ABOUT US

A STORY OF SUCCESS

Our numbers:

1987 year of **foundation**

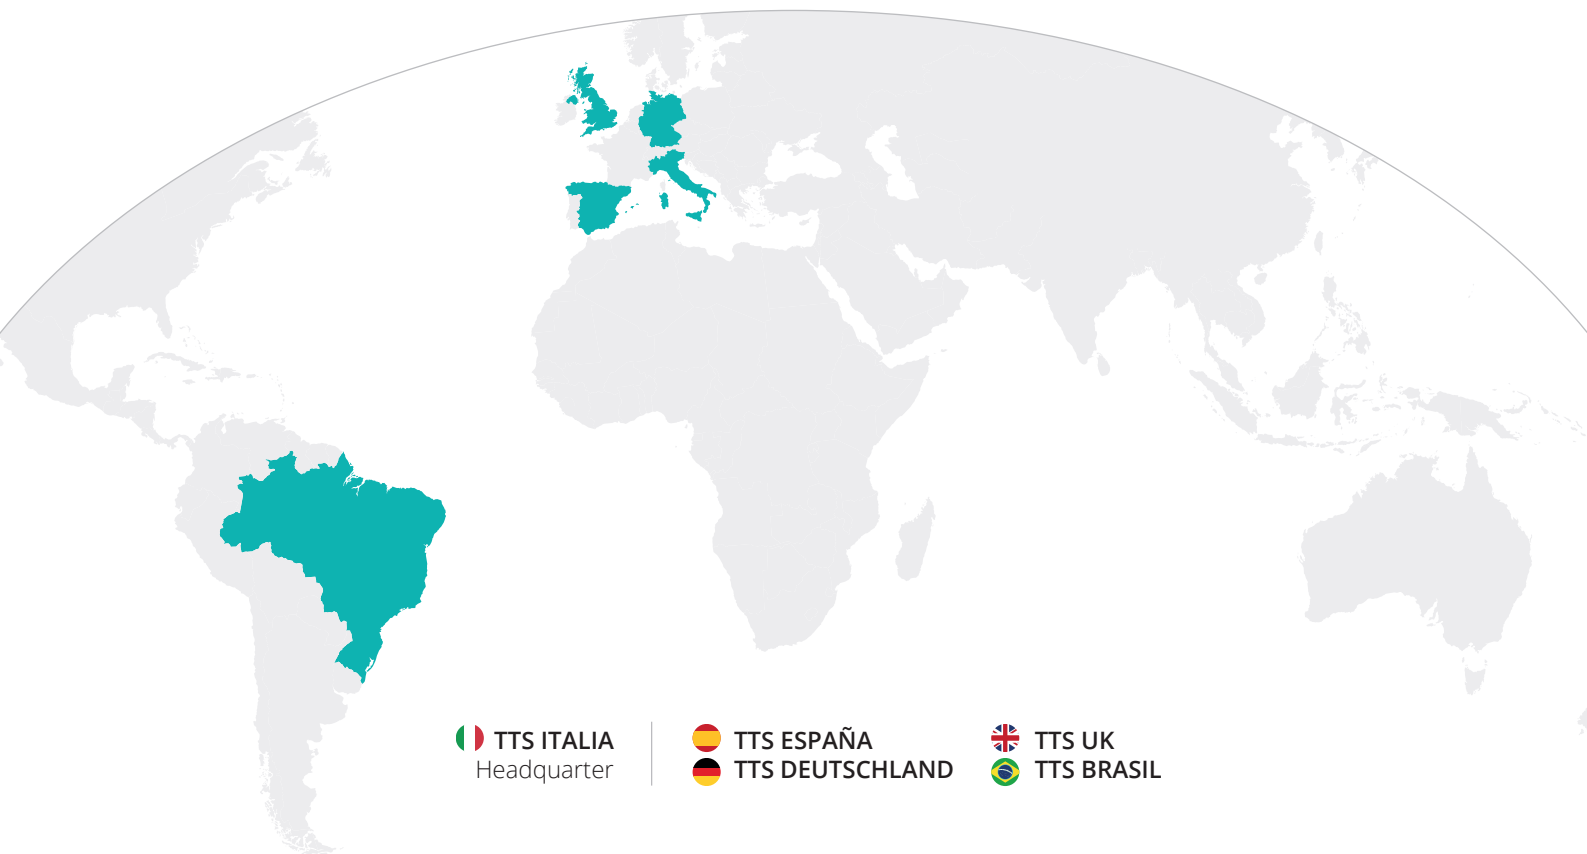

More than 100 **patents** filed

We export to over 80 **countries** worldwide

4 **in-country branches:**

- TTS Spain
- TTS Brazil
- TTS Germany
- TTS UK

More than 4.200 **items** in the catalogue

 **TTS ITALIA**
Headquarter

 **TTS ESPAÑA**
 **TTS DEUTSCHLAND**

 **TTS UK**
 **TTS BRASIL**

EQUIPMENT SPECIALISTS

It's a TTS product if...

it encourages a high standard of **hygiene**

it reduces **times** and therefore costs of operations

it is **ergonomic** and protects operator's health

it is **easy** to use, modular and customizable

it is unique in **design** and details

it reduces waste and **enviromental impact**

TARGET SUSTAINABILITY

A CLEANER WORLD...

COMPANY CERTIFICATION

- **ISO 9001** Certification
- **ISO 14001** Certification
- **REACH** Compliance

PRODUCT CERTIFICATIONS

- **PSV**: Plastic Second Life
- **EU Ecolabel** certification

COMMERCIAL BRANCHES

- **Timely service** to customers
- **Reducing environmental impact** of transport

USE OF PURE POLYMERS

- Products made from 100% polypropylene: **fully recyclable**
- Use of raw materials deriving from recycling: **low environmental impact**

PRODUCTION AND USE OF CLEAN ENERGY

- Use of **solar energy** obtained from the photovoltaic system installed in 2011

Expertise

- **Over 30 years** of activity on the market
- Manufacturers **specialised** in manual equipment
- Experts in the cleaning of **sanitary environments**
- **Direct experience** gained in the field
- **Needs analysis** in different sectors

Our goals

- **Ensuring a high level of hygiene**, eliminating the possibility of infections
- **Reducing waste** and environmental impact by promoting sustainable development
- **Optimising operations** by reducing cleaning time and costs
- **Protecting the health** and promoting the well-being of operators
- **Offering solutions tailored** to customer needs
- **Supporting customers** in managing the change of cleaning system
- **Developing tailor-made projects** with our customers

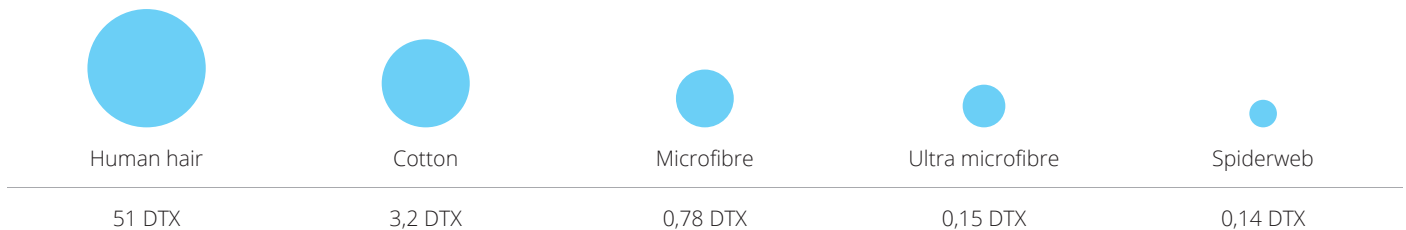

Service

- Our experts at your disposal to provide **sales force and operators training** on the use of TTS products and the correct procedures for cleaning and sanitising environments
- **Surveys on sites** to detect specific needs
- **Wide range of products** to find custom-made solutions
- **Quick deliveries:** our stock at your disposal
- **After sale support,** components and spare parts always available

How we achieve them

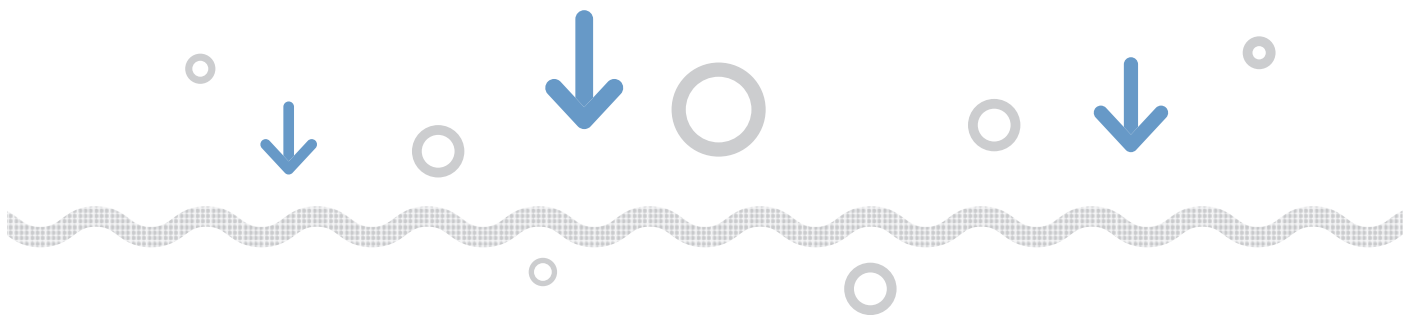

- **We design effective products and systems,** committed to improving cleaning protocols
- **We offer professional solutions** that allow you to reduce the use of chemicals and water
- **We provide complete cleaning systems** that allow you to reduce unproductive times
- **We reduce the loads and efforts** that lead to the onset of occupational diseases
- **We carry out on sites surveys** to detect specific needs in order to find custom-made solutions
- **We train staff and monitor processes** to ensure the effectiveness of the system

MICROFIBRE is a fibre, whose thickness is less than 1 DTX (Decitex), able to remove and collect micro particles of dirt and bacteria.

One gram of microfibre contains more than 10 km of yarn: for the same weight, therefore, it is 40 times longer than cotton.

Characterized by maximum absorption, it ensures a larger floor coverage compared to traditional yarns, with a consequent saving of time and costs.

Advantages of microfibre

Microfibre meets the different needs in terms of cleaning: it can be used to **dust, wash and dry any type of surface**, acting effectively on different degrees of dirt.

			
Quick cleaning	Ideal for any type of surface	Chemical saving	Water saving
			
Time saving	Surface drying	Long life cycle	Ergonomic system

REDUCTION OF CHEMICAL

Its very fine fibres penetrate into every porosity, **effectively catching dirt and bacteria**: this collection power allows reducing the quantity of cleaning solution necessary to guarantee hygienisation, thus reducing **consumption of chemical and water**.

On the contrary, with **traditional yarns you carry out a partial cleaning** as they collect and retain only a part of the dirt and bacteria present on the surfaces.

Microfibre is efficient not only in the cleaning phase but also when this operation is finished: **it resists to frequent washing more than natural yarns**, ensuring a long life and an excellent investment over time.

TTS Microfibres

TTS offers **a wide range of microfibres highly efficient** designed to appropriately meet the needs of the different surfaces to be treated.

Supports for Microfibres

TTS microfibres are available with different finishes to satisfy any need: flaps, pockets, strap tape system, pockets-flaps and micro flaps.

Cleaning furniture and vertical surfaces

CLEAN GLASS KIT

It cleans and dries at once shiny surfaces as mirrors and glasses, reducing 70% of the traditional costs.

STEEL-T CLOTH

It can be used damp for cleaning taps, tiles and steel surfaces, chrome and ceramic surfaces. It polishes, degreases and has an effective action against limescale, withstanding over 250 washes.*

MULTI-T LIGHT MICROFIBRE CLOTH

To be used dry for a quick and daily passage and wet for a deeper dusting of any surface. Available in 4 colours to manage risk in different areas (colour coded). It withstands over 250 washes*.

BiLap Twist frame
54 x 11 cm

ADVANTAGES

- ✓ It allows you to use a clean mop for each area to be treated, ensuring greatest control on cross contamination
- ✓ It speeds up and simplifies cleaning operations, significantly reducing related costs
- ✓ It reduces cleaning solution and environmental impact
- ✓ It ensures maximum ease of use and reduces the operator's strain while protecting his health

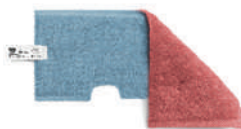

Pre-soaking system with Hermetic buckets

It has been demonstrated that the best performance in terms of hygiene is achieved by using a clean and soaked mop in each new environment: pre-soaking makes this good practice possible.

Flat mopping system with double sided frame

INFO AND ADVANTAGES

- ✓ Double cleaning; cut the quantity of necessary mops in half
- ✓ Removes and captures micro dirt particles and more than 95% of bacteria
- ✓ Ensures a large floor coverage thanks to the high absorbing power
- ✓ The two cleaning sides allow the management of different risk areas with one single mop, avoiding cross contamination between high, medium and low risk areas

Half mops...double gain!

Double-sided mops

The ultra-microfibre range developed by TTS guarantees optimum performances for any operation and is perfectly suitable to any kind of surface and dirt.

WASHING

Intuitive, handy and universal system

INFO AND ADVANTAGES

- ✓ The frame remains partially open to ensure an easy set-up of the tool.
- ✓ Flat mop can be quickly fixed to the frame: simply place the frame on the floor and press down.
- ✓ The buttons allow you to detach the used mop avoiding any contact with dirty fibres
- ✓ Micro-flaps are designed to stay fixed to the frame during cleaning operations
- ✓ This system can be used with the whole range of TTS wringers, according to your specific needs

No compatibility issues

**Soaking
on-demand**

**Wringing
systems**

**Pre-
soaking**

Uni System is an intuitive, handy and universal system, developed to facilitate cleaning operations of the surfaces and grant maximum hygiene. You don't have to change frame and mops according to the system you are using.

Uni System allows you to reduce the necessity of different frames for different cleaning methods: it is possible to use the same frame with both soaking systems.

Uni System can be used with the whole range of TTS wringers.

DUSTING AND WASHING

Dry and damp dusting systems

LAMELLO WITH ANTISTATIC CLOTHS

Lamello is a frame with 45° inclined rubber blades that adheres perfectly to any surface, ensuring effective dirt collection. The disposable cloth is soaked with atoxic mineral oil that captures dirt and dust without leaving residue. Using a clean mop for each area ensures greatest control on cross contamination.

DUSTING FRAME WITH MOP

The foldable dusting frame is composed of a plate and articulation in polypropylene and an adjustable metal structure that makes mop fixing to the frame easier.

The mop 100% acrylic effectively captures dust thanks to the natural anti-static action that is generated by rubbing fibres.

BIO SYSTEM WITH MOP

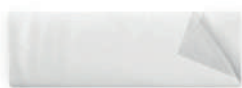

BIO System is a handle with tank always ready-to-use making cleaning operations quick and easy, reducing the use of chemical in comparison with traditional systems with bucket and wringer.

Microblue is a microfibre flat mop highly absorbent, that penetrates into the microporosity of the floor, collecting dirt and more than 95% of bacteria.

TRILOGY AND WET SYSTEM

Trilogy system doubles surface cleaning and allows wringing half as much in order to clean, saving time, effort, water and chemical solution. Trilogy is designed to be used with TriPress lever wringer, provided with buckets with practical handle holder, coloured handles help to identify rinsing water and cleaning solution and snap-together bucket system, no dripping. Wet System washing and disinfection system is ideal for professional and effective surface cleaning and can be used with Nickita trolley and Action Pro bucket.

WASTE COLLECTION WITH B-FLY

System with dustpan and floor squeegee to collect any type of dirt, either solid or liquid. Everything you need at your fingertips: dustpan with rubber edge that adapts perfectly to any type of floor and foldable grip in order to save space, floor squeegee designed to grant highest collection and 10 ready-to-use bags.

MAGIC^{Art}

THE ART OF BEING BEAUTIFUL

MagicArt: the line of TTS trolleys, unique for its elegance, diversity of style, range of functions and attention to details: all the typical features of Italian design in the world.

Made entirely of polypropylene, MagicArt represents the evolution of the traditional idea of hotel trolleys. They can be completely customized not only in their single components but in their whole image. Thanks to important planning studies and the use of new technologies, the graphical customization of trolleys has no limits.

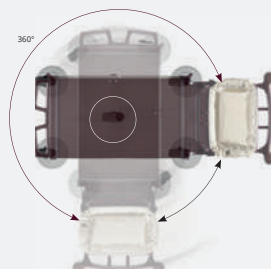

MagicArt will help to strengthen your image, your service and your professionalism.

MAGIC^{HOTEL}

Magic Hotel is the range of TTS trolleys conceived for the hotel industry and designed to offer the best in terms of aesthetics and functionality.

Magic Hotel line allows you to choose between elegant standard graphic compositions and customization with your logo or an image of your choice to make the trolley a communication vehicle perfectly integrated into the environment that surrounds it.

GREEN^{HOTEL}

Green Hotel trolleys are the result of TTS experience in the hotel field and of our attention to operators' needs.

Thanks to their modern design, Green Hotel trolleys improve your image and professional competence and help you to give a high-quality service, as they are spacious, easy to move, compact, modular and can be completed with accessories.

CUSTOMIZING TROLLEYS

Let your imagination run wild!

With MagicArt you can personalize your trolley at most.

On demand you can customize MagicArt with your logo or any other picture you like in order to make the trolley an integral part of your environment.

Allow your customers to use unique trolleys to:

PROMOTE

Making their company more visible

ADVERTISE

Promoting other business sectors

DECORATE

Using trolleys which match up with their premises

FILM PRINTING

Very short delivery times

Ideal for limited quantities

This solution involves printing on an adhesive film which is then applied to the doors and walls of the trolley.

High quality printing; adhesive film with high resistance guarantee

INJECTION PRINTING

Delivery times to be agreed

Ideal for large quantities

This solution involves printing directly on the trolley doors and walls during production

Scratch resistant printing, chemical-resistant

Dividers 120L and 150L bag holder

- Hygienic, as completely smooth and with no slits
- Foldable bag holder to save space
- Block system for horizontal and vertical position
- Equipped with 2 fixed hooks and 1 removable handle holder

It can be divided from 1 up to 3 sections:

- Wide opening of the lid to drop off easily waste
- Easy pull-out of the bag
- Rounded edges and smooth surfaces for an easy outside cleaning
- Handy grip to carry the trolley and non-marking wheels
- Bag holder closed on 4 sides for a complete hygiene

It can be divided from 1 up to 3 sections:

Set with adhesive labels for separate waste collection

- Modern and charming design: recycling is now easy and satisfying...with a touch of style!
- Easy to be applied on containers, waste bins or service trolleys
- Customize your working tools for a separate waste collection, really making a difference
- Each waste at the right place: paper, glass, plastic, metal or food waste

Trolleys for every need

The range of TTS trolleys is the result of our experience in the field and of our attention to operators' needs.

Characterized by a practical and functional design, the trolleys stand out for their particular layout that can ensure maximum capacity, compactness and ease of operation.

Laundry trolleys

ERGONOMIC DESIGN

Ideal for dirt linen collection, they allow bag extraction without the need to lift it, avoiding traumas and fatigue on the vertebral column.

ACCESSORIES

The accessories that make professional cleaning easier, handy and safe

Each TTS accessory is made with the highest quality materials and is characterized by a user-oriented design.

TELESCOPIC HANDLE

Cod. **00001044**

It is possible to adapt the handle to the height of the operator, reducing operator's strain

SCOUT HANDLE HOLDER

Cod. **00003319V**

To be applied to the handles from 21 to 29 mm to be able to lay them safely at any time, thus preventing accidents

IDRO PRO FILLING PIPE

Cod. **R040401**

It allows filling buckets from sinks thanks to the universal plug

COLOURED LAUNDRY NETS FOR MOPS AND CLOTHS

Cod. **00001834R**

It is introduced in the washing machine eliminating the direct contact with dirty fibres and reduces the rubbing of the mops during the washing phase, preventing wear and tear.

TWO SIDED FLOOR SIGN - EN

Cod. **00003560**

Ideal to carry out safely cleaning activities and preventing accidents and lawsuits

UNIVERSAL DOORSTOP WITH HANDLE

Cod. **00001060V**

Easy application and removal without bending and it leaves no marks on doors and surfaces thanks to its special thermoplastic rubber edge

NO ENTRY DOOR SIGNAGE

Cod. **00003900**

Fits doors of different sizes with no damage to door surfaces, blocking access to areas under maintenance

BOTTLE RACK WITH REMOVABLE DIVIDERS

Cod. **0E005105**

It allows you to organize all you need to clean bedrooms and bathrooms, each tool at your fingertips
