

# Pockety

No magic spell needed,  
**Pockety** does it all for you

No spells or magic formulas are needed:  
**Pockety does it all for you.**

## Touch-free

Disposing of mops without touching dirt, viruses and bacteria is finally a reality:

unlike traditional systems, Pockety allows you to dispose of mops in the bucket without ever touching them with your hands.

## Fast

Attach and detach mops in a flash:

the **ultra-light** and perfectly symmetrical frame ensures quick set-up while the innovative lid removes mops instantly.

## Easy

Just one easy and intuitive movement:

simply remove the frame from the lid to detach the used mop, which is collected directly into the bucket.

## Hygienic

From the frame  
directly to the laundry:

the unique bucket with lid is designed to be used with the laundry bag for quick and hygienic emptying and laundry operations.

## Ergonomic:

The operator does not have to keep bending over to pick up used mops after removing them, touching the dirty fibres to put them in the bag:

with Pockety you can remove mops instantly, maintaining an **ergonomic position**.

Pockety is a unique **patented system**\*:

the operator can rely on the practical **frame** designed to **speed up set-up and maximise collection**, combined with the innovative **bucket with lid** for **touch-free release**.

*\*Patent pending*

## Ultra light

Only 6 g  
compared to the  
strap tape system

## Meets all **needs**

Different versions are available to meet  
your specific needs:

Lampo

Infinity

Block system

## Faster operations

Designed to remain partially open  
for quick set-up

## Perfectly **balanced**

The totally symmetrical frame allows the  
mops to be quickly attached

## Highly **hygienic**

The smooth surfaces and the absence of  
cavities facilitate cleaning and guarantee  
a high level of hygiene

BUCKET WITH LID

Pockety

## Patented scrapers

Correct interaction between frame and lid allows immediate detachment of mops

## Compatible with bag

Can be used in combination with a net bag to facilitate laundry handling

## Long-lasting in time

Flexible and shockproof, it resists intensive use and ensures a long service life

## Hygiene guaranteed

Easy to clean thanks to smooth and fully accessible surfaces

## PSV certified

The bucket is made of 50% PSV certified recycled plastic (GPP compliant)

All **mops with pockets**,  
none excluded

Whether washable or disposable: Pockety is compatible with the **whole range of mops with pockets**.

This allows the operator to **use the most suitable mop** for the type of surface to be treated and the degree of dirt, disposing of it directly into the bucket without touching it.

## TTS recommends:

### Microblue flat mop

Microfibre flat mop,  
highly absorbent

### Soft Band flat mop

White microfibre flat mop  
with blue stripes, intensive action

### Ultrasafe flat mop

Microfibre and polypropylene flat  
mop for R10/11 non-slip surfaces

### Microriccio flat mop

Microfibre looped end  
flat mop

### Microsafe flat mop

Microfibre flat mop for non-slip floors  
and removal of ingrained dirt

### Tris flat mop

Microfibre, polyester and cotton  
flat mop, looped end

### Exon flat mop pockets system

Semi-disposable microfibre cloth  
for pockets system

Mops with pockets are more **long-lasting** and **hygienic**  
than the more common strap tape system

# Pockety

## Ideal with soaking

Combining Pockety with soaking systems effectively combats cross-contamination and ensures **maximum hygiene throughout the process**: from cleaning each area with a clean mop to disposing of the dirty mop without any hand contact.

TTS trolleys help to further control cross-contamination: they ensure a **clear division** between the area for **soaking clean mops** and the area for **collecting used mops**, thus allowing dirt to be confined to the collection area.

## Extremely versatile

Pockety can be used in combination with **all TTS trolleys**, from the smallest to the largest. In addition, when combined with **Ray tank handle** and disposable mops, it becomes an ultra-compact system ideal for **emergency sanitising operations**.

# Pockety

## Ideal for **speeding up operations**

Airports, shopping centres, but also condominiums and offices, Pockety is the answer to any demand for

efficiency and hygiene

## The **ally** against cross contamination

Hygiene is a crucial issue, especially in healthcare facilities: every year in Europe there are some

8,9 million infections

**related to care** in hospitals and long-term care facilities.\*

Hands are a dangerous vehicle for contamination, so it is essential to **avoid direct contact with potentially contaminated surfaces**.

Unlike traditional systems that require the operator to touch the dirty mops to dispose of them, **Pockety safely unhooks and collects them, eliminating any contact between hands and dirt**: this prevents the spread of viruses and bacteria and ensures **cross-contamination control**.

*\*Data from the survey conducted by the European Centre for Disease Prevention and Control (ECDC)*
