaming acid detergent with high organic acids, surfactant and active oxygen content
- Particularly effective in removing all organic residues and blood and residues of limescale and other mineral deposit build-up
- Easily removes coloured residue from vegetables and blood
- Excellent odour removal power, does not leave marks

How to use

Dilute product in water according to recommended dose. Apply using sponge or mop. With foaming station, apply evenly on the surface to be cleaned. Leave to work and rinse with water.

Use
food industry, agriculture, dairy and cheese industry, meat processing.

Dosing
10-30 ml / l

EMULSI HYPOCHLOR

Code: 1863
EAN: 8054633830444
Pack: 1 unit x 15 l

15 L / 18,6 Kg pH: 13,5 +/- 0,5

Active chlorine alkaline non-foaming cleaner

- Non-foaming alkaline detergent with high level of hypochlorite
- Particularly effective in removing all organic residue and blood
- Easily removes coloured residue from vegetables and blood
- Easily rinsed, ideal for use with automatic CIP and immersion systems and dosed with low pressure systems

How to use

Dilute product in water according to recommended dose. Apply using sponge or mop. With foaming station, apply evenly on the surface to be cleaned. Leave to work and rinse with water.

Use
food industry, agriculture, dairy and cheese industry, meat processing.

Dosing
10-20 ml / l

EMULSI ACID

Code: 1858
EAN: 8054633830420
Pack: 1 unit x 15 l

15 L / 15,8 Kg pH: 1,0 +/- 0,5

Non-foaming acid detergent with a base of organic acids and peracetic acid

- Non-foaming acid detergent with high organic acids and peracetic acid content
- Particularly effective in removing all organic residue and blood
- Easily removes coloured residue from vegetables and blood
- Easily rinsed, ideal for use with automatic CIP and immersion systems and dosed with low pressure systems

How to use

Dilute product in water according to recommended doses and recirculate through the CIP system. Leave to work and rinse with water. Can be used for manual application, with a scrubber-dryer or pressure washer.

Use
CIP systems, food industry, agriculture, dairy and cheese industry, meat processing.

Dosing
10-30 ml / l

EMULSI NITRO

Code: 1826
EAN: 8054633834749
Pack: 1 unit x 15 l

15 L / 18,8 Kg pH: 0,5 +/- 0,5

Non-foaming phosphonitric acid-based deoxidiser and descaler

- Deoxidising descaler with two active ingredients: phosphoric acid and nitric acid
- Suitable for use in the food, beverage, dairy and cheese, meat and fish processing industry.
- Easily rinsed, ideal for use with automatic CIP and immersion systems and dosed with low pressure systems
- Easily removes inorganic scale, limescale, milk stone.

How to use

Use the product on stainless steel or acid-resistant plastic equipment. Before descaling, flush out thoroughly with running water at room temp for 10 minutes. After completing flushing, start descaling treatment and leave to work for 10-20 minutes depending on the degree of scaling.

Use

CIP systems, food industry, agriculture, dairy and cheese industry, meat processing.

Dosing
5-10 ml / l

Chlorine-based water treatment additive

- Product with highly stabilised isocyanuric acid base
- Continuous use progressively releases the chlorine stabiliser, slowing breakdown by up to 80%, even in outdoor pools exposed to sun
- Product dissolves in water in a weakly acidic reaction that helps keep pool water pH stable at optimal value

How to use

Use product with automatic or manual systems using recommended dose.

SW5 LIQUID CHLOR

Code: 2082
EAN: 8054633833599
Pack: 1 unit x 15 l

15 L / 18,6 Kg pH: 13,0 +/- 0,5

Liquid chlorine 14-15 % for treating pool water

- Effective in shock treatments
- Can also be used undiluted
- Contains strong oxidising ingredients

How to use

Use product with automatic or manual systems using recommended dose.

Use

Pool water.

Dosing
~ 30-70 ml / m³

SW6 ANTI CHLOR

Code: 2618
EAN: 8054633835531
Pack: 2 units x 5 l

5 L / 6,1 Kg pH: 5,5 +/- 0,5

Liquid chlorine reducer

- Rapidly reduces the quantity of chlorine in the pool
- Safe, by-products of the reaction are non-toxic
- Guaranteed saving compared to changing water to lower the chlorine level

How to use

Use product with automatic or manual systems using recommended dose.

Use

Pool water.

Dosing
~ 5-6 ml / m³

SW9 ALGAE

Code: 2604
EAN: 8054633830109
Pack: 1 unit x 15 l

15 L / 15 Kg pH: 10,5 +/- 0,5

Product suitable for eliminating algae in pool water

- Ensures optimum hygiene conditions because it works on a range of different micro-organisms
- Prevents algae bloom in the pool and eliminates established algae bloom

How to use

Use product with automatic or manual systems using recommended dose.

Use

Pool water.

Dosing
~ 30-50 ml / m³

SW10 FLOCCULANT

Code: 2616
EAN: 8054633830383
Pack: 1 unit x 15 l

15 L / 20,4 Kg pH: 2,0 +/- 0,5

Product for flocculating and clarifying pool water

- Coagulates fine particles that make pool water cloudy
- Regular use reduces build-up of scale and consumption of pH adjusters
- Ideal for treatment of cloudy water due to the presence of iron, manganese and ammonia

How to use

Use product with automatic or manual systems using recommended dose.

Use

Pool water.

Dosing
~ 0.6-2.5 ml / m³

SW7 pH+

5 L / 5,3 Kg pH: 0,5 +/- 0,5

pH PLUS|pH corrector

Maintaining a correct ideal pH value of 7.2-7.4 with SW7-pH+ has various benefits:

- limits water change due to saturation and reduces running costs
- added effect of precipitating metals like iron and manganese
- limits eye irritation

How to use

Use product with automatic or manual systems using recommended dose.

Use

Pool water.

pH MINUS|pH corrector

Correct maintenance of ideal pH value 7.2-7.4 with SW8-pH- has various benefits

- limits water change due to saturation and reduces running costs
- prevents build-up of scale
- limits eye irritation

How to use

Use product with automatic or manual systems using recommended dose.

Use

Pool water.

Universal hydrochloric acid-based hard surface descaler

- Powerful descaler, rapidly dissolves treated scale.
- Perfect for remove of stubborn limescale and rust
- Ideal for deep cleaning of floors and walls in bathrooms, swimming pools and spa areas

How to use

Dilute product in water according to recommended dose. Wet surfaces with broom or large medium bristle brush. Leave to work for a few minutes and rinse.
Can be used with a pressure washer.

Use

Pools, baths, showers, boilers and radiators.

Dosing
~ 5-8 ml / m³
